Drawing upon the expansive scholarship in The Dictionary of Art and adding new entries, this work is a comprehensive reference resource for artists, art dealers, collectors, curators, conservators, students, researchers and scholars. Similar in design to The Grove Encyclopedia of Decorative Arts, this one-volume reference work contains articles of various lengths in alphabetical order. The shorter, more factual articles are combined with larger, multi-section articles tracing the development of materials and techniques in various geographical locations. The Encyclopedia provides unparalleled scope and depth and it offers fully updated articles and bibliography as well as over 150 illustrations and color plates. The Grove Encyclopedia of Materials and Techniques offers scholarly information on materials and techniques in art for anyone who studies, creates, collects or deals in works of art. The entries are written to be accessible to a wide range of readers and the work is designed as a reliable and convenient resource covering this essential area in the visual arts Urushi N. S. Brommelle, Perry Smith, 1988-12-01 An in-depth examination of the Far Eastern lacquerware known as urushi. This book considers the art, historical and scientific viewpoints and presents the priorities for urushi's preservation and conservation. These are the proceedings of the Urushi Study Group meeting held in Japan *Symbol and Substance in Japanese Lacquer* Barbra Teri Okada, 1995 Published in conjunction with a fall 1995 exhibition of the Ehrenkranz Collection at the Japan Society in New York City. An introductory essay details the processes of harvesting, refining and applying lacquer and gives a historical overview of the evolution of specific techniques. Fifty-five examples from the 15th to the 18th centuries are shown in full-page photos and are thoroughly described and explicated in accompanying text. A glossary of technical terms and a detailed bibliography contribute to the book's usefulness for collectors, scholars and dealers. Annotation copyright by Book News Inc. View of the Pinnacle Stephen Little, Edmund J. Lewis, 2011 View of the Pinnacle is a richly illustrated catalogue featuring more than eighty suzuribako dating from the fourteenth through the twentieth centuries from the Edmund and Julia Lewis Collection Suzuribako the exquisite lacquer boxes designed to hold the implements used in creating brush and ink calligraphy have for centuries combined utilitarian function with superb craftsmanship The art of creating suzuribako came

into being during the Heian period in Japan 794 1185 when aristocratic culture both artistic and literary flourished it was in full flower during the sixteenth century and continued into modern times The designs on suzuribako frequently represent highly refined visual representations of classical poetry literature mythology and history Diverse subjects are depicted including religious figures philosophers poets animals mythical creatures and landscapes real and imagined These artistic representations are often combined with calligraphed poems or excerpts from classical literature In the catalogue Stephen Little and Edmund Lewis give equal attention to both the literary content of the suzuribako and the lacquer techniques used in crafting them The literary references and themes drawn as much from Chinese as from Japanese classical texts reflect the deep knowledge of Chinese and Japanese classical literature among the literate classes in Japan from the eighth century onward A full appreciation of the themes and metaphorical imagery incorporated into many of the boxes requires a deep cultural sophistication on the part of the viewer Stephen Little describing the layered literary themes frequently depicted in suzuribako notes that the excavation of hidden layers of meaning in a box s decoration becomes a thrilling quest The volume includes an essay by Edmund Lewis on the nuances of meaning in suzuribako designs and the interviewing of the artistic and literary expressions embodied in them In a second essay John Stevens presents a brief history of Japanese calligraphy and explains its central importance in Japanese cultural expression
