## **The Christian Creed A Meditative Path:**

The Christian Creed Hans-Werner Schroeder, 1985 Schroeder examines the relation of understanding faith and confession or belief and illumines each of the twelve sentences of the Creed in the Christian Community *The Christian Mystery* Rudolf Steiner, 1998 In this major collection Rudolf Steiner affirms the reality of esoteric Christianity and unveils many of its secret teachings His lectures are on the significance of the Mystery of Golgotha and of the Blood that flowed on the Cross the relationship of Christ and Lucifer or Love and Knowledge the various paths of initiation including the Christian Gnostic and Rosicrucian Paths and Steiner's early interpretations of St John's gospel and the sermon on the mount All of Steiner's lectures on the Lord's Prayer are also included as well as the version of the prayer that Steiner himself prayed throughout his life This is an excellent book for all those who want to deepen their understanding of the Western stream of Christian esotericism and Rudolf Steiner's approach to Christianity as a spiritual practice **The Four Gospels** Christoph Rau, 2024-04-16 When a theologian speaks of the widespread misconception nowadays that faith is an intellectual holding of what is possible they underpin a wretched reduction of faith Since the interest of New Testament studies shifted to philosophical details the word of the Bible was treated intellectually thus shaking the foundation of faith in many people Christoph Rau Could a deeper cause of today's myriad human troubles be related to a dwindling or even nonexistent familiarity with the four New Testament Gospels of Matthew Mark Luke and John This is the view of Christoph Rau for whom today's prevailing approach to theological research which treats the ancient religious texts more as literary products than authentic records of spiritual experience is if anything a contributing factor in our modern alienation from the spirit In this book Rau presents the results of five decades of research demonstrating the independent structure of each of the four canonical Gospels Through clear analyses he illumines the distinctive stylistic features of each composition revealing the design principles through which the meaning and goal of each Gospel can be understood Beyond the intrinsic value of each Gospel the author draws on their special features to explain how the spiritual richness of the four written works is fully revealed only by considering the pre-Christian religions because each of the evangelists describes the incarnation of the Son of God from the perspective of his own mystery religion Furthermore the author succeeds in showing that the Gospels despite their seeming contradictions are elements of a common organism This book is a translation from German of *Die Vier um den Einen Wesensart und spiritueller Hintergrund der Evangelien* Verlag Dr Dieter Winkler 2008 Renewing Christianity James H. Hindes, 1995-06 For Rudolf Steiner Christ's Incarnation and death on Golgotha were central events in earthly and cosmic history Humankind he said would evolve in time toward a spiritual awareness of Christ's presence in creation and the individual would no longer need institutionalized religious beliefs In this concise introduction to Steiner's ideas the author also describes the Christian Community which Steiner helped to establish as a movement for Christian renewal The Christian Community also called the Movement for Religious Renewal is an independent church founded in 1922

in Switzerland with the help of Rudolf Steiner The first American Congregation was founded in New York City in 1948 Further information can be found at the Christian Community website [www thechristiancommunity org](http://www.thechristiancommunity.org) This is not only one of the best introductions to the Christian Community and its history but an excellent introduction to the whole of Rudolf Steiner s worldview known as spiritual science or Anthroposophy **The Christian Course, Or Helps to ... Meditation ... With a Preface by ... W. Walsham How ... Third Edition ... Enlarged** Thomas MAY (Vicar of Leigh.),1875 *Necessary Evil* Hans-Werner Schroeder,2005 The author shows that the roots of evil lie with angelic beings and discusses the prehistory of evil in heaven showing how the polarity of two kinds of evil with good as a balance between them manifests in earthly history education work human relationships sexuality religion and technology [Meditation: The Way of Self-Realization](#) Taoshobuddha,2008-04-01 Book only one has to be prepared for the journey Your body is the temple of the unknown It is a miracle of the unknown The harmony that the body creates may become the door to inner harmony Breathing is the alphabet of the body and through it one is easily bridged to meditation One only has to be aware of it One simply is No thinking No feeling This is the ultimate experience of bliss Beyond this there is nothing This is the eternal search You have arrived home This is meditation The audio CD leads you through Guided Meditation **Hilltop Scriptural Meditations** Rev. Benjamin A Vima,2015-12-04 During all the hilltop moments in Jesuss life not only was he informed and confirmed by his Father about his true identity and mission but he also shared those inspirations with his followers This is what the scriptures and the Church exhorts us to encounter during our personal prayer time The author esteems of his retirement life of solitude as a hilltop milieu that is very conducive to meditate in the presence of God who is the highest According to the author Where the Highest is there the hilltop is And he asserts the meditations found in this work have been collected when he was at his highest place This book contains fifty two weekend meditations based on liturgical year Cs Sunday scriptural passages The author writes in his foreword the following I dream to see this work as a handbook to be used either in the hands of every Christian at his her Sabbath prayer hours or at the desks of preachers during the preparation of their Sunday homilies

**The Christian course, or Helps to the practice of meditation** Thomas May,1875 *The Road to Walden* Kevin Dann,2018-07-10 The acclaimed author of Expect Great Things The Life and Search of Henry David Thoreau traverses on foot from Manhattan to Walden Pond retracing Thoreau s steps and unlocking the practical principles of the mystic s life in the woods When Henry David Thoreau launched his experiment in living at Walden Pond he began by walking beyond the narrow limits of his neighbors simply by putting himself at a mile remove from Concord s bourgeois epicenter and a thousand mile remove from stasis complacency and conformity Kevin Dann emulates and extends Thoreau s experiment in radical self education Alternating between personal anecdotes from his spring 2017 walking pilgrimage and other traveler encounters and episodes told by Thoreau Dann structures his book around 12 injunctions distillations of seminal stories about overcoming convention and stasis In this essential reading for every Thoreau enthusiast naturalist and historian Kevin Dann

brings to life an essential American icon in refreshing and modern way      *Whitaker's Cumulative Book List* ,1985      S. Paul's Eirenicon; or the Way of peace in an age of conflict. A sermon, etc George BODY,1869      *Sacred Paths of the West* Theodore M Ludwig,2015-08-07 This text combines study of the dynamic historical development of each religious tradition with a comparative thematic structure Students are encouraged to discover and explore the nature of religious experience by comparing basic themes and issues common to all religions finding connections with their own personal experiences By sensitively introducing descriptive material within a comparative thematic structure this text helps students to understand how each religion provides for its adherents patterns and meanings that make up a full way of life      *Faith and Reason* Richard Swinburne,2005-09-29 Richard Swinburne presents a new edition of the final volume of his acclaimed trilogy on philosophical theology Faith and Reason is a self standing examination of the implications for religious faith of Swinburne's famous arguments about the coherence of theism and the existence of God By practising a particular religion a person seeks to achieve some or all of three goals that he worships and obeys God gains salvation for himself and helps others to attain their salvation But not all religions commend worship and different religions have different conceptions of salvation Faced with these differences Richard Swinburne argues that we should practice that religion which has the best goals and is more probably true than the creeds of other religions He proposes criteria by which to determine the probabilities of different religious creeds and he argues that while requiring total commitment faith does not demand fully convinced belief While maintaining the same structure and conclusions as the original classic this second edition has been substantially rewritten both in order to relate its ideas more closely to those of classical theologians and philosophers and to respond to more recent views In particular he discusses and ultimately rejects the view of Alvin Plantinga that the warrant of a belief depends on the process which produced it and John Hick's contention that all religions offer valid paths to salvation      The Catechism, Or, Christian Doctrine by Way of Question and Answer. Illustrated by the Sacred Text and Tradition. [By Andrew Donlevy.] ,1843

**Prayer, Meditation, and Spiritual Trial** Gordon L. Isaac,2022-10-18 Quite often theology and spirituality are separated pursued without reference to the other a classic example of the disjunction between head and heart But in Luther we find a profound theologian exhibiting a profound spirituality one that still speaks to us today Luther sets out three rules for doing proper theology oratio meditatio tentatio or prayer meditation and spiritual trial These three rules derived from David the psalmist provide a way for readers to investigate more thoroughly what Luther says about the important practice of theology or life in the Spirit But they also serve as a simple way for Christians to live a fuller spiritual life The intention of this book is to help readers enter into the world of Luther the Augustinian monk and Reformer who prays meditates and suffers spiritual trial within the community of faith that extends over the centuries Ever the teacher and pastor himself Gordon Isaac invites readers into the reality of living a theology of the cross which helps make sense of our present struggles in this world and shows us how we can live in the love of God as revealed through Jesus Christ      **Out Of The Woods** Alan Heeks,2013-09-19

*Edward Schillebeeckx and Interreligious Dialogue* Edmund Kee-Fook Chia,2012-01-23 If Schillebeeckx had been Asian how would he have responded to the phenomenon of religious pluralism This book attempts to answer that question beginning with a dialogue with the Vatican Declaration Dominus Iesus and discerning how Schillebeeckx s methodology has been applied in Asian theology Employing the hermeneutical critical method Schillebeeckx asserts that the Word of God did not come down to us as it were vertically in a purely divine statement it must be interpreted In today s context of so many religions so many cultures and so many poor God s Word invites the church to be a sacrament of dialogue Through dialogue the church will be challenged by other religions and challenge them in return Christianity will then be put in its place as well as given the place which is its due

One of the areas of sustained interest for Reverend Professor Anthony Kelly CSsR has been the mystery of the Trinity the divine mystery constituted as Father Son and Spirit Indeed his whole life as theologian teacher priest and preacher and even as poet has been spent in the quest firstly to know the mystery in which we live and move and have our being and to penetrate it ever more deeply and secondly to communicate it ever The essays in this collection demonstrate the wide range of genre in which Kelly writes from the highly academic and scholarly addressing the subtle refinements and sophisticated argumentation of theological scholarship such as the essay on Trinitarian Connections in this collection through more contemplative and meditative reflections to the very practical as in the challenges of preaching on Trinity Sunday As is very evident in these essays Kelly systematically but gently expatiates on the meaning of the mysteries of faith skilfully interweaving references from the biblical witness classic creedal statements of faith doctrinal statements and insights from the tradition including the mystics They show him to be a consummate systematician robustly orthodox but restlessly imaginative ever bent on expressing the mysteries of Christian faith evocatively meaningfully and persuasively In a telling comment Kelly writes If faith is to remain alive to the living God if it is to serve the Word and communicate in the Spirit our language needs to be restlessly imaginative
