Meece,Jacquelynne S. Eccles,2010-06-10 Children spend more time in school than in any social institution outside the home And schools probably exert more influence on children s development and life chances than any environment beyond the home and neighbourhood The purpose of this

book is to document some important ways schools influence children's development and to describe various models and methods for studying schooling effects. Key features include Comprehensive Coverage: this is the first book to provide a comprehensive review of what is known about schools as a context for human development. Topical coverage ranges from theoretical foundations to investigative methodologies and from classroom level influences such as teacher-student relations to broader influences such as school organization and educational policies. Cross-Disciplinary: this volume brings together the divergent perspectives, methods, and findings of scholars from a variety of disciplines, among them educational psychology, developmental psychology, school psychology, social psychology, psychiatry, sociology, and educational policy. Chapter Structure to ensure continuity: chapter authors describe 1) how schooling influences are conceptualized, 2) identify their theoretical and methodological approaches, 3) discuss the strengths and weaknesses of existing research, and 4) highlight implications for future research, practice, and policy. Methodologies: chapters included in the text feature various methodologies, including longitudinal studies, hierarchical linear models, experimental and quasi-experimental designs, and mixed methods.

Stop Bullying Pocketbook Michele Elliott, 2015-09-16. Bullying: Repeated intimidation intentionally carried out by a more powerful person or group in order to cause physical and/or emotional hurt. It happens in every type of school and in all classes and cultures; it's a problem for thousands of children and increasing numbers of teachers. The Stop Bullying Pocketbook is jam-packed with practical ideas for tackling all forms of bullying, including the insidious cyber-bullying that leaves victims vulnerable 24 hours a day, seven days a week. Author Michele Elliott, inspirational founder and director of Kidscape, offers defending, deflecting, and defusing strategies for those who suffer at the hands of bullies, as well as strategies for parents and teachers who have to deal with bullies. There are also awareness-raising ideas for students and tried-and-tested methods for teachers looking to create a bully-free school. It's an uplifting, energising book that leaves you utterly convinced that the bullies can indeed be zapped.

Shared Responsibility Ian Findley, 2006-04-01. Bullying is a reality for every school. It occurs in social groups as a part of a battle for power and social recognition. Shared Responsibility aims to resolve instances of bullying not by punishing bullies but by asking them to share in the responsibility of finding a solution. By supporting victims and assessing the damage caused, this book addresses the impact of bullying and provides practical solutions for dealing with repeat offenders and challenging students. Collated over 12 years of research, a series of case studies are used to illustrate examples of successful outcomes and provide a model for implementing Shared Responsibility as a whole-school approach. This method considers the needs of all students involved in bullying and attempts to change offending behaviour and attitudes by developing empathy and self-discipline in bullies. Tested and trialled in Australian schools, Shared Responsibility empowers schools, bullies, and their victims to find constructive and ongoing resolutions to this challenging social phenomenon. As both a bully and a victim in childhood and with 27 years' experience working in secondary schools, Ian Findley approaches the subject of bullying from a unique and highly qualified perspective.
