The Caro-Kann In Black White:

The Caro-Kann! Anatolij Evgen'evič Karpov, Oleksandr Genrikovič Biljavskyj, Ron Henley, 1994 *Bologan's Caro-Kann* Victor Bologan, 2018-06-20 The Caro Kann is one of the most important and popular responses to 1 e4 World champions Botvinnik Petrosian Karpov and Anand have played this reliable chess opening in many of their games Present day elite players such as Hikaru Nakamura and Fabiano Caruana are proving that the drawish reputation of the Caro Kann no longer holds in modern chess Victor Bologan presents a complete Caro Kann repertoire for Black that is much more than just a lucidly explained and highly playable set of responses In many lines Bologan provides as he has done in his other recent major chess opening books for New In Chess two options to handle the Black position Bologan s explanations are accessible for a wide range of players and he provides the reader with a thorough grounding in the strategic and tactical motifs During his research Bologan has found many new ideas and resources After reading and studying this book you are bound win many exciting games with Bologan s Caro Kann **The Extreme Caro-Kann** Alexey Bezgodov, 2014-08-01 Alexey Bezgodov presents an unusual idea for White against the ever popular Caro Kann Defence The Russian Grandmaster and chess opening expert advocates a very early deviation the annoying and little explored 3 f3 This move may look unimpressive at first sight but it considerably complicates life for Caro Kann players as it makes Black s main problem bigger the development of his bishop on c8 Small wonder that an increasing number of strong grandmasters such as Vassily Ivanchuk Alexander Morozevich and Judit Polgar have incorporated this move in their repertoire After 3 f3 the bishop on c8 has nowhere to go and Black will often struggle to avoid enduring problems White s chances to obtain an advantage are substantial as Bezgodov shows in this fascinating new chapter in modern chess opening theory packed with original analysis and clear explanations

Kaufman's New Repertoire for Black and White Larry Kaufmann, 2019-10-29 Seven years after his acclaimed and bestselling *The Kaufman Repertoire for Black and White* Grandmaster Larry Kaufman is back with his new repertoire book covering the entire scope of chess openings in one volume Two important developments made this new book necessary Larry Kaufman who routinely himself plays the lines he advocates to others discovered that after 1 d4 the recommendation in his previous book it became nearly impossible to show a consistent advantage for White especially against the Gruenfeld and the Nimzo Ragozin defenses The other factor was that chess engines have become so much stronger in recent years Komodo the top chess engine that computer expert Kaufman helped develop is now able to apply the celebrated Monte Carlo Tree Search algorithm With Komodo MCTS it is now possible to abandon lines that may be theoretically best against other computers and instead choose lines that are likely to succeed in actual practice against strong human opponents Larry Kaufman presents a completely new White repertoire with 1 e4 aiming for an objective advantage in the simplest practical manner You are presented with two options while you don't have to play the sharpest lines The Black repertoire has been thoroughly revised and updated with some crucial chapters replaced Kaufman's *New Repertoire for Black and White* is the first opening book that is primarily based on Monte Carlo search The highly original analysis has resulted in many improvements on existing theory This is a ready to go and easy to digest repertoire with sound practical lines that do not outdate rapidly and are suitable for masters while accessible for amateurs

Soszynski, Jerzy Konikowski, 2018-02-28 The Queenside Fianchetto Factor In the first full book to examine 2 b3 against the Sicilian French and Caro Kann mainlines interesting sidelines and current theory are reviewed In addition what actually happens in modern practice is surveyed The authors are optimistic for White and concentrate on the best continuations while trying to be objective It is in that spirit that they conclude that 2 b3 is sound against the Sicilian fun against the French and curious against the Caro Kann In all three cases the objective is to sabotage Black's play to take him out of his comfort zone The word sabotage has historically derived from throwing a clog into machinery or in other words throwing a monkey wrench in the works here the wrench is a queenside fianchetto White aims his light square bishop toward the right flank he typically delays Ng1 f3 so that he may play Qd1 f3 or advance his f pawn and use his light square bishop to build a full scale kingside

attack Queenside castling often occurs hoping for a kingside pawn storm Yet despite all these characteristics of 2 b3 White may still retains the option of d2 d4 for a more conventional looking 1 e4 opening With 2 b3 you will have one more arrow in your theoretical quiver to battle Black And like it or not Black will be compelled to do deal with the queenside fianchetto factor
