

Sacred Objects. It has its own sacred objects. For Hindus idols, temples, Cow, river of Ganga and Jamna are sacred. For Christians the cross, Church, and Bible are the sacred objects while for Muslims. The holy Quran, Mosque, Baithullah, Crescent are sacred objects.

Symbols. Symbols are the signs used for sacred objects or situation. Symbols give meaning to human behavior. For example, when Muslims hear "Azan", they show a typical behavior and keep quiet. The Baithullah and Mosque are the symbols, of god while prayer is the symbol of humility before God.

Sects. There are small groups within a religion called sects. Sects have their own religious followers. In Christianity, there are Catholics, and protestants while in Islam these sects are Shias, Sunnis, Ahle Hadith, Wahabites etc. Among them every one claims to be true but one of them is on the path of righteousness which is the true religion Islam.

EXPLORING SPIRITUALITY

A comparative analysis of major religions reveals that an important characteristic of their belief system focuses on the longing for value in life (Parrinder 1971). For thousands of years, people have been searching and yearning to understand the mystery of life and the universe. There may come a point in time when an individual realizes that life is not entirely accidental and meaningless (Parrinder 1971). This is where the concept of spirituality comes in with the term "spiritual" being defined as "relating or affecting the human spirit or soul as opposed to material or physical things" (Oxford Dictionaries 2014). One author points out that it is quite common for people to say that they are "spiritual, not religious" (Grassie 2010). Spirituality may be manifested in quite a number of ways. For example, a person may believe in the presence of an overwhelming power greater than oneself or perhaps a person can be fully mindful of one's purpose in life. That person can also have a feeling of oneness or a bond with other living beings. While spirituality is derived from the Latin word spiritus, its verb root is spirare which means "to breathe" literally. There is an impression that people are surrounded by a "divine reality as pervasive, intimate, necessary, and invisible as the air we breathe" which is similar to Hindu prana and Chinese chi. (Grassie 2010). While religions are frequently viewed as set of ideals practiced and followed by organized groups, "spirituality is something an individual can have without being implicated in the ambivalent complexity of human societies and institutions" (Grassie 2010). Although traditional spirituality is frequently associated with religiosity, many people assert that personal spirituality can grow separately from religion. One may find inner peace, satisfaction, and contentment in life that are truly independent of religious dogmas and tenets. In the study of religion, there are basic concepts that need to be understood such as theology, philosophy of religion, and spirituality. While religion refers to any set of attitudes, beliefs, and practices concerning a supernatural power—theology involves the systematic study of the existence and nature of the divine. It deals with the study of the nature and purpose of god that may be undertaken using a particular perspective. Theology is a study, not a formulation of religious beliefs. On the other hand, philosophy of religion deals primarily with issues concerning religion, which includes analysis on the existence of a divine being or on sacred texts. It may involve studying the "concepts and belief systems of the religions as well as the prior phenomena of religious experience and

The Pervasive Spirit Concepts For A Personal Religious Philosophy:

The Pervasive Spirit Robert Harold Brown,1992 **Introduction to Religious Philosophy** Y. Masih,1991 This is a book with a clearly visible theme of Advaita That is not to say that Masih has not spoken of other things However this book is not an introduction to philosophy of religion but an introduction to religious philosophy Thus it escapes the narrow confines of being a mere introduction to religious philosophy as there are plenty of insights on philosophy of religion as well A striking aspect of this book is that the author not only believes but also calculates logically as to how the various insights of different religions must crossfertilise the visions of one another This exercise obviously demands a great deal of understanding of the various religious commitments The author quotes the example of Ramakrishna Paramahansa who suggested that there is something like religious unity and that one is capable of extending oneself beyond the limited confines of a single religion of the Supreme Spirit Thus understanding the Supreme Spirit as a concept is useful because it is in the nature of a concept that is shareable and comm unicable One appreciable part of the book is the sweep it has over the subject from Galloway and Martinieu to J N Findlay Hare Blik Kant Hastings Rashdall to McCloskey and Radhakrishnan the author has drawn from various thinkers **The Routledge Companion to Christian Ethics** D. Stephen Long,Rebekah L. Miles,2023-01-01 The Routledge Companion to Christian Ethics brings together two different but related disciplines the first is contemplative or theoretical asking what are the beliefs or doctrines that characterize Christianity whilst the second is practical asking what are the ethical practices that attend its teachings The movement between the theoretical and practical aspects is not however one way as doctrine and life are mutually informing In this comprehensive volume leading scholars address key topics problems and debates in this hotly debated topic within a truly global context Comprising over 35 chapters by a team of international contributors the handbook is divided into three parts based on the three persons of the Trinity God the Father God the Son and God the Holy Spirit Within these sections cutting edge issues are examined including God and genetics War peace and violence White supremacy Creation and sexuality Digital ethics Transgender studies Climate change Immigration and refugees Adopting a practical approach that must consider new concerns that have arisen with recent social political and cultural shifts The Routledge Companion to Christian Ethics is essential reading for students and researchers in Christian ethics religious ethics and Christianity studies The handbook will also be very useful for those in related fields such as ethics and philosophy *Dialogues in the Philosophy of Religion* J. Hick,2010-04-07 This is a collection of John Hick s essays on the understanding of the world s religions as different human responses to the same ultimate transcendent reality He is in dialogue with contemporary philosophers some of whom contribute new responses with Evangelicals with the Vatican and other both Catholic and Protestant theologians **The Christian Philosophy Quarterly** ,1882 Includes American Institute of Christian Philosophy Proceedings of the Institute Transcendence, Spirit in the Age of Science, Second Edition H. Bruce May,2011-07-01 A clear explanation of what transcendence really is how it underlies all religions

and how you can find it in your own life Witchcraft, Demons and Deliverance Claudia Währisch-Oblau, Henning Wrogemann, 2015 Beliefs in witchcraft and demons still shape many societies and seem to be increasing rather than disappearing with modernization and urbanization Witch hunts in Africa and Asia show the scope of the problem The deliverance practices of pentecostal and charismatic churches are widely controversial and their effects are rather ambiguous The contributions in this volume written by experts and practitioners from four continents analyze these phenomena from the perspectives of intercultural theology anthropology and ethnology and also describe the responses of Catholic and Protestant churches Series Contributions to Mission Science Intercultural Theology Beitrage zur Missionswissenschaft Interkulturellen Theologie Vol 32 Subject Anthropology Ethnology Sociology Religious Studies
