## **The China White Paper August 1949 Volume II:**

**Taiwan's Security** Bernard Cole, 2006-06-19 This is the first explanation and evaluation of Taiwan's defence forces and infrastructure. It examines not only Taiwan's armed forces but also its Ministry of National Defence personnel issues and civil military relations. This book provides crucial base line data and evaluation of one of the major participants in an ongoing crisis across the Taiwan Strait that has the potential of involving China and the United States in armed conflict. It examines the danger of a possibly nuclear conflict between China and the United States which would seriously disrupt all of East Asia. It also shows how Taiwan's defence policies and actions do not match the threat Taipei needs to develop and pursue realistic policies. This is essential reading for all students of East Asian security and Sino American relations and of international and security studies in general.

*On China* Henry Kissinger, 2011-05-17 Fascinating shrewd. The book deftly traces the rhythms and patterns of Chinese history. Michiko Kakutani, *The New York Times*. No one can lay claim to so much influence on the shaping of foreign policy over the past 50 years as Henry Kissinger. *The Financial Times*. In this sweeping and insightful history Henry Kissinger turns for the first time at book length to a country he has known intimately for decades and whose modern relations with the West he helped shape. *On China* illuminates the inner workings of Chinese diplomacy during such pivotal events as the initial encounters between China and tight line modern European powers, the formation and breakdown of the Sino Soviet alliance, the Korean War and Richard Nixon's historic trip to Beijing. With a new final chapter on the emerging superpower's twenty first century role in global politics and economics. *On China* provides historical perspective on Chinese foreign affairs from one of the premier statesmen of our time.

*Henry R. Luce, Time, and the American Crusade in Asia* Robert E. Herzstein, 2005-07-18 How Henry R Luce used his famous magazines to advance his interventionist agenda.

*Reproductive States* Rickie Solinger, Mie Nakachi, 2016 This is a collection of case studies that explore when and how half of the twenty most populous countries in the world invented and implemented population policies. It presents analyses of reproductive politics in Brazil, China, Egypt, Germany, India, Iran, Japan, Nigeria, the USSR, Russia, and the United States. The essays focus on the official organized efforts that states pursued to facilitate state decisions about how many people and which people would be born within their borders.

*China at War* Hans van de Ven, 2018-02-12 China's mid twentieth century wars pose extraordinary interpretive challenges. The issue is not just that the Chinese fought for such a long time from the Marco Polo Bridge Incident of July 1937 until the close of the Korean War in 1953 across such vast territory. As Hans van de Ven explains, the greatest puzzles lie in understanding China's simultaneous external and internal wars. Much is at stake politically in how this story is told. Today in its official history and public commemorations, the People's Republic asserts Chinese unity against Japan during World War II. But this overwrites the era's stark divisions between Communists and Nationalists, increasingly erasing the civil war from memory. Van de Ven argues that the war with Japan, the civil war, and its aftermath were in fact of a piece, a singular

process of conflict and political change Reintegrating the Communist uprising with the Sino Japanese War he shows how the Communists took advantage of wartime to increase their appeal how fissures between the Nationalists and Communists affected anti Japanese resistance and how the fractious coalition fostered conditions for revolution In the process the Chinese invented an influential paradigm of war wherein the Clausewitzian model of total war between well defined interstate enemies gave way to murky campaigns of national liberation involving diverse domestic and outside belligerents This history disappears when the realities of China s mid century conflicts are stripped from public view China at War recovers them

*The Soviet Union and Communist China 1945-1950: The Arduous Road to the Alliance* Dieter Heinzig,2015-06-18  
Drawing on a wealth of new sources this work documents the evolving relationship between Moscow and Peking in the twentieth century Using newly available Russian and Chinese archival documents memoirs written in the 1980s and 1990s and interviews with high ranking Soviet and Chinese eyewitnesses the book provides the basis for a new interpretation of this relationship and a glimpse of previously unknown events that shaped the Sino Soviet alliance An appendix contains translated Chinese and Soviet documents many of which are being published for the first time The book focuses mainly on Communist China s relationship with Moscow after the conclusion of the treaty between the Soviet Union and Kuomintang China in 1945 up until the signing of the treaty between Moscow and the Chinese Communist Party in 1950 It also looks at China s relationship with Moscow from 1920 to 1945 as well as developments from 1950 to the present The author reevaluates existing sources and literature on the topic and demonstrates that the alliance was reached despite disagreements and distrust on both sides and was not an inevitable conclusion He also shows that the relationship between the two Communist parties was based on national interest politics and not on similar ideological convictions *Modern China* Ke-wen Wang,CRSN Staff,1997-11-10 Charts Western influence and national development Beginning with the mid 19th century when China encountered the West and began to enter the modern age this encyclopedia offers an overview of the world s largest and most populous nation The coverage includes not only major political topics but also surveys the arts business literature education journalism and all other major aspects of the nation s social cultural and economic life The encyclopedia also offers significant material on such often neglected subjects as women and minorities modern drama Sino French War the federalist movement overseas Chinese Mongolian independence and more Special emphasis throughout is on the dramatic changes that have taken place in the country since the end of World War II Provides an overview of the modern era The entries are written by China specialists who are thoroughly familiar with every aspect of the nation and its peoples While history predominates the articles cover all academic fields and include considerable material on recent decades as well as on earlier periods There are entries on national political leaders and key thinkers major events and trends in the nation s

history institutions organizations and currents of thought that led to the emergence of the modern nation The encyclopedia's longer essays offer detailed and insightful surveys of censorship important eras literary movements powerful social groups anti imperialism campaigns Five Year Plans the Sino Vietnamese War economic breakthroughs and other vital topics The coverage is informed by a thorough exploration of the historical role of Chinese nationalism a potent force that was shaped by the need to retain national unity and independence under foreign assault

**Battling Western Imperialism** Michael Sheng, 2021-01-12 One of the central issues in the study of the Chinese Communist Party and its foreign policy is its relations with Moscow Was the CCP a Chinese nationalist party antagonistic to an intrusive Soviet Union or was it rather an internationalist party with ideological political and strategic military ties to Moscow faithfully adhering to Marxist Leninist principles as well as to Stalin's policy advice For the past two decades a number of historians have argued that the CCP was a nationalist movement and that the United States missed its opportunity to establish friendly relations because U S leaders were blinded by fears of an international Communist threat In his provocative book Michael Sheng strongly challenges this position On the basis of extensive new information obtained from recently available Chinese sources Sheng demonstrates that the foreign policy of the CCP under Mao Zedong did in fact follow the directions recommended by Joseph Stalin Sheng reveals that Mao and Stalin were in frequent and direct contact by radio and by correspondence beginning in 1936 and that Mao consistently acted on Stalin's advice *Battling Western Imperialism* analyzes the CCP's relations with both the Soviet Union and the United States and provides conclusive evidence that there was no lost opportunity for the U S in China He shows that the CCP viewed the United States as a hostile capitalist power that opposed its revolutionary aims The author has drawn on an unprecedented collection of Chinese language materials to make a powerful new argument

*Balancing Risks* Jeffrey W. Taliaferro, 2019-06-30 Great powers often initiate risky military and diplomatic interventions in far off peripheral regions that pose no direct threat to them risking direct confrontation with rivals in strategically inconsequential places Why do powerful countries behave in a way that leads to entrapment in prolonged expensive and self defeating conflicts Jeffrey W Taliaferro suggests that such interventions are driven by the refusal of senior officials to accept losses in their state's relative power international status or prestige Instead of cutting their losses leaders often continue to invest blood and money in failed excursions into the periphery Their policies may seem to be driven by rational concerns about power and security but Taliaferro deems them to be at odds with the master explanation of political realism Taliaferro constructs a balance of risk theory of foreign policy that draws on defensive realism in international relations and prospect theory in psychology He illustrates the power of this new theory in several case narratives Germany's initiation and escalation of the 1905 and 1911 Moroccan crises the United States involvement in the Korean War in 1950 52 and Japan's entanglement in the second Sino Japanese war in 1937 40 and its decisions for war with the U S in 1940 41

Zhou Enlai Jian Chen, 2024-05-07 Zhou Enlai China's first premier is overshadowed by Mao but Zhou's influence in his own time and since has been vast Chen Jian shows

Zhou using his political and bureaucratic skills and centralism to mitigate the damage caused by Mao's radicalism and argues that Zhou created conditions for the post Mao reforms that have made China a superpower

**The Journal of Asian Studies**, 1968 An essential resource for those interested in Asia Recognized as the leading publication in its field It features articles on the history arts social sciences and contemporary issues of East South and Southeast Asia as well as a large book review section

The Japanese On Trial Philip R. Piccigallo, 1980-01-01 This comprehensive treatment of post World War II Allied war crimes trials in the Far East is a significant contribution to a neglected subject While the Nuremberg and to a lesser degree Tokyo tribunals have received considerable attention this is the first full length assessment of the entire Far East operation which involved some 5 700 accused and 2 200 trials After discussing the Tokyo trial Piccigallo systematically examines the operations of each Allied nation documenting procedure and machinery as well as the details of actual trials including hitherto unpublished photographs and ending with a statistical summary of cases This study allows a completely new assessment of the Far East proceedings with a few exceptions the trials were carefully and fairly conducted the efforts of defense counsel and the elaborate review procedures being especially noteworthy Piccigallo's approach to this emotion filled subject is straightforward and evenhanded throughout He concludes with a discussion of the broader implications of such war crimes trials a matter of interest to the general reader as well as to specialists in history law and international affairs

**Stalin's War on Japan** Charles Stephenson, 2021-06-09 This WWII military study examines the critical yet overlooked Soviet offensive on Japan's puppet state and its influence on winning the Pacific War Did Japan surrender in 1945 because the Americans dropped atomic bombs on Hiroshima and Nagasaki Or because of the crushing defeat inflicted by the Soviet Union in Manchukuo the Japanese puppet state in north east China In Stalin's War on Japan Charles Stephenson describes the Soviet offensive from the top level decision making and early planning stages to its decisive outcome on the ground He also considers to what extent Japan's capitulation is attributable to the atomic bomb or the stunningly successful entry of the Soviet Union into the conflict Stephenson combines a vividly detailed narrative of the invasion itself with an absorbing account of the political and diplomatic process that gave rise to the offensive with particular focus on the Yalta conference There Stalin allowed the Americans to persuade him to join the war in the east a conflict he was determined on entering anyway Stalin's War on Japan sheds new light on the last act of the Second World War

Information Regimes During the Cold War in East Asia Jason Morgan, 2020-10-12 Morgan and his contributors develop the concept of the Information Regime as a way to understand the use abuse and control of information in East Asia during the Cold War period During the Cold War war itself was changing as was statecraft Information emerged as the most valuable commodity becoming the key component of societies across the globe This was especially true in East Asia where the military alliances forged in the wake of World War II were put to the most severe of tests These tests came in the form of adversarial relations between the United States and the Soviet Union as well as pressures within their alliances which eventually caused the People's Republic of

China to break with from Moscow while Japan for a time during the 1950s and 1660s seemed poised to move away from Washington More important than military might or economic influence was the creation of information regimes swathes of territory where a paradigm ideology or political arrangement were obtained Information regimes are not necessarily state centric and many of the contributors to this book focus on examples which were not so Such a focus allows us to see that the East Asian Cold War was not really cold at all but was the epicentre of an active contentious birth of information as the defining element of human interaction This book is a valuable resource for historians of East Asia and of developments in information management in the twentieth century

*By More Than Providence* Michael J. Green, 2017-03-21 Soon after the American Revolution certain of the founders began to recognize the strategic significance of Asia and the Pacific and the vast material and cultural resources at stake there Over the coming generations the United States continued to ask how best to expand trade with the region and whether to partner with China at the center of the continent or Japan looking toward the Pacific Where should the United States draw its defensive line and how should it export democratic principles In a history that spans the eighteenth century to the present Michael J Green follows the development of U S strategic thinking toward East Asia identifying recurring themes in American statecraft that reflect the nation s political philosophy and material realities Drawing on archives interviews and his own experience in the Pentagon and White House Green finds one overarching concern driving U S policy toward East Asia a fear that a rival power might use the Pacific to isolate and threaten the United States and prevent the ocean from becoming a conduit for the westward free flow of trade values and forward defense *By More Than Providence* works through these problems from the perspective of history s major strategists and statesmen from Thomas Jefferson to Alfred Thayer Mahan and Henry Kissinger It records the fate of their ideas as they collided with the realities of the Far East and adds clarity to America s stakes in the region especially when compared with those of Europe and the Middle East

**The Writings: v. 2: January 1956-December 1957** Zedong Mao, M.Y.M. *Maritime Taiwan* Shih-Shan Henry Tsai, 2014-12-18 For centuries the island of Taiwan 100 miles off the Asian mainland has been a crossroads for traders and settlers pirates and military schemers from around the world Unlike China with its long tradition of keeping foreigners out Taiwan has a long history of interaction both hostile and friendly with other seafaring nations near and far *Maritime Taiwan* captures the full drama and details of this remarkable history It s filled with fascinating stories of foreign adventurers and echoes the bitter songs of Taiwan s aboriginal population confronted by the convergence of different maritime cultures and values on the island Here are accounts of the legendary pirate Koxinga the Chinese junk trade the

mighty Dutch East India Company British opium traders and Scottish tea merchants Jesuit priests and Presbyterian missionaries A French fleet commander a Japanese colonial administrator an American aid official and many more Here too is an extraordinary view of Taiwan over the centuries as its distinct identity culture and values were shaped by its unique history Today with a population of only 23 million Taiwan is the world's nineteenth largest economy a vibrant relatively free society on the strategic route between China and Southeast Asia Maritime Taiwan also discusses the significant impact of American military economic educational and technological aid on Taiwan's developments and addresses the island's continued importance in maintaining the U.S. hegemony in East Asia
