The Christ Life From Nativity To Ascension:

THE CHRIST LIFE Geoffrey Hodson, Every time that you find in our books a tale the reality of which seems impossible a story which is repugnant to both reason and common sense then be sure that the tale contains a profound allegory veiling a deeply mysterious truth and the greater the absurdity of the letter the deeper the wisdom of the spirit Moses Maimonides Jewish theologian historian Talmudist 1135 1205 A D Countless people have been provided with new insights into the Christian religion through the in depth Biblical interpretations of Geoffrey Hodson In his *Hidden Wisdom in the Holy Bible* Volumes I II and III he extensively analyzed Old Testament stories suggesting that many of them are in actuality more meaningful than is commonly supposed that many of these stories are indeed allegorical and that understood from a more universal and less literal point of view they contain much additional useful knowledge He believes this is also true of The Christ Life from Nativity to Ascension In this book Hodson moves from a consideration of the Old Testament of the Holy Bible to the New Testament interpreting the four accounts or Gospels of the life of Christ as put down in the King James version of the Bible The author believes that the Bible should be considered in both its historical and its allegorical significance He writes Ever must it be remembered that the wondrous story of Jesus the Christ was never intended to be read as a record of external events alone but rather as a revelation of the divine within man As a priest in the Liberal Catholic Church Hodson has naturally maintained an intensive interest in the Holy Bible He is recognized throughout the world for his exceptional clairvoyant abilities and has also carried out occult research in collaboration with physicians physicists anthropologists and archaeologist He is the author of some 40 books dealing with such topics as meditation Theosophy the spiritual life health and disease and of course Bible symbolism and interpretation *Hidden Wisdom in the Holy Bible, Vol. 1* Geoffrey Hodson, 1993-06-01 This first of a two volume abridgement of a Theosophical classic explains how a literal reading of the Bible misses rich concealed meaning how Biblical symbols encode esoteric truths and how Christ s life can be seen as an initiatory journey *Life* Eunice Layton, 1988-10-25 Formerly published as *Theosophy Key to Understanding* this book is based on the many lectures presented by this husband and wife team addressing such questions as Is there some meaning to existence Is there life after death Will we live again How can we find inner peace The Laytons bring a common sense approach to the metaphysical concepts of Theosophy and relate them to the problems of people in their everyday lives *The Call to the Heights* Geoffrey Hodson, 1987-01-01 In the *Call to the Heights* Geoffrey Hodson presents a method of attainment largely novel to contemporary society but nevertheless a method that comes directly from the ancient wisdom of our earliest ancestors *The Cambridge Companion to the Cistercian Order* Mette Birkedal Bruun, 2013 Presents the Order s figureheads practical life and spiritual horizon and its contribution to medieval Europe s religious cultural and political climate *The Seven Seals of the Apocalypse* , 2009-04-01 Filling today s religious book market are Apocalypse commentaries teaching that the seven seals of Revelation 5 8 describe tragedies that are to take place in the last days

Medieval Europeans on the other hand thought very differently about the seven seals Some used the seven seals for catechetical purposes and associated them with seven major events in the life of Christ or seven gifts of the Holy Spirit Other medieval writers taught that the seven seals contained symbols about life in the church between the first and second comings of Christ Still others viewed the seals as milestones in the grand outline of salvation history This book illustrates this vastness of medieval interpretive tradition on the seven seals It includes fifteen texts from the sixth through the fifteenth centuries which have been organized under three headings those illustrating christological interpretations of the seven seals those proposing ecclesiastical interpretations and those giving historical interpretations
