Coney,2013-04-23 Millennia ago Starquin visited the Solar System Because he is huge some say bigger than the Solar System itself he could not set foot on Earth personally yet events here were beginning to interest him and he wanted to observe more closely So he sent down extensions of himself creatures fashioned after Earth s dominant life form In one of Earth s languages they became known as Dedos or Fingers of Starquin Disguised they mingled with Mankind We know this now here at the end of Earth s time The information is all held in Earth s great computer the Rainbow The Rainbow will endure as long as Earth exists watching listening recording and thinking I am an extension of the Rainbow just as the Dedos are extensions of Starquin My name is Alan Blue Cloud It is possible you cannot see me but are aware of me only as a voice speaking to you from a desolate hillside telling you tales from the Song of Earth I can see you the motley remains of the human race however You sit there with our clubs and you chew your roots entranced and half disbelieving as I sing the Song and in our faces are signs of the work of your great geneticist Mordecai N Whirst Catlike eyes here broad muzzles there all the genes of Earth s life expertly blended each having its purpose Strong people adapted people people who survived The story I will tell is about people who were not so strong It is perhaps the most famous in the whole Song of Earth and it tells of three simple human beings involved in a quest who unwittingly became involved in much greater events concerning the almighty Starquin himself It is a story of heroism and love and it ends in triumph and it will remind the humans among you of the greatness that was once yours **The Ultimate Guide to Science Fiction** David Pringle,1990 **St. James Guide to Science Fiction Writers** Jay P. Coney,2013-05-20 Once there was a Hero who confronted the dreaded Daggertooth and slew it Unfortunately he was also slain by it but the legend persisted If it could be done once then another Hero could be raised to do it again Because the Daggertooth was dangerous to hibernating humanity All people all that anyone knew of lived far underground in tunnels built for safety and hibernation The Daggertooth was a mass killer more so even than the hideous Oddlies the outcasts of the darker tunnels So this is the story of John A the vatkid who was trained to be a second Hero And the story of trukid Shirl who taught John A what to do And Threesum the Oddlies leader who scoffed at heroes And the Elders who frowned at all the risky goings on This is the story of a mighty strange

world and a mighty strange future      **Syzygy** Michael G.
