the Giza Necropolis The Mayan story of the construction of the Pyramid of the Magician said to be overseen by a small humanoid who could whistle large stones into place Native American stories of ancient priests being able to make stones light to move easily Author Nick Redfern argues it was not literally music and whistling that somehow raised large stones but both have one thing in common sound Acoustics Almost certainly acoustic levitation was at the heart of these incredible feats The truth of the science behind acoustic levitation was lost and forgotten for ages with little more left than fanciful tales of music whistles a curious papyrus and strange metal rods that could achieve incredible feats in the air Today we are finally starting to get a grasp on this incredible technology a technology that may have been the work of ancient humans aliens from faraway worlds or perhaps a combination of the two Lost Continents & the Hollow Earth David Hatcher Childress, Richard S. Shaver, 1999 This book is Childress thorough examination of the early hollow earth stories of Richard Shaver and the fascination that fringe fantasy subjects such as lost continents UFOs and the hollow earth have had on people Shaver s rare 1948 book I Remember Lemuria is reprinted in its entirety and the book is packed with illustrations from Ray Palmer s Amazing Stories issues of the 1940s Childress discusses famous hollow earth books and delves deep into whatever reality may be behind the stories of tunnels underground *Jesus Christ, the Number of His Name* Bonnie Gaunt, 1998 Sir Issac Newton searched more than half a lifetime for the secret code that he suspected was in the original texts the Old and New Testaments He died without ever finding it That sacred code now reveals the story of Jesus Christ His part in the work of creation His coming as the babe of Bethlehem and His glorious second coming as the promised King on David s Throne The exciting message that was encoded into the original text tells the time of His coming and the Earth s Great Millennium Today we are living in the time that was prophesied This book takes us on an exciting journey into the secrets of that code and its astounding message **The Coming of Jesus** Bonnie Gaunt, 1999 The Codes or Gematria of the Bible are decided to reveal predictions of the first coming of Jesus as a child born in Bethlehem of his second coming and of earth s great millennium Readers will be fascinated by the magnificent journey revealed by The Coming of Jesus a journey that transports them from the biblical era to the present day The author also demonstrates that the time line for the fulfilment of end time prophecies is encoded within the prophecies themselves The book shows how clues to the coming Golden Age exist in the pyramids Stonehenge the Bible and other ancient texts **Reading Stories for Comprehension Success** Katherine L. Hall, 2004-12-27 A flexible high interest program that can be used with all regular and special students grades 10 12 Each volume provides over 45 factual stories with related teaching materials 15 at each level **Stonehenge** Mike Parker Pearson, 2012-06-07 Our knowledge about Stonehenge has changed dramatically as a result of the Stonehenge Riverside Project 2003 2009 led by Mike Parker Pearson and included not only Stonehenge itself but also the nearby great henge enclosure of Durrington Walls This book is about the people who built Stonehenge and its relationship to the surrounding landscape The book explores the theory that the people of Durrington Walls built both Stonehenge and Durrington Walls and

that the choice of stone for constructing Stonehenge has a significance so far undiscovered namely that stone was used for monuments to the dead Through years of thorough and extensive work at the site Parker Pearson and his team unearthed evidence of the Neolithic inhabitants and builders which connected the settlement at Durrington Walls with the henge and contextualised Stonehenge within the larger site complex linked by the River Avon as well as in terms of its relationship with the rest of the British Isles Parker Pearson's book changes the way that we think about Stonehenge correcting previously erroneous chronology and dating filling in gaps in our knowledge about its people and how they lived identifying a previously unknown type of Neolithic building discovering Bluestonehenge a circle of 25 blue stones from western Wales and confirming what started as a hypothesis that Stonehenge was a place of the dead through more than 64 cremation burials unearthed there which span the monument's use during the third millennium BC In lively and engaging prose Parker Pearson brings to life the imposing ancient monument that continues to hold a fascination for everyone
