A Dark History of Chocolate Emma Kay, 2021-11-01
A Dark History of Chocolate looks at our long relationship with this ancient food of the Gods The book examines the impact of the cocoa bean trade on the economies of Britain and the rest of Europe as well as its influence on health cultural and social trends over the centuries Renowned food historian Emma Kay takes a look behind the facade of chocolate first as a hot drink and then as a sweet delving into the murky and mysterious aspects of its phenomenal global growth from a much prized hot beverage in pre-Colombian Central America to becoming an integral part of the cultural fabric of modern life From the seductive corridors of Versailles serial killers witchcraft medicine and war to its manufacturers the street sellers criminal gangs explorers and the arts chocolate has played a significant role in some of the world's deadliest and gruesome histories If you thought chocolate was all Easter bunnies romance and gratuity then you only know half the story This most ancient of foods has a heritage rooted in exploitation temptation and mystery With the power to be both life giving and ruinous

The Late Films of Claude Chabrol Jacob Leigh, 2017-10-19
Studies the unique achievements of Chabrol's last fourteen years of filmmaking during which he made nine remarkable films which combine a formally complex and highly self-conscious style

with a thematic focus on the opacity of the relationship between human thought and action **The Virtue of Suspense** Rick Cypert, 2008 Does experiencing a suspenseful situation allow one to develop virtue The suspense writer Charlotte Armstrong 1905-69 no doubt believed that it could In her works she implied the benefits of experiencing suspense by illustrating the rhetorical benefits of resolving it ethically or virtuously Thus in their dealings with other characters her protagonists discover a virtuous approach to resolving suspense that involves an expanded view of the language one uses and the perspective one adopts After writing a number of theatrical plays Armstrong began writing mysteries whodunits and then at the advice of her literary agent changed directions She began writing suspense stories so that her readers if not the other characters would know the identity of the villain This move left her free to focus on how one creates suspense and to what end Her shift in focus coincided with the family's move from New Rochelle NY to Glendale CA in the mid 1940s in time for Armstrong to absorb the elements of suspense in the new genre of film noir Nonetheless while informed by film noir Armstrong's work is set in the everyday the commonplace where with one simple action a series of events are set into motion that keep readers in high suspense In Armstrong's correspondence one observes the lucrative market of women's magazines and newspapers for serialized novels and short stories the painful bottom line of publishing houses the diplomatic skills of literary agents toward their authors the advent of television and its markets for and marketing of literary works and the ever present and ever elusive offers from the film industry This book seeks to understand Armstrong's contribution to popular fiction through an exploration of her childhood diaries her adult correspondence her published and cinematic works the reviews of those works and the recollections of her agent children and grandchildren What emerges is the portrait of a writer whose determination curiosity analytic mien and ideas about humanity shaped her writing in ways that fascinated her critics and readers a fashion that perhaps unconsciously recognized the virtue of suspense in her written works **BOOK JACKET**

that reflects the specific political and aesthetic priorities of different national and historical cinemas even as it plays a decisive role in defining American literature for a global audience

Golden Age Detective Stories (An American Mystery Classic) Otto Penzler, 2021-07-06 The greatest detectives of the Golden Age investigate the most puzzling crimes of the era Sometimes the police aren't the best suited to solve a crime Depending on the case you may find that a retired magician a schoolteacher a Broadway producer or a nun have the necessary skills to suss out a killer Or in other cases a blind veteran or a publisher or a hard drinking attorney or a mostly sober attorney or indeed any sort of detective you could think of might be able to best the professionals when it comes to comprehending strange and puzzling murders At least that's what the authors from the Golden Age of American mystery fiction would have you think For decades in the middle of the twentieth century the country's best selling authors produced delightful tales in which all types of eccentrics used rarified knowledge to interpret confounding clues And for even longer in the decades that have followed these characters have continued to entertain new audiences with every new generation that discovers them Edgar Award
