Stories For Tens And Over By Corrin Sara:

Behind the Poem Robert Hull,2019-08-09 Published in 1988 this book is a teacher s eye view of how children come to write and rewrite poems and of how they make aesthetic choices in their writing Drawing on over twenty years experience of teaching poetry in primary and secondary schools Robert Hull presents a detailed account of the process of writing poetry in the classroom The reader is invited almost in confidence to be witness to a skilled teacher s planning recognition and definition of children s emergent understanding and expertise The author adopts a non behaviourist model which stresses difficulty and uncertainty rejecting a simplistic assumption of linear progression predictability of outcome and short term results The many examples of poems written by the children demonstrate in a very vivid and impressive way the value of this approach All teachers not just of poetry will find this a fascinating and informed study and an inspiration for their own work in the classroom
