*Passages: Cape Horn and Beyond* Lin Pardey, 2024-10-01 Join Lin as she shares challenging sailing gentle voyages the shoreside encounters that await once you venture into the world of cruising under sail Far more than just a sailing adventure this book is also a true memoir As she and Larry sailed north from Cape Horn to Canada then westward across the Pacific they had to weather the emotional passages that come with growing older Lin chronicles the last years she shared with Larry the solo adventure that followed and eventually the romance and challenge of building a new life and voyaging onward with a different partner after David sailed in to anchor near her island home *Passages Cape Horn and Beyond* will appeal to sailors of all generations as Lin pours her heart out to tell tales of sailing through gales and calms adventures small and large It is a love story of sailing of the sea and of the two men who have shared Lin's life

*Sailing in Newfoundland and to the Azores* Neil Bose, 2013-02 This is a book of days and moments spent sailing on the east coast of Newfoundland and over the Atlantic to the Azores Newfoundland is a beautiful cruising ground one of the best in the world for a short period of the year in July and August perhaps from late June Optimistically and romantically the Bay of Exploits has been called the Caribbean of the north Many cruising days in summer start from calm in the morning develop into a strong wind in the afternoon sometimes as much as 25-30 knots and drop to a peaceful calm again at the moorings in the evening It can be sunny and warm throughout The effect is exaggerated by starting and ending at a really sheltered anchorage of which there are many on the coast The book has some factual information on anchorages and passages but this should be used with the usual caution of any cruising information Newfoundland has a rugged coast for those who like to be self-sufficient and it suits the cruising sailor who does not expect to find a shop chandlery or restaurant in every harbour There are places where one can sail for several weeks without seeing another sailing boat

**Finding Pax** Kaci Cronkhite, 2018-09-18 The boat appeared when I didn't expect or frankly need her My bucket list was empty Life was full But sailing towards me was a boat that would stir the waters waking decades of loss revealing history untold and restoring a legacy that was lost in the wind For her and for me I had to wade into that water I had to go to search to find Having fallen hopelessly in love with a 1930s Danish spidsgatter a beautifully constructed 25 ft wooden double ender Kaci embarks on an international search to unravel the mystery of the boat's past and discovers the many lives Pax touched since she first hit the water in 1936 Kaci Cronkhite's seven year search for Pax's history is an elegant little gem taking the reader aboard not only for sublime wind-filled sails but also to eavesdrop the conversations and relationships that are built as she learns more about Pax's past whilst hugely enjoying her present *Finding Pax* is a story of discovery and reconnection like no

other The writing is poetic spare and full of wisdom In sailing in weather in life and death answers are not endings and questions are not to be feared The unknowns keep us moving forward      Cruising in Seraffyn Lin Pardey, Larry Pardey, 2002-08 A fun and exciting guide to the world of living out at sea This book will teach you what you need to know in order to live safely economically and cheaply when spending months at sea If nothing else this book will send you chasing for your dreams whether it be to take an adventure at sea or just about anything else This is the first of a four book series which begins on the journey that Lin and Larry Pardey began 34 years ago in their self built 24 foot engineless cutter Seraffyn In this journey we explore places such as Mexico Central America the Caribbean and the Islands of the Atlantic ocean Throughout the book we learn about people and customs we learn about the tricks of boating we learn about survival This 25th anniversary edition includes a new forward new appendixes and a color photo album showing Lin Larry and the Seraffyn during those months at sea      *Dying to Learn* Michael A. Hunzeker, 2021-07-15 In *Dying to Learn* Michael Hunzeker develops a novel theory to explain how wartime militaries learn He focuses on the Western Front which witnessed three great power armies struggle to cope with deadlock throughout the First World War as the British French and German armies all pursued the same solutions assault tactics combined arms and elastic defense in depth By the end of the war only the German army managed to develop and implement a set of revolutionary offensive defensive and combined arms doctrines that in hindsight represented the best way to fight Hunzeker identifies three organizational variables that determine how fighting militaries generate new ideas distinguish good ones from bad ones and implement the best of them across the entire organization These factors are the degree to which leadership delegates authority on the battlefield how effectively the organization retains control over soldier and officer training and whether or not the military possesses an independent doctrinal assessment mechanism Through careful study of the British French and German experiences in the First World War *Dying to Learn* provides a model that shows how a resolute focus on analysis command and training can help prepare modern militaries for adapting amidst high intensity warfare in an age of revolutionary technological change      **Seraffyn's European Adventure** Lin and Larry Pardey, 1998 This second book in the Seraffyn cruising series begins with their arrival on the southwest coast of England where they coasted eastward stopping where fancy held them where good friends were made to winter at Poole and work to pay for the next leg of their voyage toward the Baltic Denmark Sweden Finland were full of welcoming and interesting people and an almost invisible bureaucracy But things were definitely different when they reached Poland where armed guards watched while the people greeted them with flowers fruits and sweets Their foray behind the Iron Curtain of the 1970 s introduced them to some of the people who lead the Solidarity Movement the force that eventually toppled the Soviet Union You'll be right on board as they weather a fierce mast under broach in a Baltic gale and through the wintry North Seas Here is a feast for the fantasies of stay at homes and a warm account of just two years of the lives of two people who have lived in a wide adventurous world for more than four decades Their motto Go Small Go Simple

Go Now has encouraged thousands of other sailors to take the plunge And this book is an entertaining instruction manual on how to live a rich life on very little money Lin Pardey has in her deceptively simple and fresh faced style told the story of an unusual and appealing marriage partnership a speical way of life Yachtsmen will enjoy the technical description of the problems of maneuvering in the tight harbours and unmapped channels the perils of heavy seas in a small boat But what is remarkable is that she can draw a nonsailor into these special subjects and make them as comprehensible and absorbing to a landlubber as they would be to someone about to set out on the same itinerary in a small boat of his own R Sokolov NewYork Times Book Review
