## **The Challenges Of Our Time Disarmament And Social Progress:**

**The Challenges of Our Time** Mikhail Gorbachev, **The Challenges of Our Time**, 1986 **The Coming Fin De Siècle** Stjepan Mestrovic, 2010-11-01 First Published in 1991 this book attempts to show the relevance of Durkheim's sociology to the debate on modernity and postmodernism It does so by examining how Durkheim's ideas can be applied to current social issues The author argues that there are striking parallels between the social context of the 1890s when Durkheim began to publish in book form and today The book will appeal to the readers of sociology as well as the related disciplines of philosophy psychology cultural studies and history It is also intended for anyone interested in the issues and questions that were being raised as humanity approached the end of the twentieth century and the end of the millennium

**The Challenges of Our Time**, 1986 *RLE: Emile Durkheim: 4-Volume Set* Various, 2022-07-30 This four volume set is dedicated to the work of Emile Durkheim one of the most important and prolific sociologists in the field who is commonly cited as a founding father of modern social science With volumes published between 1975 and 1991 this collection brings together a range of modern critical responses to Durkheim's work across a broad range of topics including epistemology modernism and post modernism theories of social order and the rise and development of modern society The authors in the collection also draw important comparisons between Durkheim and other seminal sociologists including Max Weber and Claude Bernard For institutional purchases for e book sets please contact online sales tandf.co.uk customers in the UK Europe and Rest of World [Internationalism and the Ideology of Soviet Influence in Eastern Europe](#) Jonathan C.

Valdez, 1993-04-29 Valdez argues that the use of the fundamental principles of Marxism Leninism to perform various functions ultimately brought about a change in the basic assumptions of the theory itself This resulted in the abandonment of the previous insistence on a universal model of socialism and of the idea that the international interests of the socialist bloc must take precedence over individual national interest Soviet influence in Eastern Europe rested on little else than these ideological principles and consequently stood little chance of surviving their re interpretation Finally Valdez assesses the re interpretation of the fundamental principles of Soviet East European relations by reformist scholars in the Soviet Union and the response by conservative members of the party apparatus **Globalizing Human Rights** Christian

Peterson, 2012-03-12 *Globalizing Human Rights* explores the complexities of the role human rights played in U S Soviet relations during the 1970s and 1980s It will show how private citizens exploited the larger effects of contemporary globalization and the language of the Final Act to enlist the U S government in a global campaign against Soviet Eastern European human rights violations A careful examination of this development shows the limitations of existing literature on the Reagan and Carter administrations efforts to promote internal reform in USSR It also reveals how the Carter administration and private citizens not Western European governments played the most important role in making the issue of human rights a fundamental aspect of Cold War competition Even more important it illustrates how each administration

made the support of non governmental human rights activities an integral element of its overall approach to weakening the international appeal of the USSR In addition to looking at the behavior of the U S government this work also highlights the limitations of arguments that focus on the inherent weakness of Soviet dissent during the early to mid 1980s In the case of the USSR it devotes considerable attention to why Soviet leaders failed to revive the international reputation of their multinational empire in face of consistent human rights critiques It also documents the crucial role that private citizens played in shaping Mikhail Gorbachev s efforts to reform Soviet style socialism Ideology and System Change in the USSR and East Europe Michael Urban,2016-07-27 These studies cover a range of topics market reforms social justice ecology nationalism new political parties and more that are at the centre of the revolutionary changes under way in the former Soviet bloc The breadth of this book s subject matter is complemented by the variety of methods and approaches that it features historical interpretation linguist analysis statistical analysis and political sociology The result is a genuinely inter disciplinary treatment of this important topic *False Dawn* Lee Penn,2004 The interfaith movement which began with the 1893 World s Parliament of Religions in Chicago has grown worldwide Although this movement has been largely unknown to the public it now provides a spiritual face for globalization the economic and political forces leading us all from nationalism to One World The most ambitious organization in today s interfaith movement is the United Religions Initiative URI founded by William Swing the Episcopal Bishop of California Investigative reporter Lee Penn a Catholic ex Marxist exhaustively documents the history and beliefs of the URI and its New Age and globalist allies the vested interests that support these movements and the direction they appear to be taking The interfaith movement is no longer merely the province of a coterie of little heeded religious idealists with grandiose visions The URI s proponents have ranged from billionaire George Soros to President George W Bush from the far right Rev Sun Myung Moon to the liberal Catholic theologian Hans K ng and from the Dalai Lama to the leaders of government approved Protestant churches in the People s Republic of China The interfaith movement including the URI is being promoted by globalist and New Age reformers who favor erosion of national sovereignty marginalization of traditional religions establishment of global governance and creation of a new Earth based global spirituality in effect a one world religion Therefore the URI and the interfaith movement are poised to become the spiritual foundation of the New World Order the new civilization now proposed by Mikhail Gorbachev the last leader of the Soviet Union In *The Reign of Quantity and the Signs of the Times* French metaphysician Ren Gu non spoke of the anti tradition the forces of materialism and secular humanism finally giving way to the counter tradition the satanic inversion of true spirituality leading to the regime of Antichrist The anti tradition weakens and dissolves traditional spiritualities after which the counter tradition sets up a counterfeit in their place Since Gu non s time as is well known anti traditional forces have greatly advanced worldwide It is less well known that counter traditional movements have also made great strides and now stand closer to the centers of global political and religious power than ever before The counter tradition is making inroads on

the political and cultural Right as much as it is doing on the Left False Dawn painstakingly documents these trends and speculates on their future development In so doing the author takes investigative reporting to the threshold of prophecy and gives us a stunningly plausible picture of the global religious landscape of the 21st century This extraordinary project is the literary equivalent of turning over a flat rock There is much to be seen and learned here all of it unsettling disquieting occasionally downright scary William Murchison Radford Distinguished Professor Baylor University When a bishop of a Christian church happily worships alongside a Wiccan invoking other gods something has gone horribly wrong In False Dawn Lee Penn has produced a comprehensive and critical history of the United Religions Initiative This book sounds a clear warning Anyone who makes theological truth subservient to utopianism denigrates all religions Douglas LeBlanc Editor GetReligion org

**Habits of the Balkan Heart** Stjepan Gabriel Meštrović, Slaven Letica, Miroslav Goreta, 1993 Almost as soon as Communism fell in Eastern Europe in 1989 Western politicians and intellectuals concluded that the West had won the Cold War and that liberal democracy had triumphed over authoritarianism in the world Euphoria spread with the expectation of a New World Order Within months the giddy optimism began to fade especially in the face of what soon became a brutal war in former Yugoslavia Why did Serbia choose to replicate many of Germany's methods and aims from World Wars I and II including ethnic cleansing read genocide and a campaign to establish a Greater Serbia Sociologist Stjepan Mestrovic writing with Slaven Letica and Miroslav Goreta argues that the social and political character of the Dinaric herdsmen which dominates Serbian culture and politics even though it is found in all Balkan nations accounts for the form Communism took there the fall of Communism and the savagery and brutality of the post Communist war With carefully reasoned analysis the authors show how sociological theories of social character propounded by such thinkers as de Tocqueville Veblen and Bellah can shed light on the conflicts in the Balkans which according to conventional wisdom were not supposed to occur when Communism fell They demonstrate that ancient traditional ethnic social and nationalistic tendencies habits of the heart of the various people of the Balkans have taken precedence over pressures for democracy in the political and cultural vacuum left by the end of Communism in the region Unfortunately the difficulties in the Balkans will persist for a long time to come and similar conflicts could break out in the former Soviet Union This thought provoking book has much new to say about the causes of such ethnic and class conflicts in the region and the feasibility of policies for dealing with these sores If democracy is to be achieved in post Communist East Europe the authors argue it must be based on the good habits of the heart that coexist there with bad or authoritarian social character

*Russian Leaders* Alexander Dragomiroff, 2002 Russian Leaders A Bibliography With Indexes

Negotiating START Kerry M. Kartchner, The United States and the Soviet Union have been negotiating nuclear arms control agreements for over twenty years yet radical differences remain in the two sides concept of and approaches to strategic stability and arms control This book compares and contrasts those approaches using START Strategic Arms Reduction Treaty as a case study Throughout two decades of

negotiation U S policy has been directed toward dialogue that would encourage convergence of American and Soviet thought on nuclear deterrence In Kartchner s view that hope is belied not only by continuing asymmetries in the development and deployment of their strategic nuclear arsenals but by differing U S and Soviet negotiating positions The Reagan administration viewed START as a means of repudiating SALT II restoring a measure of balance in the U S Soviet strategic competition and as a way of closing the so called window of vulnerability In contrast Kartchner analyzes the Soviets differing views of nuclear balance emphasizing their satisfaction with SALT II and a strategic equilibrium shaped by a decade of bilateral arms control Kartchner offers a detailed exposition of the major negotiating issues in START contrasting concerns of U S and Soviet negotiators Not surprisingly each side s agenda was dominated by weapon systems that figure prominently in the other s development program The author concludes by summarizing and comparing American and Soviet quests for stability and drawing up an assessment of U S efforts in both SALT and START to use arms control negotiations as a kind of classroom for instructing Soviet officials in American notions of stabilizing versus destabilizing weapon technology and America s own ethnocentric view of stability START will profoundly affect the acquisition operation maintenance and cost of U S strategic nuclear forces well into the next century The history and analysis presented here will provide an essential source to policymakers and students of military political relations for much needed further study of this treaty s implications

Hansen, Robin A Remington, Istvan Dobozi, 2019-07-11 This volume deals with the nature of the relationship between the countries of Eastern Europe and the Soviet Union and those of the Third World offering some background to the decline in the Soviet Union s international position both politically and economically

**Arms Control Verification and the New Role of On-site Inspection** Lewis A. Dunn, Amy E. Gordon, 1990 Since enactment of the INF Treaty on site inspection to monitor compliance has come to figure prominently in negotiations over strategic arms reductions conventional force reductions and specific weapons bans This volume offers many perspectives on the future of on site inspection in arms control Experts in the field offer their evaluations of what on site inspection can and cannot contribute to the realization of US arms control and national security goals in the coming decade Annotation copyrighted by Book News Inc Portland OR      **The Challenge of Community Mental Health and Erich Lindemann**

David G. Satin, 2020-09-03 These volumes make new contributions to the history of psychiatry and society in three ways First they propose a theory of values and ideology influencing the evolution of psychiatry and society in recurring cycles and survey the history of psychiatry in recent centuries in light of this theory Second they review the waxing prominence and waning of Community Mental Health as an example of a segment of this cyclical history of psychiatry Third they provide the first biography of Erich Lindemann one of the founders of social and community psychiatry and explore the interaction of the prominent contributor with the historical environment and the influence this has on both We return to the issue of values and

ideologies as influences on psychiatry whether or not it is accepted as professionally proper This is intended to stimulate self reflection and the acceptance of the values sources of ideology their effect on professional practice and the effect of values based ideology on the community in which psychiatry practices The books will be of interest to psychiatric teachers and practitioners health planners and socially responsible citizens     *The Nation* ,1919     **The Sons of Sergei** Donald Kelley,Shannon Davis,1992-06-16 This collection brings together noted scholars in a comparison of the reform efforts of Nikita Khrushchev and Mikhail Gorbachev Contributors examine the Communist Party in the two eras the economy agriculture law ideology policy foreign affairs defence policy and Eastern Europe     Record of Proceedings ,1991
