The History of Modern Chinese Grammar Studies Peter Peverelli, 2015-03-23 This book discusses the way Chinese scholars developed a national grammar Chinese didn't develop grammar until China's contact with Western grammar books in the 19th Century The first indigenous grammar was published in 1889 It included some traditional notions but mainly imitated European grammar It was followed by a number of other similar works To move away from this imitation a group of grammarians started to look into the Chinese tradition of commenting on classics This led to a variety of alternative grammars After the war Western linguistics started to gain influence in China With the establishment of the PRC in 1949 efforts began to have a standard grammar adopted nationwide The first attempt at such a grammar was published in 1956 This book spans the period 1898 1956 This book combines historiography and linguistics to distinguish different periods in the timespan covered It shows how the development of a national grammar cannot be studied separately from language policies and discussions on the national language The description of each period includes a general introduction of the relevant events in that period and a treatment of the major works of grammar

Changing Chinese Masculinities Kam Louie, 2016-06-01 It is now almost a cliché to claim that China and the Chinese people have changed Yet inside the new clothing that is worn by the Chinese man today Kam Louie contends we still see much of the historical Chinese man With contributions from a team of outstanding scholars *Changing Chinese Masculinities* studies a range of Chinese men in diverse and most importantly Chinese contexts It explores the fundamental meaning of manhood in the Chinese setting and the very notion of an indigenous Chinese masculinity In twelve chapters spanning the late imperial period to the present day *Changing Chinese Masculinities* brings a much needed historical dimension to the discussion Key aspects defining the male identity such as family relationships and attitudes toward sex class and career are explored in depth Familiar notions of Chinese manhood come in all shapes and sizes Concubinage reemerges as the taking of second wives in recent decades Male homoerotic love and male prostitution are shown to have long historical roots The self images of the literati and officials form an interesting contrast with those of the contemporary white collar men Masculinity and nationalism complement each other in troubling ways China has indeed changed and is still changing but most of these social transformations do not indicate a complete break with past beliefs or practices in gender relations *Changing Chinese Masculinities* inaugurates the Hong Kong University Press book series *Transnational Asian Masculinities* Produced by a group of outstanding scholars this volume offers important insights into little known aspects of Chinese masculinity An indispensable reference for those with an

interest in Chinese sexuality social history and contemporary Chinese culture Anne McLaren professor of Chinese studies University of Melbourne In this book scholars of late imperial and contemporary China gather to define and critique masculinity in both periods explore its complexities and map continuities and discontinuities What are the traditional models and to what degree do they still maintain a grip today Is there a masculinity crisis in China and what does it mean to be a Chinese man today These are some of the daring topics the authors explore Keith McMahon professor of Chinese language and literature University of Kansas

National Revolutionary Forces, 1973 Taiwan and Chinese Nationalism Christopher Hughes, 2013-04-15 For China Taiwan is next in line to be unified with the People's Republic after Hong Kong in 1997 China's claim on Taiwan is of great importance to the politics of Chinese Nationalism and is central to the dynamics of power in this most volatile of regions The democratic challenge from Taiwan is very potent and its status and identity within the international community is crucial to its survival Taiwan and Chinese Nationalism explores how Taiwan's status has come to be a symbol for the legitimacy of the Chinese regime in the evolution of Chinese nationalism It also demonstrates how this view has been challenged by demands for democratization in Taiwan The KMT regime is shown to have allowed sovereignty to be practised by the population of the

island while maintaining the claim that it is a part of China The result is a post nationalist identity for the island in an intermediate state between independence and unification with the PRC

The Military Lens Christopher P. Twomey,2011-07-15 In *The Military Lens* Christopher P Twomey shows how differing military doctrines have led to misperceptions between the United States and China over foreign policy and the potential dangers these might pose in future relations Because of their different strategic situations histories and military cultures nations may have radically disparate definitions of effective military doctrine strategy and capabilities Twomey argues that when such doctrines or theories of victory differ across states misperceptions about a rival s capabilities and intentions and false optimism about one s own are more likely to occur In turn these can impede international diplomacy and statecraft by making it more difficult to communicate and agree on assessments of the balance of power When states engage in strategic coercion either to deter or to compel action such problems can lead to escalation and war Twomey assesses a wide array of sources in both the United States and China on military doctrine strategic culture misperception and deterrence theory to build case studies of attempts at strategic coercion during Sino American conflicts in Korea and the Taiwan Strait in the early years of the Cold War as well as an examination of similar issues in the Arab Israeli conflict After demonstrating how these factors have contributed to past conflicts Twomey amply documents the persistence of hazardous miscommunication in contemporary Sino American relations His unique analytic perspective on military capability suggests that policymakers need to carefully consider the military doctrine of the nations they are trying to influence

Contender States and Modern Chinese International Thought Ferran Perez Mena,2024-05-17 This book contends that the development of modern Chinese international thought has been profoundly shaped by the distinctive nature of the Chinese state as a contender state and its global positioning since 1912 The argument posited demonstrates that notwithstanding the varied perspectives on the international held by Chinese intellectuals throughout the 20th century there exist commonalities across the periods analyzed in this book In essence the book emphasizes that the shared elements influencing the production of modern Chinese international thought do not derive from a unified cultural Chinese identity but rather stem from China s evolving geopolitical position in the modern world
