**Getting It On Online** John Edward Campbell, 2014-04-04 Learn how gay men use Internet technologies to connect with others sharing their erotic desires and to forge affirming communities online Getting It On Online Cyberspace Gay Male

Sexuality and Embodied Identity examines the online embodied experiences of gay men. At once scholarly and sensual, this unique book is the result of a three-year ethnographic study chronicling the activities on three distinct social scenes in the world of Internet Relay Chat (IRC) virtual spaces constructed by gay men for the erotic exploration of the male body. Examining the vital role the body plays in defining these online spaces offers insight into how gay men negotiate their identities through emerging communication technologies. The author combines a critical look at the role of the body in cyberspace with candid accounts of his own online experiences to challenge conventional views on sex, sexuality, and embodied identity. *Getting It On Online* provides an inside look at three specific online communities: *gaychub*, a community celebrating male obesity; *gaymuscle*, a community formulated around images of the muscular male body; and *gaymusclebears*, a space representing the erotic convergence of the obese and muscular male bodies emerging out of the gay male bear subculture in an effort to unsettle those models of beauty and the erotic depicted in more mainstream media. The book demonstrates how the social position of these men in the physical world in regards to age, race, gender, class, and physical beauty influences their online experiences. Far from a realm of bodiless exultation, *Getting It On Online* illustrates how the flesh remains very much present in cyberspace. *Getting It On Online* examines topics such as why people chat online, the history of IRC, Internet Relay Chat, how people construct their identities in cyberspace, how some online spaces function like virtual gay bars, the concept of online disembodiment, the role the body plays in online social relations, the future of online communication, ethnographic research in cyberspace, mediated images of the male body, and the gay male beauty myth, and much more. *Getting It On Online: Cyberspace, Gay Male Sexuality, and Embodied Identity* is an essential resource for anthropologists, sociologists, and psychologists, academics working in gender studies, queer theory, cultural studies, and cyber culture studies, and anyone interested in gay and lesbian issues and/or cyberspace.

**Pederasts and Others** William Peniston, 2012-11-12. Examine how a community of support in Nineteenth Century Paris became a blueprint for modern sexual identity. A unique social history. *Pederasts and Others: Urban Culture and Sexual Identity in Nineteenth Century Paris* is a valuable addition to the growing field of gay and lesbian studies. The book examines the interaction between the city's male homosexual subculture and Parisian authority figures who attempted to maintain political and social order during the early years of the French Third Republic by using laws against public indecency and sexual assault to treat same-sex sexuality as a crime. Faced with a constant cycle of surveillance, harassment, and arrest, the city's gay men survived the hostile urban environment by forming a community of support that had a widespread and lasting influence on the development of modern sexual identities. *Pederasts and Others: Urban Culture and Sexual Identity in Nineteenth Century Paris* is based on a statistical analysis of more than 800 working-class and middle-class men who were arrested or investigated by Parisian police between 1873 and 1879. Their stories presented through long and short case studies represent nearly 2,000 names recorded by police in *Pederasts and Others*, a ledger detailing the arrests of male homosexuals for public offenses against decency and

other minor offenses The term pederast identified those suspected of same sex sexual activity not the modern definition that indicates homosexual relations with a minor The ledger entries reveal specific habits attitudes values and characteristics about these men that set them apart the same traits that identified them as part of a community based on their behavior and relationships Pederasts and Others Urban Culture and Sexual Identity in Nineteenth Century Paris examines the forces of authority the laws regarding same sex sexual behavior the role of the police the role of the magistrates the role of the doctors the common characteristics of the city's male homosexual subculture the sexual behaviors of the Paris underground the geography of the subculture and takes an expanded look at three case studies A Decadent Aristocrat and A Delinquent Boy Pederasts Prostitutes and Pickpockets Love and Death in Gay Paris Pederasts and Others Urban Culture and Sexual Identity in Nineteenth Century Paris also includes tables appendices and maps linked to statistical data The book is an essential resource for historians sociologists sexologists criminologists and other scholars working in the fields of gay and lesbian studies urban studies social and cultural history and French history *Restoried Selves* Kevin Kumashiro, 2013-04-03 *Restoried Selves* Autobiographies of Queer Asian Pacific American Activists presents the first person accounts of 20 activists life stories that work against common stereotypes shattering misconceptions and dispelling misinformation These autobiographies challenge familial and cultural expectations and values that have traditionally forced queer Asian Pacific Americans into silent shame because of their sexual orientation and or ethnicity Authors share not only their experiences growing up but also how those experiences led them to become social activists speaking out against oppression Many harmful untruths or stories about queer Asian Pacific Americans have been repeated so often they are accepted as fact *Restoried Selves* Autobiographies of Queer Asian Pacific American Activists provides a forum for voices often ignored in academic literature to re-story themselves addressing a range of experiences that includes cultural differences and values conflicts between different generations in a family or between different groups in a community and difficulties and rewards of coming out Those giving voice to their stories through narrative and other writing genres include the transgendered and intersexed community activists youths and parents The stories told in *Restoried Selves* Autobiographies of Queer Asian Pacific American Activists reflect on personal experiences based on country of origin educational background religion gender and age populations served by activism including the working poor immigrants adoptees youth women and families different arenas of activism including schools governments social services and the Internet issues targeted by activism including affirmative action HIV AIDS education mental health interracial relationships and sexual violence institutions in need of change including legal religious and educational entities and much more *Restoried Selves* Autobiographies of Queer Asian Pacific American Activists is an essential read for academics and researchers working in Asian American studies ethnic studies gender studies and queer studies and for LGBTQ youth and their parents teachers and social service providers
