Adams,2010-08-10 Connecting sound biblical doctrine to the practice of effective counseling Jay E Adams

vocal advocate of a strictly biblical approach to counseling and author of the highly influential book *Competent to Counsel* firmly believes that the Bible itself provides all the principles needed for understanding and engaging in holistic counseling. But in order to bring the practice of counseling whether by professional therapists or by the church under biblical guidance we first have to deepen our understanding of Scripture. *A Theology of Christian Counseling* is the connection between solid theology, the study of God and its practical application. Each of its sections are devoted to increasing our understanding of counseling's potential by looking at it through the lens of doctrines such as Prayer and the doctrine of God, Human Sin and the doctrine of Man, Redemption and the doctrine of Salvation, Forgiveness and the doctrine of Sanctification. No counseling system that is based on some other foundation can begin to offer what Christian counseling offers. No matter what the problem is, no matter how greatly sin has abounded, the Christian counselor's stance is struck by the far more abounding nature of the grace of Jesus Christ in redemption. What a difference this makes in counseling. Jay E. Adams. With this book you'll gain insight into the rich theological framework that supports and directs your approach to how you help people change.

Christian Counseling Ethics Randolph K. Sanders, 1997-06-09. A client raises spiritual questions. Can a Christian therapist working in a government agency talk with a client about faith? A young couple with two children asks a Christian counselor to help them negotiate an end to their marriage. What responsibility does the counselor have to try to repair the relationship? A youth group member confidentially reveals to the pastor that he is taking drugs. Should the pastor tell the boy's parents? A counselor who teaches a college course has a client show up for class. What should she do? These are just a few of the complex dilemmas that therapists, counselors, and pastors face nearly every day. Handling these situations appropriately is critical for both the client's progress and the professional's personal credibility and protection from liability. State and federal codes, professional association statements, and denominational guidelines have been drawn up to address ethical issues like competence, confidentiality, multiple relationships, public statements, third parties, and documentation. In this book you'll find them all compiled and interpreted in light of Christian faith and practice. Written by qualified professional counselors and respected academic instructors, this book is an indispensable resource for understanding and applying ethics in Christian counseling today.
