Donovan,2019-03-20 Scholarly Milton is admirably clear and informative It lays out the basics of Milton s education and intellectual life and the evolution of his thinking in relation to the political concerns of his time in ways that should orient a person new to this material at the same time as it provides a focused refreshment for someone more expert The articles themselves offer engaging and thoughtful explorations of Milton s work by grounding their analysis in specific seventeenth century intellectual concerns It should be clear that the essays in this volume speak to one another in fruitful ways they foreground Milton the educator as much as Milton the scholar Both educators and scholars will find it equally useful Margaret Thickstun MLA *Visions and Faces of the Tragic* Paul M. Blowers,2020-06-11 Despite the pervasive early Christian repudiation of pagan theatrical art especially prior to Constantine this monograph demonstrates the increasing attention of late ancient Christian authors to the genre of tragedy as a basis to explore the complexities of human finitude suffering and mortality in relation to the wisdom justice and providence of God The book argues that various Christian writers particularly in the post Constantinian era were keenly devoted to the mimesis or imaginative re presentation of the tragic dimension of creaturely existence more than with simply mimicking the poetics of the classical

Greek and Roman tragedians It analyses a whole array of hermeneutical literary and rhetorical manifestations of tragical mimesis in early Christian writing which capitalizing on the elements of tragedy already perceptible in biblical revelation aspired to deepen and edify Christian engagement with multiform evil and with the extreme vicissitudes of historical existence Early Christian tragical mimetics included not only interpreting and often amplifying the Bible's own tragedies for contemporary audiences but also developing models of the Christian self as a tragic self revamping the Christian moral conscience as a tragical conscience and cultivating a distinctively Christian tragical pathos The study culminates in an extended consideration of the theological intelligence and accountability of tragical vision and tragical mimesis in early Christian literary culture and the unique role of the theological virtue of hope in its repertoire of tragical emotions **The**

Oxford Handbook of Early Christian Studies Susan Ashbrook Harvey, David G. Hunter, 2008-09-04 Provides an introduction to the academic study of early Christianity c 100-600 AD and examines the vast geographical area impacted by the early church in Western and Eastern late antiquity from publisher description [Visions of Kinship in Medieval Europe](#) Hans Hummer, 2018-05-03 What meaning did human kinship possess in a world regulated by Biblical time committed to the primacy of spiritual relationships and bound by the sinews of divine love In the process of exploring this question Hans Hummer offers a searching re-examination of kinship in Europe between late Roman times and the high middle ages the period bridging Europe's primitive past and its modern future Visions of Kinship in Medieval Europe critiques the modernist and Western bio-genealogical and functionalist assumptions that have shaped kinship studies since their inception in the nineteenth century when Biblical time collapsed and kinship became a signifier of the essential secularity of history and a method for conceptualizing a deep prehistory guided by autogenous human impulses Hummer argues that this understanding of kinship is fundamentally antagonistic to medieval sentiments and is responsible for the frustrations researchers have encountered as they have tried to identify the famously elusive kin groups of medieval Europe He delineates an alternative ethnographic approach inspired by recent anthropological work that privileges indigenous expressions of kinship and the interpretive potential of native ontologies This study reveals that kinship in the middle ages was not biological primitive or a regulator of social mechanisms nor was it traceable by bio-genealogical connections In the Middle Ages kinship signified a sociality that flowed from convictions about the divine source of all things and which wove together families institutions and divinities into an expansive eschatological vision animated by the most righteous principle of love **War, Rebellion and**

Epic in Byzantine North Africa Andy Merrills, 2023-10-26 In around 550 the Latin poet Corippus composed his epic Iohannis to celebrate the forgotten wars of a Byzantine general against the Moorish or Berber peoples of North Africa This book explores the rich narrative of that poem and the changing political social and cultural environment within which he worked It reappraises the dramatic first decades of Byzantine North Africa 533-550 and discusses the ethnography of Moorish Africa the diplomatic and military history of the imperial administration and the religious transformations both

Christian and pagan of this period By considering the Iohannis as a political text it sheds new light on the continued importance of poetry and literature on the southern fringes of imperial power and presents a model for reading epic as a historical source This title is part of the Flip it Open Programme and may also be available Open Access Check our website Cambridge Core for details
