The War Against Japan, 1941-1945 John J. Sbrega, 2015-06-12 With over 5 200 entries this volume remains one of the most extensive annotated bibliographies on the USA s fight against Japan in the Second World War Including books articles and de classified documents up to the end of 1987 the book is organized into six categories Part 1 presents reference works including encyclopedias pictorial accounts military histories East Asian histories hisotoriographies Part 2 covers diplomatic political aspects of the war against Japan Part 3 contains sources on the economic and legal aspects of the war against Japan Part 4 presents sources on the military apsects of the war embracing land air and sea forces Religious aspects of the war are covered in Part 5 and Part 6 deals with the social and cultural aspects including substantial sections on the treatment of Japanese minorities in the USA Hawaii Canada and Peru **Storms over the Mekong** William Pace Head, 2020-04-30 From the defeat of the Army of the Republic of Vietnam at Ap Bac to the battles of the Ia Drang Valley Khe Sanh and more Storms over the Mekong offers a reassessment of key turning points in the Vietnam War Award winning historian William P Head not only reexamines these pivotal battles but also provides a new interpretation on the course of the war in Southeast Asia In considering Operation Rolling Thunder for example which Head dubs as too much rolling and not enough thunder readers will grasp the full scope of the campaign from specifically targeted bridges in North Vietnam to the challenges of measuring success or failure the domestic political situation and how over time Head argues slowly but surely Rolling Thunder dug itself into a hole Likewise Head shows how the battles for Saigon and Hue during the Tet Offensive of 1968 were tactical defeats for the Communist forces with as many as 40 000 killed and no real gains At the same time however Tet made it clear to many in Washington that victory in Vietnam would require a still greater commitment of men and resources far more than the American people were willing to invest Storms over the Mekong is a blow by blow account of the key military events to be sure But beyond that it is also a measured reconsideration of the battles and moments that Americans thought they already knew adding up to a new history of the Vietnam War Tales From a Tin Can Michael Olson, 2010-06-12 What was life like on a destroyer during World War II Find out by reading Michael Keith Olson s superb telling of tales of the war in the Pacific as seen from the deck of a very luck tin can The son of a former Dale crewman Olson interviewed 44 veterans and delved

deeply into official documents to give this book the air of authenticity that puts the reader in the heart of the action Tales from a Tin Can is the first oral history of one combat ship s adventures sometimes comic sometimes mundane sometimes heart wrenching over the entire course of America s involvement in the Pacific An impressive accomplishment and highly recommended WWII History This fascinating book captures not only the furious clashes with the Japanese but also the humdrum days in between and the heart stopping encounters with typhoons that could be as lethal as any engagement with the enemy Anyone interested in stories from World War II will find this well illustrated account of the naval campaign in the Pacific fascinating Register Pajaronian Looking up from his newspaper from where he sat on the deck of the destroyer USS Dale Harold Reichert could see the pilot plain as day the leather helmet with chin strap the goggles and then the red rising sun painted on the planes fuselage I saw the torpedo drop and watched as it ran up on the old Utah It was daybreak at Pearl Harbor on December 7 1941 the beginning of the war and the Dale was there she would serve until the end when the atomic bombs were dropped and Japan surrendered In the words of those who manned her the Dales war comes vividly to life in this first oral history of a combat ship from Pearl Harbor to Tokyo Bay From carrier raids on Midway Guadalcanal and the Solomons to the bombarding of Saipan and Guam in the capture of the Marianas from the Aleutians in the far north to strikes on Tokyo and Kobe Tales from a Tin Can recreates the action aboard the Dale and conveys as never before the true grit of wartime on a destroyer

Battling the Elements Harold A. Winters, 2020-04-21 Throughout history from Kublai Khan s attempted

invasions of Japan to Rommel's desert warfare military operations have succeeded or failed on the ability of commanders to incorporate environmental conditions into their tactics In *Battling the Elements* geographer Harold A Winters and former U S Army officers Gerald E Galloway Jr William J Reynolds and David W Rhyne examine the connections between major battles in world history and their geographic components revealing what role factors such as weather climate terrain soil and vegetation have played in combat Each chapter offers a detailed and engaging explanation of a specific environmental factor and then looks at several battles that highlight its effects on military operations As this cogent analysis of geography and war makes clear those who know more about the shape nature and variability of battleground conditions will always have a better understanding of the nature of combat and at least one significant advantage over a less knowledgeable enemy *Air University Review* ,1983-05 *The Invasion Before Normandy* Edwin P. Hoyt,1999-08-29 A chronicle of one of WWII's most dramatic and secret operations **U.S. Army Divisions of the Pacific War** Stephen R. Taaffe,2024-08-14 A new narrative and analytic history of the twenty U S Army divisions that fought in the Pacific War Despite the prevailing view that the Marine Corps bore the brunt of the fighting in the Pacific War the men of the US Army played a decisive role in the conflict Indeed GIs did most of the war's heavy lifting on the ground by conducting more amphibious assaults and prosecuting more operations than the Marines By the end of the war there were 1 77 million U S Army troops in the Pacific and Asia compared to the USMC's 484 000 The Pacific was as much the Army's war as the fighting in the European theater The U S Army deployed twenty combat divisions to fight in the Pacific including famous ones such as the 1st Cavalry Division and the 25th Tropic Lightning Division Most were infantry and included Regular National Guard and draftee divisions The divisions were deployed and maneuvered by theater field army and corps commanders around the Pacific's geostrategic chessboard to battle and defeat the Japanese The Army may have wanted its divisions to be interchangeable and uniform but this proved impossible Their quality and performance depended upon their resources the geography and terrain on which they fought experience leadership and organizational culture Historians though have made little effort to examine their records in a systematic way before now In addition almost all of the Army's divisions some after admittedly rocky starts became units capable of winning their engagements Indeed not a single Army division fighting the Japanese during the American counteroffensive across the Pacific was completely destroyed in combat Whatever problems these divisions faced tended to grow out of the society that produced them not fundamental flaws in Army doctrine This is a tribute to the Army as a whole and to the twenty divisions that the Army deployed against the Japanese This new history uses a narrative approach to describe and analyze each division's history characteristics and battles during the conflict concluding with an assessment of their battlefield records taking into account the innumerable factors affecting their combat performance **A Bibliography of Military Geography** Eugene J. Palka,1988 This four volume document is designed to enhance scholarly research in the area of military geography and to serve as a reference tool It is anticipated that this will meet the research needs of

professors and students of military science geography and history along with members of the Armed Forces government officials and planners This bibliography is organized following the accepted scheme for military geography utilizing three main categories systematic topical and regional Volume I is a complete alphabetized list Volume II is organized systematically Volume III is organized topically and Volume IV collects regional sources **Pacific Basin and Oceania**
