House of Leaves Mark Z. Danielewski, 2000-03-07 THE MIND BENDING CULT CLASSIC ABOUT A HOUSE THAT'S LARGER ON THE INSIDE THAN ON THE OUTSIDE A masterpiece of horror and an astonishingly immersive maze like reading experience that redefines the boundaries of a novel Simultaneously reads like a thriller and like a strange dreamlike excursion into the subconscious Michiko Kakutani The New York Times Thrillingly alive sublimely creepy distressingly scary breathtakingly intelligent it renders most other fiction meaningless Bret Easton Ellis bestselling author of American Psycho This demonically brilliant book is impossible to ignore Jonathan Lethem award winning author of Motherless Brooklyn One of The Atlantic's Great American Novels of the Past 100 Years Years ago when House of Leaves was first being passed around it was nothing more than a badly bundled heap of paper parts of which would occasionally surface on the Internet No one could have anticipated the small but devoted following this terrifying story would soon command Starting with an odd assortment of marginalized youth musicians tattoo artists programmers strippers environmentalists and adrenaline junkies the book eventually made its way into the hands of older generations who not only found themselves in those strangely arranged pages but also discovered a way back into the lives of their estranged children Now made available in book form complete with the original colored words vertical footnotes and second and third appendices the story remains unchanged Similarly the cultural fascination with House of Leaves remains as fervent and as imaginative as ever The novel has gone on to inspire doctorate level courses and masters theses cultural phenomena like the online urban legend of the backrooms and incredible works of art in entirely unreal mediums from music to video games Neither Pulitzer Prize winning photojournalist Will Navidson nor his companion Karen Green was prepared to face the consequences of the impossibility of their new home until the day their two little children wandered off and their voices eerily began to return another story of creature darkness of an ever growing abyss behind a closet door and of that unholy growl which soon enough would tear through their walls and consume all their dreams

A History of Architecture on the Comparative Method for Students, Craftsmen & Amateurs Sir Banister Fletcher, 1921

Cross Country Peter Ashley, 2012-03-30 In Cross Country photographer and author Peter Ashley unleashes his passion for Blighty He takes us on an enlightening jaunt that encompasses many of England's most loved regions His love of buildings and landscape extends far beyond architecture in picturesque surroundings By combining personal reminiscence and an ear for intriguing anecdote he shows us with wit and sometimes irreverent comment just how richly varied the fabric of England is abandoned Cornish tin mines above tide washed caves Norfolk boat sheds leaning on salt marches Romney Marsh shepherd's houses disappearing behind roadside willows and hedges looked over in Wiltshire Local details are found in both Essex estuaries and Cumbrian sand dunes and long abandoned railway lines are once again pressed into service to take us around his beloved High Leicestershire Ashley never misses the curious and neglected be it a

sheep wash in the Cotswolds or a disused petrol pump in Herefordshire He travels deep into the countryside he cares about His wry observations allow us to rediscover and delight in what many of us might previously have deemed familiar territory

preservation and presentation are mutually supportive the success of integrated approaches that are inclusive of social economic and green environmental concerns is understood but the value of developing truly sustainable management for individual historic places is only just becoming evident At the heart of such an approach lies a crucial relationship between the activity of preserving historic places and of promoting understanding of their significance **Fred Dibnah's Buildings of Britain** Fred Dibnah, David Hall, 2008 For a lot of people one of their first questions when they visit a great historic building is How the heck did they build that all that time ago How did they manage to lift all that stone and wood up to such a great height In Fred Dibnah s Buildings of Britain we get Fred Dibnah s own distinctive answer to this question as he takes us to some of the country s most famous and historic monuments castles cathedrals abbeys great houses and engineering marvels One of Fred s great passions was architecture engineering and the craft skills of builders carpenters stonemasons and structural engineers His interest was not in architectural theory but in the practicalities of how things were built and with the help of his beautifully executed drawings he was very good at giving simple vivid explanations of how things like great medieval castles and abbeys were built at a time when technology was limited and there were no power tools no concrete no steel no engines and no heavy machinery From Peterborough Cathedral to St Paul s and from the Humber Bridge to the Blackpool Tower the book will take us on a tour of Britain s great historic buildings with a very unique and charismatic guide Fred Dibnah
