Wrong on Race Bruce Bartlett, 2024-06-04 In Wrong on Race Bruce Bartlett sets the record straight on a hidden past that many Democrats would rather see swept under the carpet Ranging from the founding of the Republic through to today it rectifies the unfair perceptions of America s two national parties While Nixon s infamous Southern Strategy is constantly referenced in the media less well remembered are Woodrow Wilson s segregation of the entire Federal civil service FDR s appointment of a member of the KKK to the Supreme Court John F Kennedy s apathy towards civil rights legislation and the ascension of Robert Byrd who is current President pro tempore of the Senate third in line in the presidential line of succession and a former member of the KKK For the last seventy years African Americans have voted en masse for one party with little in the end to show for it Is it time for the pendulum to swing the other way With the Republican Party furiously engaged in pre 2008 soul searching this exhaustively researched incisively

The Transformation of Property Regimes and Transitional Justice in Central Eastern Europe Liviu Damşa, 2017-01-03
 This volume examines the property transformations in post communist Central Eastern Europe CEE and focuses on the role of restitution and privatisation in such transformations It argues that the theorisation of restitution in post communist CEE is incomplete in the transitional justice scholarship and in the literature on correction of historical wrongs The book also argues that for a more complete theorisation of post communist restitution the transformations of property in post communist societies ought to be studied in a more holistic way The main legal vehicles used for such transformations privatisation and restitution should not be studied separately and in abstract but in their reciprocal relationship and in connection to the dimension of justice which each could achieve Finally the book integrates privatisation in a theory of post communist transformation of property

Law, Time and Historical Injustices Harison Citrawan, 2024-12-09 This book provides a critical assessment of how judges reason in the adjudication of historical injustices The practice of adjudication in historical cases of injustice require that in determining collective responsibility judges impart meaning to past injuries This book analyses the narrative mechanisms through which this meaning is produced Focusing on three areas of adjudication racial discrimination post colonial extractivism and the climate crisis the book s analysis focuses on the issue of time It considers the interplay of how historical injustice adjudication is shaped by temporal presuppositions and how it enacts a particular idea of temporality As experiences of injustice are narrated the book demonstrates how some of those experiences are included and others are excluded within the process of adjudication Drawing on legal theory legal epistemology and the philosophy of time the book thus offers an instructive and provocative account of how collective

Race Rights Reparations Fernne Brennan,2017-07-14 This book considers institutional racism as a problem that exists within modern societies Its roots lie with the transatlantic slave trade and slavery and the solution involves ridding society of the problem It is argued here that first there needs to be an acceptance of its existence then developing the tools needed to deal with it and finally to implement those tools so that institutional racism can be permanently removed from society The book has four themes the first considers the nature of institutional racism the second theme looks at instances of institutional racism through matters such as deaths in custody and skin lightening the third considers the concept of reparations and the final area looks at the development of social movements as a way of pushing institutional racism up the political agenda The development of a social movement is part of a social discourse which would for example push mentoring as a form of reparations There is a need for more research on the manifestations of institutional racism and this book is part of that discourse It is argued that the legacy of the slave trade and slavery is continuing and contemporary through the presence of institutional racism in society This problem has not been addressed through legislation and policies devised to combat racial discrimination Institutional racism needs to be understood as being located in the processes and procedures of societal institutions
