**Hurricane Almanac** Bryan Norcross, 2007-05-29 Essential Information from CBS News Hurricane Analyst Bryan Norcross's pioneering and courageous TV coverage of Hurricane Andrew in 1992 helped millions of people in Florida cope with the killer storm This revised and updated version of last year's popular almanac adds detailed stories of the powerful hurricanes of the past that would be catastrophes if they happened today and explores how explosive coastal development during a time of relatively few hurricanes has set the stage for mega disasters If hurricanes make landfall today at the rate they did in much of the twentieth century how could we prevent the unimaginable destruction A new section will also help you better understand hurricane advisories Bryan Norcross's Hurricane Almanac is two books in one The first half is hurricane science history and perspectives on how we as a society deal with hurricanes The second half is a personal guide to Living Successfully in the Hurricane Zone In addition to reviewing and explaining the relatively mild 2006 hurricane season it looks forward to hurricane seasons to come highlights the fascinating history of hurricanes interacting with civilization and details our rapidly increasing ability but still with limitations to predict the severity and tracks of storms With preparation checklists and shopping lists an easy to understand guide to the technical information coming from the National Hurricane Center and critical practical information Hurricane Almanac is your essential guide to coping with Mother Nature's greatest storms A provocative chapter entitled How I'd Do It Better details Norcross's ideas for a better hurricane system Family Communications Evacuation Decision making Staying in a House Staying in an Apartment Shutters Hurricane proof Windows Backup Power Generators Computer Hurricane Plan Post storm Air Conditioning Candles Pool Preparation Pets Boats Cars and Businesses Insurance

[Sea of Storms](#) Stuart B. Schwartz, 2015-01-18 A panoramic social history of hurricanes in the Caribbean The diverse cultures of the Caribbean have been shaped as much by hurricanes as they have by diplomacy commerce or the legacy of colonial rule In this panoramic work of social history Stuart Schwartz examines how Caribbean societies have responded to the dangers of hurricanes and how these destructive storms have influenced the region's history from the rise of plantations to slavery and its abolition to migrations racial conflict and war Taking readers from the voyages of Columbus to the devastation of Hurricane Katrina Schwartz looks at the ethical political and economic challenges that hurricanes posed to the Caribbean's indigenous populations and the different European peoples who ventured to the New World to exploit its riches He describes how the United States provided the model for responding to environmental threats when it emerged as a major power and began to exert its influence over the Caribbean in the nineteenth century and how the region's governments came to assume greater responsibilities for prevention and relief efforts that by the end of the twentieth century were being questioned by free market neoliberals Schwartz sheds light

on catastrophes like Katrina by framing them within a long and contentious history of human interaction with the natural world Spanning more than five centuries and drawing on extensive archival research in Europe and the Americas *Sea of Storms* emphasizes the continuing role of race social inequality and economic ideology in the shaping of our responses to natural disaster Some images inside the book are unavailable due to digital copyright restrictions
