BRUNNER, 2018. **Dogmatics II** Emil Brunner, 2025-01-01. One of the great twentieth century works of theology. Emil Brunner's Dogmatics series presents a profoundly biblical systematic theology. Finding a path between Barth and Bultmann, Brunner explores key doctrines such as the doctrine of God, creation and redemption, and the doctrine of the church and of faith. These foundational texts from a leading theologian of the 20th century are crucial for scholars and students, illuminating how modern Protestant theology was formed in the last century. The second volume explores the fundamental concepts of the Protestant doctrine from creation and the creator to man's position within creation, sin and its consequences, and the saving work of Jesus. Brunner explores all of the possibilities of these fundamentals, and his detailed thoughtful arguments are designed, as he says, to set us free to have a faith which is based on nothing save the Love of God revealed in Jesus Christ.

Publisher. *The Task of Dogmatics* Zondervan, 2017-11-21. Defining the Nature, Process, and Mission of Dogmatic Discourse. Theologians often discuss method in a remote and preliminary way that suggests they are not yet speaking theologically when speaking methodologically. But it is also possible to reflect on the work of Christian dogmatics in a way that is self-consciously nourished by biblical reasoning, resourced by tradition, joined up with ecclesial practice, and alert to spiritual dynamics. Bringing together theologians who are actively engaged in the writing and editing of extended dogmatics projects, *The Task of Dogmatics* represents the proceedings of the 2017 Los Angeles Theology Conference and seeks to provide constructive accounts of the nature of the dogmatic task. The eleven diverse essays in this collection include discussions on identifying theology's pattern and norm, the validity and relativity of doctrinal statements, the Apostle Paul and the task of dogmatics, the retrieval of patristic and medieval theology. Each of the essays collected in this volume engages with Scripture as well as with others in the field, theologians both past and present from different confessions, in order to provide constructive resources for contemporary systematic theology and to forge a theology for the future. **The Christian**
