Stolen Language:

Stolen Language? Shelley Angelil-Carter, 2014-06-11 Real Language Series General Editors Jennifer Coates Jenny Cheshire and Euan Reid This is a sociolinguistic series about the relationships between language society and social change Books in the series draw on natural language data from a wide range of social contexts The series takes a critical approach to the subject challenging current orthodoxies and dealing with familiar topics in new ways The topic of plagiarism is a highly contentious issue and one that is of growing interest and importance in higher education across the world *Stolen Language Plagiarism in Writing* uncovers the reasons why students plagiarize and explains what can be done about it It challenges the concepts of original authorship of language tracing the notion of plagiarism to the introduction of copyright laws in the eighteenth century The analysis presented in this book explores plagiarism as complex and contested and suggests that in student academic writing it may be the surface manifestation of learning difficulties related to the educational environment the nature of academic discourse and the nature of language Underlying the concept of plagiarism is the premise that meaning is made by the individual using the system of language at his or her disposal The words and ideas then belong to the individual who first thought of them or who first used these words in a particular way New understandings that language and cognition are fundamentally social and cultural contest the idea of original thought or original language In addition what constitutes plagiarism differs depending on the genre and context of writing *Stolen Language* shows that there is in any good writing an authorial presence an authorial voice which is particularly difficult for the novice writer to control when constructing an essay based on multiple texts Written in a unique and accessible way the book also looks at the particular difficulties experienced by writers of English as an additional language and provides a practical framework for academics and teachers of writing on how to develop authorial voice and critical thinking in the student writer

Stolen Language? Shelley Angelil-Carter, 2000 Uncovering the reason why students plagiarize this text explains what can be done about it It challenges the concepts of original authorship and ownership of language and shows that plagiarism is a complex and contested subject

Language, Land and Belonging: Poetic Inquiries Natalie Honein, Margaret McKeon, 2023-04-25 This volume takes up themes emergent from the 7th International Symposium on Poetic Inquiry ISPI which invited participants to reflect on the United Nations Declaration of 2019 as the International Year of Indigenous Languages In this refereed collection Indigenous and non Indigenous authors use poetic inquiry to explore the importance of their ancestral languages and lands and consider the Indigenous languages and peoples of the lands where they live Situated in diverse global contexts poet researchers examine the intersectionality of their languages their lands and their sense of belonging They offer relational understandings of and articulate obligations for their environment and communities Through stories of shared generational pain and renewal each author brings the reader into their world of learning and growth They do this through discourses of belonging and relational responsibilities that tie them to a place a genealogy As a method of study that

incorporates poetry into academic research poetic inquiry is concerned with particularity complexity and transformations Making research more visceral and evocative it invites researchers to examine and engage with the knowledge they seek through a continual process of questioning welcoming and awareness In this volume poetic inquiry helps to honor languages and histories taken for granted it allows looking back in order to reexamine redefine and make sense of the present and its shortcomings while reimagining a different future This work seeks to reclaim through poetic inquiry wisdom of language land and belonging

Americans in British Literature, 1770-1832 Christopher Flynn, 2017-03-02 American independence was inevitable by 1780 but British writers spent the several decades following the American Revolution transforming their former colonists into something other than estranged British subjects Christopher Flynn's engaging and timely book systematically examines for the first time the ways in which British writers depicted America and Americans in the decades immediately following the revolutionary war Flynn documents the evolution of what he regards as an essentially anthropological if also in some ways familial interest in the former colonies and their citizens on the part of British writers Whether Americans are idealized as the embodiments of sincerity and virtue or anathematized as intolerable and ungrateful louts Flynn argues that the intervals between the acts of observing and writing and between writing and reading have the effect of distancing Britain and America temporally as well as geographically Flynn examines a range of canonical and noncanonical works sentimental novels of the 1780s and 1790s prose and poetry by Wollstonecraft Blake Coleridge and Wordsworth and novels and travel accounts by Smollett Lennox Frances Trollope and Basil Hall Together they offer a complex and revealing portrait of Americans as a breed apart which still resonates today

Language in the Academy Joan Turner, 2010-12-01 This book takes a critical look at why issues of language in higher education are routinely marginalised despite the growing internationalisation of universities Through analyses of a variety of intercultural encounters the book highlights the range of interpretative possibilities available for understanding these encounters and suggests the role that the reality of the contemporary intercultural dynamic between the Socratic and Confucian pedagogic traditions can play in driving change to the pedagogic practices of higher education Another important aim of the book is to examine language in the academy as an object of cultural theory While rooted in the practical and empirical reality of teaching and using language in higher education this book argues for the importance of examining the institutional interface between language and higher education and of critically exploring the values inscribed in the pedagogy and evaluation of academic language

Framing Ethics and Plagiarism in Medical Research Writing and Publishing Girolamo Tessuto, Michele

Caraglia, 2024-01-15 As scientific knowledge is continually refreshed by new experiments and theoretical insights and openly communicated to the medical community upholding the academic integrity of scientific publishing is a key ethical issue in medical research Academic integrity does not just involve commitment to a moral code or ethical policy it is also about adherence to a set of values that avoid plagiarism and support trustworthy fair and honest behaviour in medical research and publishing thus ensuring that knowledge dissemination proceeds unhampered However plagiarism is often framed in narrow judgmental terms that leave little room for doctors and researchers to understand its complexities and consequences made all the more complicated by the increasing use of the internet as a research space This book provides an extensive exploration of ethics and plagiarism helping its readership to understand how and to what extent the language and text processing components of medical discourse can and should be scrutinized across the genres that matter to scientific medical research writing practices and publishing

Race, Theft, and Ethics Lovalerie King, 2007-12 In *Race Theft and Ethics* Lovalerie King examines African American literature's critique of American law concerning matters of property paying particular attention to the stereotypical image of the black thief She draws on two centuries of African American writing that reflects the manner in which human value became intricately connected with property ownership in American culture even as racialized social and legal custom and practice severely limited access to property Using critical race theory King builds a powerful argument that the stereotype of the black thief is an inevitable byproduct of American law politics and social customs In making her case King ranges far and wide in black literature looking closely at over thirty literary works She uses four of the best known African American autobiographical narratives Narrative of the Life of Frederick Douglass Harriet Jacobs's *Incidents in the Life of a Slave Girl* Booker T Washington's *Up From Slavery* and Richard Wright's *Black Boy* to reveal the ways that law and custom worked to shape the black thief stereotype under the institution of slavery and to keep it firmly in place under the Jim Crow system Examining the work of William Wells Brown Charles Chesnutt James Weldon Johnson and Alice Randall King treats the ethics of passing and considers the definition and value of whiteness and the relationship between whiteness and property Close readings of Richard Wright's *Native Son* and Dorothy West's *The Living is Easy* among other works question whether blacks unequal access to the economic opportunities held out by the American Dream functions as a kind of expropriation for which there is no possible legal or ethical means of reparation She concludes by exploring the theme of theft and love in two famed neo slave or neo freedom narratives Toni Morrison's *Beloved* and Charles Johnson's *Middle Passage* *Race Theft and Ethics* shows how African American literature deals with the racialized history of unequal economic opportunity in highly complex and nuanced ways and illustrates that for many authors an essential aspect of their work involved contemplating the tensions between a given code of ethics and a moral course of action A deft combination of history literature law and economics King's groundbreaking work highlights the pervasiveness

of the property race ethics dynamic in the interfaces of African American lives with American law **Just Being Difficult?** Jonathan D. Culler, Kevin Lamb, 2003 Is academic writing particularly in the disciplines of literary theory and cultural studies needlessly obscure The claim has been widely circulated in the media and subject to passionate debate but it has not been the subject of serious discussion Just Being Difficult provides learned and thoughtful analyses of the claim of those it targets and of the entire question of how critical writing relates to its intended publics and to audiences beyond them In this book a range of distinguished scholars including some who have been charged with willful obscurity argue for the interest and importance of some of the procedures that critics have preferred to charge with obscurity rather than confront in another way The debate on difficult writing hovers on the edges of all academic writing that seeks to play a role in the public arena This collection is a much needed contribution to the discussion **The Age of the World Target** Rey Chow, 2006-04-05 DIVAn exploration of the theoretical and political consequences of the post Enlightenment self and of the concept of self referentiality div **PassPORTS, ClassROOMS, & JobMARKETS** Anthony M. Sacred Longings Mary C. Grey, 2004 This book explores what is happening to the human spirit in a culture shaped and driven by globalization a culture where dreams imaginations and desires are all manipulated What do we really want Noted theologian Mary Grey believes we have gotten out of touch with our deepest desires and that the root problem is our acquiescence in global capitalism's most problematic characteristics Story and symbol she argues can put us back in touch with our sacred longings Focusing on such simple yet profound symbols as water light and sacred space she tries to rekindle a spiritual quest In the end she envisions spirituality a kind of ecomystical renewal as an element in the transformation of desire lived out in Christian community For desire to be reborn for sacred longings even to be named not to mention fulfilled there needs to be an embracing of the way of renunciation simplicity and sacrifice And that is counter cultural As Part One looks at how our culture has lost heart and Part Two analyzes our restless hearts Part Three asks us to take heart and rekindle our thirst for righteousness
