neighbors The book throws a great deal of light not only on the post 1967 period but also on the problems and pitfalls of peacemaking in the Middle East today *Hollow Land: Israel's Architecture of Occupation* Eyal Weizman, 2012-08-07

Acclaimed exploration of the political space created by Israel's colonial occupation In this journey from the deep subterranean spaces of the West Bank and Gaza to their militarized airspace Eyal Weizman unravels Israel's mechanisms of control and the transformation of the Occupied Territories into an artifice in which all natural and built features function as the instruments of occupation Weizman identifies the ideas behind this phenomenon and traces their development from the influence of archaeology on urban planning Ariel Sharon's reconceptualization of military defense during the 1973 war through the planning and architecture of the settlements to the contemporary Israeli discourse and practice of urban warfare and airborne targeted assassinations In exploring Israel's methods to transform the landscape and the built environment themselves into tools of domination and control *Hollow Land* lays bare the political system at the heart of this complex and terrifying project of late modern colonial occupation **Hollow Land** Eyal Weizman, 2012-08-07

Acclaimed exploration of the political space created by Israel's colonial occupation This new edition of the classic work on the politics of architecture and the architecture of politics appears on the fiftieth anniversary of the Six Day War which expanded Israel's domination over Palestinian lands From the tunnels of Gaza to the militarized airspace of the Occupied Territories Eyal Weizman unravels Israel's mechanisms of control and its transformation of Palestinian homes into a war zone under constant surveillance This is essential reading for those seeking to understand how architecture and infrastructure are used as lethal weapons in the formation of Israel *Drawing Fire* Benjamin Pogrund, 2014-07-10

Benjamin Pogrund who spent 26 years as a journalist in South Africa investigating apartheid and who has been living in Israel for the past 15 years investigates the accusation that Israel is practicing apartheid and the motives of those who make it His study is founded on a belief in Israel combined with frank criticism to provide a balanced view of Israel's strengths and problems To understand Israel today one must first look at the past and so the book first outlines key foundational events to explain current attitudes It then explores the contradictions found in the region including discrimination against Israeli Arabs and among Jews before concluding that it is wrong to affix the apartheid label to Israel inside the Green Line of 1948 1967 It also deconstructs the criticisms of Israel and the boycott movement before arguing for two states Israeli and Palestinian as the only way forward for Jews and Arabs This detailed and balanced study offers a unique comparison between South Africa and Israel and explains complex political and social situations in language accessible to all readers *Subject Guide to Books in Print*, 1996 *Who's who in Asia and the Pacific Nations* Benjamin Kay, Cara Bootman, 1999
