Revolutions and the Collapse of Monarchy Zhand Shakibi, 2007-02-23 What causes revolution What brought about the end of the last major monarchies of the modern period Were Louis XVI Nicholas II and Mohammad Reza Pahlavi the unwitting victims of historical circumstance or did their own actions help to bring about the revolutions that overthrew them This powerful and original book is the first comparative study of the revolutions in Bourbon France Romanov Russia and Pahlavi Iran Zhand Shakibi analyses fully the

timing and causes of these three revolutions and reveals the important similarities between them. Revolutions and the Collapse of Monarchy argues provocatively that it is often the monarch's own personality that provides the vital spark which produces revolution. This ambitious and important book challenges the Marxist interpretation of history and adds a compelling new perspective to theories of revolution.

Urbanization And Regional Disparities In Post-revolutionary Iran Ahmad Sharbatoghlie, 2021-11-28 Iran's rapid population growth coupled with a legacy of political and administrative centralization has led to acute regional disparities. Although the roots of these inequalities can be traced back to the monarchical era, this book shows how the Revolution and subsequent developments have significantly affected the social and economic conditions of urban and rural areas in post-revolutionary Iran. Considering geographic, demographic, structural, and policy factors, the author presents a multi-levelled analysis of Iran's current situation and offers a proposal for a more balanced future development strategy.

Essays on the Economic History of the Middle East Sylvia G. Haim, Elie Kedourie, 2005-09-30 Published in 1988, *Essays on the Economic History of the Middle East* is a valuable contribution to the field of Middle Eastern Studies.

After Khomeini Anoushiravan Ehteshami, 2002-03-11 For Iran, the years since Ayatollah Khomeini's death have been dominated by the need for political consolidation and economic reconstruction. The book assesses the critical dilemmas of the regime both previous to and since the demise of its first spiritual leader. The vital issues of political succession and constitutional reform are addressed, contributing to an analysis of the structures and politics of power. How these have reflected upon economic policy is considered with close attention, being given to the reform policies of Rafsanjani. Foreign policy and security issues are discussed in both regional and global terms and include a study of Iranian defence strategy and its controversial re-armament drive. The final chapter examines the direction and context of all of these major policy areas, providing an analysis of whether the Islamic Republic truly represents a revolutionary alternative for the Third World or whether, in fact, it has developed in time to fall within a similar mould to other notable revolutions, casting by the wayside any uniquely Islamic agenda and alternatives. At the heart of this study is the belief that the Islamic regime has, since the cease-fire with Iraq, but more specifically since Ayatollah Khomeini's death, passed into a new stage of development referred to in the book as the Second Republic.

Bazaar and State in Iran Arang Keshavarzian, 2007-04-12 The Tehran Bazaar has always been central to the Iranian economy and indeed to the Iranian urban experience. Arang Keshavarzian's fascinating book compares the economics and politics of the marketplace under the Pahlavis, who sought to undermine it in the drive for modernisation, and under the subsequent revolutionary regime, which came to power with a mandate to preserve the bazaar as an Islamic institution. The outcomes of their respective policies were completely at odds with their intentions. Despite the Shah's hostile approach, the bazaar flourished under his rule and maintained its organisational autonomy to such an extent that it played an integral role in the Islamic revolution. Conversely, the Islamic Republic implemented policies that unwittingly transformed the ways in which the bazaar operated, thus undermining its

capacity for political mobilisation Arang Keshavarizian's book affords unusual insights into the politics economics and society of Iran across four decades *Petroleum and Progress in Iran* Gregory Brew,2022-12-22 Explores how oil companies Western development NGOs the US government and Iranian technocrats turned Iran into the first petro state **The Fall of Heaven** Andrew Scott Cooper,2016-08-02 About the rise and fall of Iran's glamorous Pahlavi dynasty Traces the Shah's life from childhood through his ascension to the throne in 1941 Readers get the story of the Shah's political career alongside the story of his courtship and marriage to Farah Diba and an exclusive look at life inside the palace during the Iranian Revolution
