**The Charismatic Gymnasium** Maria José de Abreu, 2021-01-15 In *The Charismatic Gymnasium* Maria José de Abreu examines how Charismatic Catholicism in contemporary Brazil produces a new form of total power through a concatenation of the breathing body theology and electronic mass media. De Abreu documents a vast religious respiratory program of revival popularly branded as the aerobics of Jesus. Pneuma, the Greek term for air, breath, and spirit, is central to this aerobic program whose goal is to labor on the athletic elasticity of spirit. Tracing the rhetoric, gestures, and spaces that together constitute this new theological community, de Abreu exposes the articulating forces among evangelical Christianity, neoliberal logics, and the rise of right-wing politics. By calling attention to how an ethics of pauperism vitally intersects with the neoliberal ethos of flexibility, de Abreu shows how paradoxes do not hinder but expand the Charismatic gymnasium. The result de Abreu demonstrates is the production of a fluid form of totalitarianism and Christianity in Brazil and beyond.

**New Ways of Being Pentecostal in Latin America** Martin Lindhardt, 2016-03-23 The explosive growth of Pentecostalism has radically transformed Latin America's religious landscape within the last half century or so. In a region where Catholicism reigned hegemonic for centuries, the expansion of Pentecostalism has now resulted in a situation of religious pluralism and competition bearing much more resemblance to the United States than to the Iberian motherlands. Furthermore, the fierce competition from Pentecostal churches has inspired significant renewals of Latin American Catholicism, most notably the growth of a Catholic Charismatic movement. However, another and more recent source of religious pluralism and diversity in Latin America is an increasing pluralization and diversification of Pentecostalism itself and of the ways in which individual Pentecostals exercise their faith. By carefully exploring this diversification, the book at hand breaks new ground in the literature on Latin American Christianity. Particular attention is focused on new ways of being Pentecostal and on the consequences of recent transformations of Christianity for individuals, faith communities, and societies. More specifically, the chapters of the book look into certain transformations of Pentecostalism such as theological renewals and new kinds of religious competition between Pentecostal churches, a growing political and civic engagement of Pentecostals, an observed de-institutionalization of Pentecostal religious life, and the negotiation of individual Pentecostal identities composed of multiple intra and extra-ecclesial points of identification and the emergence of new generations of Pentecostals, children of Pentecostal parents, many of whom have higher levels of education and higher incomes than the previous generations within their churches. In addition, Catholic responses to Pentecostal competition are also addressed in several chapters of the book.

[The Saints of Santa Ana](#) Jonathan Calvillo, 2020

Catholicism has long been the dominant religion among ethnic Mexicans in the U S Recent shifts however have challenged the traditional association between Mexican ethnicity and Catholicism Evangelical Protestantism has emerged as a notable alternative of ethnic identity expression for ethnic Mexicans This book takes readers into the thriving Mexican majority neighborhoods of Santa Ana California a city once dubbed the hardest place to live in the U S There Jonathan E Calvillo explores how religious practices permeate the fabric of everyday social interactions for Mexican immigrants How does faith shape these immigrants sense of ethnic identity To answer this question The Saints of Santa Ana compares the experiences of Catholic and Evangelical Mexican immigrants the two largest religious groupings in the city Drawing on five years of participant observation and in depth interviews this book argues that religious affiliations set Catholics and Evangelicals along diverging trajectories with regard to ethnic identity In particular Calvillo argues Catholics and Evangelicals have differing perspectives on collective memory and ethnic community The Saints of Santa Ana offers a rich portrait of a fascinating American community

**Catholic Spirituality and Prayer in the Secular City** Robert A. Burns, 2008-09-05 In the United States against the background of secularization the religious atmospheres have changed radically in the past 40 years In 1965

President Lyndon Johnson signed the Immigration and Naturalization Act which opened America's doors to immigrants from all over the world. As a result, approximately one million immigrants legally enter the United States each year and bring with them religious traditions such as Islam, Buddhism, and Hinduism. Catholic Spirituality and Prayer in the Secular City presents the role of religion and spirituality in a rapidly changing religious scenario. Author Robert A. Burns explores ways Catholics have been called upon to develop their spiritual lives in the most religious pluralistic society that has ever existed. Burns acknowledges the struggle that many people face when seeking a deeper spirituality and do not know where or how to begin and seeks to guide readers through the confusion and back to the meaning of spirituality. This book leads readers through the various approaches taken to achieving a deeper spiritual life by presenting and discussing the religious philosophies of spiritual leaders throughout history. Ultimately, Catholic Spirituality and Prayer in the Secular City provides readers with the ability to see themselves in a proper context by offering a new avenue for deeper spirituality.

*Millennial Missionaries* Katherine Dugan, 2019. Millennials in the U.S. have been characterized as uninterested in religion as defectors from religious institutions and as agnostic about the role of religious identity in their culture. Amid the rise of so-called nones, though, there has also been a countervailing trend: an increase in religious piety among some millennial Catholics. The Fellowship of Catholic University Students (FOCUS), which began evangelizing college students on American university campuses in 1998, hires recent college graduates to evangelize college students and promote an attractive and culturally savvy Catholicism. These millennial Catholics have personal relationships with Jesus, attend Mass daily, and know and defend papal teachings while also being immersed in U.S. popular culture. With their skinny jeans, devotional tattoos, and large framed glasses, FOCUS missionaries embody a hip, attractive style of Catholicism. They promote a faith that interweaves distinctly Catholic identity with outreach methods of twentieth-century evangelical Protestants and the anxieties of middle-class emerging adulthood. Though this new generation of missionaries lives according to strict gender essentialism prescribed by papal teachings, including the notions that men lead while women follow and that biology dictates gender roles, they also support stay-at-home fatherhood and women earning MBAs. *Millennial Missionaries* examines how these young people navigate their Catholic and American identities in the twenty-first century. Illuminating the ways missionaries are reshaping American Catholic identity, Katherine Dugan explores the contemporary U.S. religious landscape from the perspective of millennials who proudly proclaim "I am Catholic" and devote years of their lives to convincing others to do the same.
