Storm Country A Journey Through The Heart Of America:

Storm Country Pete Davies,1992 **Storm Country** Pete Davies,1992 Welcome to the great Plains where tornadoes convert barns to matchsticks in seconds and generations of work can be destroyed in a single day Two years ago English novelist Pete Davies decided to search for the soul of America s heartland Storm Country is the result written with the same black humor that made his Last Election and Dollarville cult favorites Road-book America Rowland A. Sherrill,2000 Sketching the socially marginal ingenuous traveling characters common to both old and new versions Sherrill shows how the new American picaresque transforms the satirical aims of the original into an effort to map and catalog the immensity and variety of America BOOK JACKET **The Essential West** Elliott West,2012-11-09 Scholars and enthusiasts of western American history have praised Elliott West as a distinguished historian and an accomplished writer and this book proves them right on both counts Capitalizing on West s wide array of interests this collection of his essays touches on topics ranging from viruses and the telegraph to children bison and Larry McMurtry Drawing from the past three centuries West weaves the western story into that of the nation and the world beyond from Kansas and Montana to Haiti Africa and the court of Louis XV Divided into three sections the volume begins with conquest West is not the first historian to write about Lewis and Clark but he is the first to contrast their expedition with Mungo Park s contemporaneous journey in Africa The Lewis and Clark expedition West begins is one of the most overrated events in American history and one of the most revealing The humor of this insightful essay is a chief characteristic of the whole book which comprises ten chapters previously published in major journals and magazines but revised for this edition and four brand new ones West is well known for his writings about frontier family life especially the experiences of children at work and play Fans of his earlier books on these subjects will not be disappointed In a final section he looks at the West of myth and imagination in part to show that our fantasies about the West are worth studying precisely because they have been so at odds with the real West In essays on buffalo Jesse James and the McMurtry novel Lonesome Dove West directs his formidable powers to subjects that continue to shape our understanding and often our misunderstanding of the American West past and present **Gender, Genre, and Identity in Women's Travel Writing** Kristi Siegel,2004 Women experience and portray travel differently Gender matters irreducibly and complexly Building on recent scholarship in women s travel writing these provocative essays not only affirm the impact of gender but also cast women s journeys against coordinates such as race class culture religion economics politics and history The book s scope is unique Women travelers extend in time from Victorian memsahibs to contemporary road girls and topics range from Anna Leonowens s slanted portrayal of Siam later popularized in the movie The King and I to current feminist describing of the male road buddy genre The extensive array of writers examined includes Nancy Prince Frances Trollope Cameron Tuttle Lady Mary Montagu Catherine Oddie Kate Karko Frances Calder n de la Barca Rosamond Lawrence Zilpha Elaw Alexandra David N el Amelia Edwards Erica Lopez Paule Marshall Bharati Mukherjee and Marilynne Robinson

The Way to the West Elliott West,1995-10 Elegantly assembles the environmental social cultural political and economic history of the Great Plains in the 19th century **Travel Writing and Empire** Steven H. Clark,1999 Travel writing has become central to postcolonial studies This book provides an introduction to the genre particularly to its dynamics of power and representation and the degree to which it has promoted ideologies of empire The book combines detailed evaluations of major contemporary models of analysis new historicism travelling theory and post colonial studies with a series of specific studies detailing the complicity of the genre with a history of violent incursion from Columbus reports from the New World through to the nomadism of postmodern travelogue Among its particular areas of concern are Othering discourses of cannibalism and infanticide the production of colonial knowledge geographic medicinal zoological the role of sexual anxiety in the construction of the gendered travelling body the interplay between imperial and domestic spheres reappropriation of alien discourse by indigenous cultures Post colonial studies has concentrated on travellers as conduits of erasure and appropriation This book resists the temptation to think in terms of a simple monolithic Eurocentrism and offers a more complex reading of texts produced before during and after periods of imperial ascendancy In doing so it provides a more nuanced account of the hegemonic functions of travel writing As such it is necessary reading for students and academics of cultural studies literary theory anthropology and history **Ghosts in the Machine** Michael Atkinson,1999 Limelight
