Cheatham, 2007-04 Historical places and my favorite people **The Quest for Streetcar Unionism in the Carolina Piedmont, 1919-1922** Jeffrey M. Leatherwood, 2017-06-23 Ever since the courtroom doors closed in 1919 the tragic Charlotte Streetcar Strike has haunted the collective memory of the Carolina Piedmont region During a season of labor unrest it briefly made national headlines Five men were killed and at least twelve others were wounded by gunfire during a demonstration against Southern Public Utilities a subsidiary of James B Duke's Southern Power For many who lived afterward in North Carolina's Queen City the strike and riot were events better left forgotten while for later generations the Battle of the Barn has become an item of curiosity As the centennial approaches this book represents the result of over ten years worth of primary research about the Charlotte Streetcar Strike a story that rightfully belongs to a larger narrative about the AFL's campaign to organize transportation workers among the textile mill towns of North and South Carolina Prior to the 1919 Charlotte Strike the national streetcar union had overcome fierce anti labor sentiment from South Carolina's state capital of Columbia to the Upcountry citadel of Spartanburg To AFL organizers Charlotte represented the last link in the Piedmont chain The Carolina Backcountry Venture Kenneth E. Lewis, 2017-04-15 A study of the transformative economic and social processes that changed a backcountry Southern outpost into a vital crossroads The Carolina Backcountry Venture is a historical geographical and archaeological investigation of the development of Camden South Carolina and the Wateree River Valley during the second half of the eighteenth century The result of extensive field and archival work by author Kenneth E Lewis this publication examines the economic and social processes responsible for change and documents the importance of those individuals who played significant roles in determining the success of colonization

and the form it took Established to serve the frontier settlements the store at Pine Tree Hill soon became an important crossroads in the economy of South Carolina s central backcountry and a focus of trade that linked colonists with one another and the region s native inhabitants Renamed Camden in 1768 the town grew as the backcountry became enmeshed in the larger commercial economy As pioneer merchants took advantage of improvements in agriculture and transportation and responded to larger global events such as the American Revolution Camden evolved with the introduction of short staple cotton which came to dominate its economy as slavery did its society Camden s development as a small inland city made it an icon for progress and entrepreneurship Camden was the focus of expansion in the Wateree Valley and its early residents were instrumental in creating the backcountry economy In the absence of effective larger economic and political institutions Joseph Kershaw and his associates created a regional economy by forging networks that linked the immigrant population and incorporated the native Catawba people Their efforts formed the structure of a colonial society and economy in the interior and facilitated the backcountry s incorporation into the commercial Atlantic world This transition laid the groundwork for the antebellum plantation economy Lewis references an array of primary and secondary sources as well as archaeological evidence from four decades of research in Camden and surrounding locations The Carolina Backcountry Venture examines the broad processes involved in settling the area and explores the relationship between the region s historical development and the landscape it created
