The Death Penalty and Sex Murder in Canadian History Carolyn Strange, 2020-10-01 From Confederation to the partial abolition of the death penalty a century later defendants convicted of sexually motivated killings and sexually violent homicides in Canada were more likely than any other condemned criminals to be executed for their crimes Despite the emergence of psychiatric expertise in criminal trials moral disgust and anger proved more potent in courtrooms the public mind and the hearts of the bureaucrats and politicians responsible for determining the outcome of capital cases Wherever death has been set as the ultimate criminal penalty the poor minority groups and stigmatized peoples have been more likely to be accused convicted and executed Although the vast majority of convicted sex killers were white Canada's racist notions of the Indian mind meant that Indigenous defendants faced the presumption of guilt Black defendants were also subjected to discriminatory treatment including near lynchings In debates about capital punishment abolitionists expressed concern that prejudices and poverty created the prospect of wrongful convictions Unique in the ways it reveals the emotional drivers of capital punishment in delivering inequitable outcomes *The Death Penalty and Sex Murder in Canadian History* provides a thorough overview of sex murder and the death

died in the sinking of the RMS Titanic **The Thinking Machine** Jacques Futrelle, 2014-08-26 For the world's most brilliant criminologist every mystery has a solution His name is Professor Augustus S F X Van Dusen but to the newspapers he is known as The Thinking Machine Slender stooped his appearance dominated by his large forehead and perpetual squint Van Dusen spends his days in the laboratory and his nights puzzling over the details of extraordinary crimes What seems beyond comprehension to the police is mere amusement to the professor All things that start must go somewhere he firmly believes and with the application of logic all problems can be solved Whether unraveling a perfect murder investigating a case of corporate espionage or reasoning his way out of an inescapable prison cell Van Dusen lets no detail elude his brilliant mind In this highly entertaining collection featuring many of the stories that made The Thinking Machine a national sensation ingenious criminals and ruthless villains are no match for an egghead scientist This ebook has been professionally proofread to ensure accuracy and readability on all devices **The Case and the Canon** Alessandra Calanchi, Gastone

Castellani, Gabriella Morisco, Giorgio Turchetti, 2011 The concept of a constant reformulation of the canon due to the notion of singularity or irreducibility of the case can be applied in both scientific and literary fields In this volume dynamics of interconnections between the case and the canon are analysed by scholars belonging to different disciplines such as physics medicine biology psychoanalysis and literature Particular attention has been given to the science of detection since the techniques of investigation are based on the scientific acquisition of evidence and often imply a scientific abductive process The book is divided into two sections Part I concentrates mainly on literary contributions and psychological issues while part II concentrates on scientific enquiries The contributions have been selected according to two main guidelines The first covers anomalies discontinuities metaphors between science and literature The second focus lies on the case in crime fiction The scientist as detective and the detective as scientist How Sherlock Holmes Deduced "Break The Case Clues" On The BTK Killer, The Son of Sam, Unabomber and Anthrax Cases Tom Walker, 2012-06 This is not fiction This is the true story of how a former New York City Police Captain of Detectives used his extensive knowledge of the deductive methods of Sherlock Holmes to provide the FBI and other agencies with break the case clues to some of the most baffling and horrific criminal cases of the last half century Not only does the author provide break the case clues to The Unabomber BTK Killer and Son of Sam cases but on the Anthrax Killer case he has uncovered a secret code one not found by the FBI which will re open the debate on the FBI's closing of the case as solved If you love detective stories be they true or fiction or a true crime deductive challenge you shouldn't miss this fascinating journey with the author and the World's Greatest Detective Sherlock Holmes

The Binding of Isaac, Religious Murders & Kabbalah Lippman Bodoff, 2005 In a series of evocative groundbreaking articles the author analyzes the Biblical and Rabbinic basis for what surely are now some of the most hotly debated topics in Jewish religious thought today These include how the traditional interpretation of the Binding of Isaac has been misapplied in both Christian theology and Jewish martyrology and how the centuries long and newly resurgent belief in mysticism and

messianism in kabbalah and Hasidism has distorted classical Judaism and thwarted its national and cultural development The author counters the arguments of those who see Judaism s and the world s newfound obsession with mysticism and kabbalah as a natural outgrowth of a progressive trend within rabbinic Judaism and warns of the impending danger of rejecting the very core of Jewish thought and opinion as it was expounded in the Torah and classical Jewish tradition the Oral Law Each section of this magnificent work will give the reader new insights into how different aspects of Judaism have evolved and why they have often been in contention with each other Nor is he afraid to deal with some of the supercharged issues within Judaism such as what are the underlying premises of Jewry s claim to the Divinely Promised Land And has this claim been affected by its failure to pursue an active program of nationalism These highly acclaimed articles have been gleaned from today s leading Jewish journals and have stood the test of time They contain valuable source material and are a ready reference to the many historical and religious topics that are the focus of discussion across all main Jewish denominations

Methods of Murder Elena M. Past, 2012-03-13 The first extended analysis of the relationship between Italian criminology and crime fiction in English *Methods of Murder* examines works by major authors both popular such as Gianrico Carofiglio and canonical such as Carlo Emilio Gadda Many scholars have argued that detective fiction did not exist in Italy until 1929 and that the genre which was considered largely Anglo Saxon was irrelevant on the Italian peninsula By contrast Past traces the roots of the twentieth century literature and cinema of crime to two much earlier diverging interpretations of the criminal the bodiless figure of Cesare Beccaria's Enlightenment era *On Crimes and Punishments* and the biological offender of Cesare Lombroso's positivist *Criminal Man* Through her examinations of these texts Past demonstrates the links between literary philosophical and scientific constructions of the criminal and provides the basis for an important reconceptualization of Italian crime fiction **Logical Investigative Methods** Robert J.
