Stories of Democracy Mary Ann Tétreault,2000 A sophisticated investigation of the shifting tides of democratic governance in modern Kuwait from 1921 to the present based on interviews both with political activists and members of the political elite Stories of Democracy sheds light on a wide array of issues concerning Middle Eastern politics and democratic institutions in general Mary Ann T tetreault explores how various political factions have sought to advance their own notions of Kuwaiti history and politics through distinctive popular appeals 1 pro democracy forces focusing on Kuwait s relationship to the universal values of the democratic world around them and 2 anti democrats proffering Arab and Muslim religious and cultural traditions She explores how such dramatic events as the suspension of the Kuwaiti constitution in 1986 and the invasion by Iraq in 1990 occasioned major shifts in the course of the democracy movement The current running through virtually all of the nation s political drama is the monolithic Kuwait Petroleum Corporation KPC used by the government as an instrument of economic strength to safeguard sovereignty in the absence of military might

American and Muslim Worlds before 1900 John Ghazvinian,Arthur Mitchell Fraas,2020-02-06 American and Muslim Worlds before 1900 challenges the prevailing assumption that when we talk about American and Muslim worlds we are talking about two conflicting entities that came into contact with each other in the 20th century Instead this book shows there is a long and deep seam of history between the two which provides an important context for contemporary events and is also important in its own right Some of the earliest American Muslims were the African slaves working in the plantations of the Carolinas and Latin America Thomas Jefferson a slaveholder himself was frequently called an infidel and suspected of hidden Muslim sympathies by his opponents Whether it was the sale of American commodities in Central Asia Ottoman consuls in Washington orientalist themes in American fiction the uprisings of enslaved Muslims in Brazil or the travels of American missionaries in the Middle East there was no shortage of opportunities for Muslims and inhabitants of the Americas to meet interact and shape one another from an early period

more object from the Islamic world These encompass portable items in a wide variety of media book illustrations calligraphy photographs architectural decoration buildings and archaeological sites The book also provides a detailed introduction maps timeline glossary and guides for further reading This book offers accessible answers to key questions in the scholarship on Islamic art and architecture from its earliest times to the present The issues dealt with in each of the stories include iconography attitudes towards representation the role of script the elaboration of geometric decoration the creation of sacred and secular spaces in architecture and the socio cultural context of art production and consumption Artistic interactions between the Islamic world and other regions including Europe and China are also discussed in this book A Story of Islamic Art is an engaging and informative introduction for interested readers and students of Islamic art history and architecture

Books-In-Brief: Muslim Societies in Postnormal Times Ziauddin Sardar,Scott Jordan,Jordi Serra,2022-01-01 Where will Muslim societies be tomorrow The world is increasingly and constantly changing making it hard to keep up This makes the state much more dire and troublesome for those already marginalised particularly Muslim societies Normal is no longer capable of upholding the promise of tomorrow s certainty These are postnormal times In this storm of ignorance and uncertainty Muslim societies stand to lose the most But this is not destiny In the cultivation of a new type of literacy futures literacy there resides a hope Muslim Societies in Postnormal Times offers an alternative where we can rescue and decolonise our futures Sardar Serra and Jordan take an open and plural approach to the future revealing the true potentials that lie before us Through detailed analysis of contemporary trends the road to destruction is revealed Through identifying and exploring emerging issues agency through options can allow for positive change And in the extrapolation of these ideas into scenarios the authors pave the way for us to navigate our own preferred futures Their study challenges the reader to think about the future in a new way redefining the monolithic future as three tomorrows Extended

Present Familiar Futures and Unthought Futures along the way ever watchful for Black Swans Black Elephants and the illustrious Black Jellyfish that could disrupt the path ahead The authors pull no punches in critically evaluating the possibilities and nightmares that could potentially befall Muslim societies Through a display of creativity and imagination this book looks beyond the conventional to illuminate impacts in the context of the complex interconnected world we find ourselves in This informative and enlightening text will push readers to see beyond popular yet native notions of present and future In the exposition of the reader's ignorance and uncertainty they will begin to look for the unthought and take agency in recolonising and navigating their preferred tomorrow The Story of Christianity: Volume 2 Justo L. Gonzalez, 2010-12-07 Beginning with the Protestant Reformation of the sixteenth century this fully revised and updated second volume of The Story of Christianity continues the marvelous history of the world's largest religion Award winning historian Justo Gonzalez brings to life the people dramatic events and theological debates that have shaped Protestantism Catholicism and Orthodoxy From the monk Martin Luther who dared to stand up to a corrupt pope to the surprising spread and growing vitality of today's church in Africa Asia and South America The Story of Christianity offers a complete and up to date retelling of this amazing history With new information on the important contributions of women to church history as well as the latest information on Christianity in developing countries Gonzalez's richly textured study discusses the changes and directions of the church up to the twenty first century The Story of Christianity covers such recent occurrences as the fall of the Soviet Union and the return of the Russian Orthodox Church feminist Africa American and Third World theologies the scandals and controversies facing the reign of Pope Benedict XVI interfaith dialogue and the movement toward unity of all Christian churches This revised and updated edition of The Story of Christianity concludes with a thoughtful look at the major issues and debates facing Christianity today Covering Muslims Erik Bleich, A. Maurits van der Veen, 2021 An examination of how American newspaper articles on Muslims are strikingly negative by any measure For decades scholars and observers have criticized negative media portrayals of Muslims and Islam Yet most of these critiques are limited by their focus on one specific location a limited time period or a single outlet In Covering Muslims Erik Bleich and A Maurits van der Veen present the first systematic large scale analysis of American newspaper coverage of Muslims through comparisons across groups time countries and topics The authors demonstrate conclusively that coverage of Muslims is remarkably negative by any measure They show that American newspapers have been consistently negative across the two decade period between 1996 and 2016 and that articles on Muslims are more negative than those touching on groups as diverse as Catholics Jews Hindus African Americans Latinos Mormons or atheists Strikingly even articles about mundane topics tend to be negative The authors suggest that media outlets both within and outside the United States may contribute to pervasive Islamophobia and they encourage readers and journalists to tone check the media rather than simply accepting negative associations with Muslims or other marginalized groups *I Am a Muslim: A Modern Storybook* Susan Douglass, 1995-01-01 This unit is built around a

set of paired stories one from the Qur'an or authentic traditions and one related modern story. The overall objectives are 1 to awaken the children's awareness of their identity and worth as Muslims 2 to model Islamic behavior patterns and 3 to cultivate a sense of identification and community with Muslims of long ago and in other parts of the modern world. While the unit is designed for kindergarten its stories and activities may be useful for values instruction throughout the primary grades in a variety of instructional settings including full time weekend and home schools. This unit emphasizing values education may also be useful in Muslim parenting classes. Each lesson consists of the story pair to be presented to the children orally or dramatically and suggested discussion guidelines and activities through which the values and related behaviors are developed and reinforced in the children's understanding. The 15 lessons are intended to implement teaching objectives in various units taught in a typical Islamic kindergarten social studies curriculum on a selective or exhaustive basis throughout the year.

The Story of Reason in Islam Sari Nusseibeh, 2016-11-09 In *The Story of Reason in Islam* leading public intellectual and political activist Sari Nusseibeh narrates a sweeping intellectual history a quest for knowledge inspired by the Qur'an and its language a quest that employed Reason in the service of Faith. Eschewing the conventional separation of Faith and Reason he takes a fresh look at why and how Islamic reasoning evolved over time. He surveys the different Islamic schools of thought and how they dealt with major philosophical issues showing that Reason pervaded all disciplines from philosophy and science to language poetry and law. Along the way the best known Muslim philosophers are introduced in a new light. Countering received chronologies in this story Reason reaches its zenith in the early seventeenth century it then trails off its demise as sudden as its appearance. Thereafter Reason loses out to passive belief lifeless logic and a self-contained legalism in other words to a less flexible Islam. Nusseibeh's speculations as to why this occurred focus on the fortunes and misfortunes of classical Arabic in the Islamic world. Change he suggests may only come from the revivification of language itself.

Buddhism and Islam on the Silk Road Johan Elverskog, 2011-06-06 In the contemporary world the meeting of Buddhism and Islam is most often imagined as one of violent confrontation Indeed the Taliban's destruction of the Bamiyan Buddhas in 2001 seemed not only to reenact the infamous Muslim destruction of Nalanda monastery in the thirteenth century but also to reaffirm the stereotypes of Buddhism as a peaceful rational philosophy and Islam as an inherently violent and irrational religion But if Buddhist Muslim history was simply repeated instances of Muslim militants attacking representations of the Buddha how had the Bamiyan Buddha statues survived thirteen hundred years of Muslim rule Buddhism and Islam on the Silk Road demonstrates that the history of Buddhist Muslim interaction is much richer and more complex than many assume This groundbreaking book covers Inner Asia from the eighth century through the Mongol empire and to the end of the Qing dynasty in the late nineteenth century By exploring the meetings between Buddhists and Muslims along the Silk Road from Iran to China over more than a millennium Johan Elverskog reveals that this long encounter was actually one of profound cross cultural exchange in which two religious traditions were not only enriched but transformed in many ways
