Heaven's Door Cassandra

Morphy, 2021-06-01 Maya San Lucas had been lost in her dreamworld for the better part of five years. Desparia was just a fantasy world for her to explore during stretches of boredom at school and at home. Going to that world let her have adventures exploring secret locations and searching through towns and cities for loot to come away with. The life of a thief was so much more exciting than high school, especially with no friends to speak of. After escaping the hell of Hell, Maya and her friends had returned to the depths of the emperor's stronghold. Some were emboldened by what they had seen, more determined than ever to see the emperor deposed. But Maya had brought her own demons with her on her return to Desparia. As her demons stalked her, Maya's newfound magic grows stronger, making her more dependent than ever on her friends by her side. And with more doors behind them than in front of them, the group pushed on to their destination, even as they experience some of their worst losses yet. Jared didn't understand what was happening to him. He was too young to know the power seated deep within him, destroying whole towns around him. But when he meets Celestia and her fae people, he learns that he is a mage and starts to come to terms with what that meant. As he sets out on his journey to rid the world of evil, he starts seeing his own magic as part of the problem. One that he was determined to rid the world of. The only problem was how to do that without hunting down and killing every mage that ever lived.

Stars, Stones and Scholars

Andis Kaulins, 2008-12-12 The hermetic tradition claims 'As above, so below.' Did the ancients mean that literally? *Stars, Stones and Scholars* shows that many ancient megalithic sites are not tombs but are remnants of ancient local, regional and perhaps even larger Neolithic surveys of the Earth by Stone Age astronomy, with gigantic stones being placed as immovable survey markers. Circa 40 photographs, 240 drawings and 80 maps show how megaliths were carved and sculpted with figures and cupmarks, holes in the stones to represent stars and constellations long before the modern astrological zodiac was known. Megalithic sites from England: Stonehenge, Wales: Paviland, Scotland: Clava Cairns, Ireland: Newgrange, Knowth, Germany: Externsteine, Benelux: Weris, France: Carnac, Italy: La Spezia, Malta: Tarxien, Greece:
