## **The Changing Past Trends In South African Historical Writing:**

**The Changing Past** Ken Smith, Kenneth Wyndham Smith, 1988      History from South Africa Joshua Brown, 1991 More starkly than any other contemporary social conflict the crisis in South Africa highlights the complexities and conflicts in race gender class and nation These original articles most of which were written by South African authors are from a special issue of the *Radical History Review* published in Spring 1990 that mapped the development of interpretations of the South African past that depart radically from the official history The articles range from the politics of black movements in the nineteenth and twentieth centuries to studies of film television and theater as reflections of modern social conflict History from South Africa is presented in two main sections discussions of the historiography of South Africa from the viewpoint of those rewriting it with a radical outlook and investigations into popular history and popular culture the production and reception of history in the public realm In addition two photo essays dramatize this history visually maps and a chronology complete the presentation The book provides a fresh look at major issues in South African social and labor history and popular culture and focuses on the role of historians in creating and interacting with a popular movement of resistance and social change

*Encyclopedia of Historians and Historical Writing* Kelly Boyd, 2019-10-09 The *Encyclopedia of Historians and Historical Writing* contains over 800 entries ranging from Lord Acton and Anna Comnena to Howard Zinn and from Herodotus to Simon Schama Over 300 contributors from around the world have composed critical assessments of historians from the beginning of historical writing to the present day including individuals from related disciplines like Jürgen Habermas and Clifford Geertz whose theoretical contributions have informed historical debate Additionally the *Encyclopedia* includes some 200 essays treating the development of national regional and topical historiographies from the Ancient Near East to the history of sexuality In addition to the Western tradition it includes substantial assessments of African Asian and Latin American historians and debates on gender and subaltern studies

**The Oxford History of Historical Writing** Stuart Macintyre, Juan Miguélez, Attila Pók, 2011-10-27 Volume 4 of *The Oxford History of Historical Writing* offers essays by leading scholars on the writing of history globally from 1800 to 1945 Divided into four parts it first covers the rise consolidation and crisis of European historical thought and the professionalization and institutionalization of history The chapters in Part II analyze how historical scholarship connected to various European national traditions Part III considers the historical writing of Europe's Offspring the United States Canada South Africa Australia New Zealand Mexico Brazil and Spanish South America The concluding part is devoted to histories of non European cultural traditions China Japan India South East Asia Turkey the Arab world and Sub Saharan Africa This is the fourth of five volumes in a series that explores representations of the past from the beginning of writing to the present day and from all over the world This volume aims at once to provide an authoritative survey of the field and especially to provoke cross cultural comparisons

**The Griqua Past and the Limits of South African History, 1902-1994** Edward Cavanagh, 2011 The Griqua people are commonly

misunderstood Today they do not figure in the South African imagination as other peoples do nor have they for over a century This book argues that their comparative invisibility is a result of their place in the national narrative In this revisionist analysis of South African historiography the author analyses over a century's worth of historical studies and identifies a number of narrative frameworks that have proven resilient to change over this time The Griqua in particular have fared poorly compared to other peoples They appear in and disappear from this body of work in a number of consistent ways almost as though scholars have avoided reimagining their history in ways relevant to the present This book questions why that might be the case

**Historical Dictionary of South Africa** Christopher Saunders, Peter Limb, 2020-12-15 As the most influential and powerful country on the entire continent of Africa an understanding of South Africa's past and its present trends is crucial in appreciating where South Africans are going to and from where they have come South Africa changed dramatically in 1994 when apartheid was dismantled and it became a democratic state Since 2000 when the previous edition appeared further big changes occurred with the rise of new political leaders and of a new black middle class There were also serious problems in governance in public health and the economy but with a remarkable popular resilience too This third edition of Historical Dictionary of South Africa contains a chronology an introduction and an extensive bibliography The dictionary section has more than 600 cross-referenced entries on important personalities as well as aspects of the country's politics economy foreign relations religion and culture This book is an excellent resource for students researchers and anyone wanting to know more about South Africa

*The Anxieties of White Supremacy* Christoph Marx, 2024-11-11 Prime Minister Hendrik Verwoerd 1958-1966 was an authoritarian modernizer and a true representative of the Age of Extremes How did the Architect of Apartheid grow his ideology of racial segregation into a comprehensive system and a policy for the future The Anxieties of White Supremacy Hendrik Verwoerd and the Apartheid Mindset explores his intellectual development and academic career prior to entering politics

*Sights, Sounds, Memories* Ian van der Waag, 2020-12-15 The Second World War involved most of the countries of the world and left so many millions dead and maimed disorganised and devastated through personal and communal loss This book recovers some of South Africa's soldiers' experiences from the physical and mental debris of the war Individuals are important their lives used as lenses give us colour and texture and their voices tell the stories of ordinary soldiers Using their memoirs and diaries the vitality of their endeavours is reasserted their successes and failures victories and indecencies are re-examined and their magnanimity and the general triumph of the human spirit are celebrated

**Mfecane Aftermath** Carolyn Hamilton, Thomas Dowson, Elizabeth Eldredge, Norman Etherington, Jan-Bart Gewald, Simon Hall, Guy Hartley, Margaret Kinsman, Andrew Manson, John Omer-Cooper, Neil Parsons, Jeff Peires, Christopher Saunders, Alan Webster, John Wright, Dan Wylie, 1995-01-01 The idea that the period of social turbulence in the nineteenth century was a consequence of the emergence of the powerful Zulu kingdom under Shaka has been written about extensively as a central episode of southern African history Considerable dynamic debate has focused on the idea that this period the

mfecane left much of the interior depopulated thereby justifying white occupation One view is that the time of troubles owed more to the Delagoa Bay Slave trade and the demands of the labour hungry Cape colonists than to Shaka's empire building But is there sufficient evidence to support the argument The Mfecane Aftermath investigates the very nature of historical debate and examines the uncertain foundations of much of the previous historiography **The Atlantic World** D'Maris Coffman, Adrian Leonard, William O'Reilly, 2014-12-05 As the meeting point between Europe colonial America and Africa the history of the Atlantic world is a constantly shifting arena but one which has been a focus of huge and vibrant debate for many years In over thirty chapters all written by experts in the field The Atlantic World takes up these debates and gathers together key original scholarship to provide an authoritative survey of this increasingly popular area of world history The book takes a thematic approach to topics including exploration migration and cultural encounters In the first chapters scholars examine the interactions between groups which converged in the Atlantic world such as slaves European migrants and Native Americans The volume then considers questions such as finance money and commerce in the Atlantic world as well as warfare government and religion The collection closes with chapters examining how ideas circulated across and around the Atlantic and beyond It presents the Atlantic as a shared space in which commodities and ideas were exchanged and traded and examines the impact that these exchanges had on both people and places Including an introductory essay from the editors which defines the field and lavishly illustrated with paintings drawings and maps this accessible volume is invaluable reading for all students and scholars of this broad sweep of world history **Toward Peace Security Southern** Harvey Glickman, 2022-02-22 First Published in 1990 This volume originates with a conference at Haverford College April 28 30 1989 On that weekend an international group of scholars inside and outside governments from Africa and elsewhere assembled to address the theme Toward Peace and Security in Southern Africa The conference was based on a sense of urgency concerning the continuing plight of the region reflected in the renewed state of emergency in South Africa and the declining economies in southern Africa as well as paradoxically a sense of impending opportunity for South Africa and the region as manifested in the Angola Namibia accords recently negotiated **Natures of Colonial Change** Jacob A. Tropp, 2006-10-01 In this groundbreaking study Jacob A Tropp explores the interconnections between negotiations over the environment and an emerging colonial relationship in a particular South African context the Transkei subsequently the largest of the notorious homelands under apartheid In the late nineteenth century South Africa's Cape Colony completed its incorporation of the area beyond the Kei River known as the Transkei and began transforming the region into a labor reserve It simultaneously restructured popular access to local forests reserving those resources for the benefit of the white settler economy This placed new constraints on local Africans in accessing resources for agriculture livestock management hunting building materials fuel medicine and ritual practices Drawing from a diverse array of oral and written sources Tropp reveals how bargaining over resources between and among colonial officials chiefs and headmen and local African men and women

was interwoven with major changes in local political authority gendered economic relations and cultural practices as well as with intense struggles over the very meaning and scope of colonial rule itself *Natures of Colonial Change* sheds new light on the colonial era in the Transkei by looking at significant yet neglected dimensions of this history how both colonizing and colonized groups negotiated environmental access and how such negotiations helped shape the broader making and meaning of life in the new colonial order

**Understanding the British Empire** Ronald Hyam, 2010-05-20 *Understanding the British Empire* draws on a lifetime's research and reflection on the history of the British Empire by one of the senior figures in the field Essays cover six key themes the geopolitical and economic dynamics of empire religion and ethics imperial bureaucracy the contribution of political leaders the significance of sexuality and the shaping of imperial historiography A major new introductory chapter draws together the wider framework of Dr Hyam's studies and several new chapters focus on lesser known figures Other chapters are revised versions of earlier papers reflecting some of the debates and controversies raised by the author's work including the issue of sexual exploitation the European intrusion into Africa including the African response to missionaries trusteeship and Winston Churchill's imperial attitudes Combining traditional archival research with newer forms of cultural exploration this is an unusually wide ranging approach to key aspects of empire

**Different Lives** Hans Renders, David Veltman, 2020-06-15 Internationally acclaimed biographies are almost always written by British or American biographers But what is the state of the art of biography in other parts of the world Introduced by Richard Holmes the volume *Different Lives* offers a global perspective seventeen scholars vividly describe the biographical tradition in their countries of interest They show how biography functions as a public genre featuring specific societal issues and opinion making Indeed the volume aims to answer the question how can biography contribute to a better understanding of differences between societies and cultures Special attention is given to the US China and the Netherlands Other contributions are on Australia Belgium Canada the Czech Republic Denmark Iceland Iran Italy New Zealand Spain and South Africa This book represents a much needed breakdown of the history and current status of Biography Studies throughout the world Any educator teaching a course in higher education that includes Biography Studies should definitely consider this as a major text for inclusion Billy Tooma film maker and Assistant Professor Wessex County College The rise of biography is the literary event of our time Hamilton and Renders are its pioneer scholars and their compelling primer is a must read Joanny Moulin Institut Universitaire de France on Nigel Hamilton and Hans Renders in *The ABC of Modern Biography* 2018 See inside the book

**Oxwagon Sentinel** Christoph Marx, 2008 This new approach to the social history of Afrikaner nationalism looks into the diverse causes for the rise of a political movement which was to shape South African history profoundly during the 20th Century In the 1930s Afrikaner nationalism transformed itself from a populist into a cultural nationalism becoming politically radicalised at the same time The nationalist symbol of the oxwagon was used not only by the National Party but also by the extra and antiparliamentarian mass movement Ossewabrandwag which was founded in 1939

Drawing on a broad range of archival resources the social history of this extremist organisation is analysed showing local and regional differences The Ossewabrandwag as a nationalist movement counted a considerable part of the Afrikaans white population among its members Therefore the Ossewabrandwag can be understood appropriately only in the context of radical Afrikaner nationalism Given that the potential for political radicalisation in the white South African population was considerable ideological influences from overseas played merely an additional role The book looks into the reasons for the mass participation in the Ossewabrandwag In addition it analyses the organisation's fight with the National Party and its illegal and treasonable activities In this context the book discusses which ideological influences on the apartheid policy can be identified as coming from organised right wing extremism Politics and Society in South Africa Daryl Glaser, 2000-12-22

Darryl Glaser supplies an illuminating overview of the scholarship since 1970 on South Africa's political history His emphasis is on the debates between liberals Marxists and to a lesser extent post structuralists about the origins and the course of South Africa's racial order Tom Lodge University of Witwatersrand A well researched well argued readable interesting informative and competent study Capital and Class Providing a wide ranging and critical introduction to contemporary South Africa this book uses an interdisciplinary lens to introduce the student to the main debates historical context and issues that have characterized the study of South Africa over the last three decades Key topics include the role of colonialism capitalism and modernity in the formation of the racial order changes in the South African state questions of class race and ethnicity black resistance and the transition to democracy A number of underlying debates are critically evaluated For example the contribution of materialist and class analytic approaches the application of post structuralism and theories of modernity and the prospects for democratic liberalism and socialism in post apartheid South Africa The Ivory Tower and Beyond Susan Cochrane, Doug Munro, Max Quanchi, 2009-03-26

There is a tradition of participant history among historians of the Pacific Islands unafraid to show their hands on issues of public importance and risking controversy to make their voices heard This book explores the theme of the participant historian by delving into the lives of J C Beaglehole J W Davidson Richard Gilson Harry Maude and Brij V Lal They lived at the interface of scholarship and practical engagement in such capacities as constitutional advisers defenders of civil liberties or upholders of the principles of academic freedom As well as writing history they made history and their excursions beyond the ivory tower informed their scholarship Doug Munro's sympathetic engagement with these five historians is likewise informed by his own long term involvement with the sub discipline of Pacific History **The Last Word?** Jeffrey Grey, 2003-11-30

Official history is a misunderstood genre of historical writing which attracts much negative comment from non official historians but about which very little detail is actually known This book examines the development of official history programs in Canada South Africa Australia and New Zealand over the course of the twentieth century looking at the ways in which they developed and the contributions each made to their respective national historiography The second part of the work develops some themes from the first and takes the official

histories of the Second World War as case studies Drawing on programs in Australia Britain and the United States these essays examine the relationship between the histories the historians and their sponsoring institutions They assess the impact of the histories on historical understanding of the Second World War They also consider the impact that contemporary events during the Cold War had on the writing of the official history Non-Western Educational Traditions Timothy Reagan,2017-07-06 Indigenous Knowledge Systems Concluding Reflections Questions for Reflection and Discussion Author Index Subject Index **The Origins of Non-Racialism** David Everatt,2009-06-01 How did South Africa embrace non racialism After centuries of white domination and decades of increasingly savage repression freedom came to South Africa far later than elsewhere in the continent and yet was marked by a commitment to non racialism Nelson Mandela s Cabinet and government were made up of women and men of all races and many spoke of the birth of a new Rainbow Nation How did this come about How did an African nationalist liberation movement resisting apartheid a universally denounced violent expression of white supremacy open its doors to other races and whites in particular And what did non racialism mean This is the real miracle of South Africa that at the height of white supremacy and repression black and white democrats in their different organisations coming from vastly different backgrounds and traditions agreed on one thing that the future for South Africa would be non racial
