The Politics at God's Funeral Michael Harrington,1985 **The Democratic Socialist Vision** Gary Dorrien,1987 To find more information about Rowman and Littlefield titles please visit [www rowmanlittlefield com](http://www.rowmanlittlefield.com) **The Oxford Handbook of Religion and American Politics** Corwin E. Smidt,Lyman A. Kellstedt,James L. Guth,2017 Over the past three decades the study of religion and politics has gone from being ignored by the scholarly community to being a major focus of research Yet because this important research is not easily accessible to nonspecialists much of the analysis of religion s role in the political arena that we read in the media is greatly oversimplified This Handbook seeks to bridge that gap by examining the considerable research that has been conducted to this point and assessing what has been learned what remains unsettled due to conflicting research findings and what important questions remain largely unaddressed by current research endeavors The Handbook is unique to the field of religion and American politics and should be of wide interest to scholars students journalists and others interested in the American political scene **Advocacy Journalists** Edd Applegate,2009-05-11 This book focuses on the lives of journalists and editors who contributed to advocacy journalism Each entry contains biographical information about the journalists their professional careers major works and in some cases commentary on those works *Performance versus Results* John H. Gibson,1993-06-18 This study examines the consequences of cultural development on the emergence of contemporary sport The current preoccupation with statistics and reductionist theories has objectified athletic performance to the extent that the scoreboard identifies excellence Gibson offers an alternative position that focuses on the relationship of the athlete to the sport **My Inaugural Address at the Great White Throne Judgment of the Dead** Alvin Miller,2011-12-03 An unusual perspective on current End Times events as prophesied in the Book of Revelation including the Rapture and the Tribulation updated and expanded to over 600 pages **Policymaking Under Adversity** Yehezkel Dror,2017-09-29 This groundbreaking study systematically treats recent policymaking trends starting with a reconsideration of salient theoretical issues of policymaking and its study and culminating with a survey of current policy related predicaments in various countries Dror proposes that the task for social science research is to uncover underlying causes of policymaking inadequacies Standard research methods Dror states have been unable to uncover the realities of important decisions made inside governments In order to gain an understanding of pressing predicaments he believes that policymakers need to examine the foundations of contemporary practices of present assumptions and that they need a multiplicity of approaches to policymaking After prescribing a set of requirements that policymaking must satisfy in order to adequately respond to challenges Dror posits several improvements needed in education and in policy decision making The book concludes with an extensive bibliography including numerous important German works not found in other English language studies This book supplements the earlier basic theory and models propounded in Dror s *Public Policymaking Reexamined* by dealing with current trends As a guide to public policy literature

and related works it will be invaluable to students and practitioners

The Rush to Policy Peter William House, Roger Don Shull, Rush to Policy explores the appropriate role of technical analysis in policy formulation The authors ask when and how the use of sophisticated analytic techniques in decision making benefits the nation They argue that these techniques are too often used in situations where they may not be needed or understood by the decision maker where they may not be to answer the questions raised but are nonetheless required by law House and Shull provide an excellent empirical base for describing the impact of politics on policies policy analysis and policy analysts They examine cost benefit analysis risk analysis and decision analysis and assess their ability to substitute for the current decision making process in the public sector They examine the political basis of public sector decision making how individuals and organizations make decisions and the ways decisions are made in the federal sector Also they discuss the mandate to use these methods in the policy formulation process The book is written by two practicing federal policy analysts who in a decade of service as policy researchers developed sophisticated quantitative analytic and decision making techniques They then spent several years trying to use them in the real world Success and failures are described in illuminating detail providing insight not commonly found in such critiques The authors delineate the interaction of politics and technical issues Their book describes policy analysis as it is not how it ought to be Peter W House is the director of policy research and analysis at the National Science Foundation He is the author of ten books on multidisciplinary science and technology policy research and analyses in government private and university sectors including The Art of Public Policy Analysis and with Roger D Shull Regulatory Reform Politics and the Environment and Regulations and Science Management of Research on Demand Roger D Shull is a senior analyst at the Division of Policy Research and Analysis National Science Foundation

The Dance with Community Robert Booth Fowler, 1991-07-25 Contemporary intellectuals have rushed to embrace the concept of community What does this tell us about American political thought Why are intellectuals uneasy with modern liberal individualism and its institutional policy results Why is political intellectual discourse dominated today by complaint In The Dance with Community Robert Booth Fowler reflects upon these and related questions My goal he writes is to present contemporary political thought about community for what it is a conversation interactive spirited and sometimes tough There have been many interpretations of the much discussed decline in community spirit Rather than offer another Fowler steps back to look at the debate itself He examines from the perspective of an intellectual historian the attention to community in current American political thought and explores the setting of that attention He also identifies five alternative models of community integral to the current debates and sketches a clear image of each its relationship to others the logic of its appeal and its emphases and problems In each instance he places the model into the larger conversation over alternative communities and the value of community itself

The Interrelation of the Great Awakening and Harvard College George J. Gatgounis, 2022-10-11 The Interrelation of the Great Awakening and Harvard College by the Rev Dr George Gatgounis Esq examines the history of

Harvard College from its founding as a training center for Puritan preachers in 1636 through the Great Awakening and its gradual decline as a major spiritual force at Harvard. Gatgounis, a Harvard alumnus, relies on documents in the college's archives to document how evangelist George Whitfield, concerned about the decline in spirituality among the student body, stirred up the campus on his first visit in 1741 but was denounced by the administration as a dangerous zealot on his return in 1744.
