The Central Moluccas Katrien Polman, 1983      *Annotated Bibliography of Bibliographies on Indonesia* H. Kemp, 2024-09-16      The Revolt of Prince Nuku Muridan Satrio Widjojo, 2009 During the period of the Dutch East India Company's rule of the Spice Islands Prince Nuku of Tidore stands out as the local hero who opposed the VOC's oppressive trade monopoly. This study analyzes how he succeeded in regaining independence for the Sultanate of Tidore by creating an alliance with the English and his Malukan and Papuan adherents.

**Historical Dictionary of Indonesia** Audrey Kahin, 2015-10-29 A wide flung archipelago lying between the Pacific and Indian Oceans Indonesia is the world's most populous Islamic country. For over two thousand years it was a crossroads on the major trading route between China and India but it was not brought together into a single entity until the Dutch extended their rule throughout the Netherlands East Indies in the early part of the 20th century. Declaring its independence from the Dutch in 1945 the Republic of Indonesia was ruled by only two regimes over the next half century. Throughout the years the country has continued to be dogged by an inefficient bureaucracy and by perpetual problems of corruption. However since 2004 Indonesia has successfully carried out four direct elections for president together with an equal number of elections for legislative bodies at all levels of government and has finally in 2014 elected a president with no ties to either the military or to the previous authoritarian power structure. This third edition of *Historical Dictionary of Indonesia* contains a chronology, an introductory essay, appendixes and an extensive bibliography. The dictionary section has over 900 cross-referenced entries on important personalities, politics, economy, foreign relations, religion, and culture. This book is an excellent access point for students, researchers, and anyone wanting to know more about Indonesia.

**The Cambridge History of Southeast Asia: Volume 2, The Nineteenth and Twentieth Centuries** Nicholas Tarling, 1992 Southeast Asia has long been seen as a unity although other terms have been used to describe it: Further India, Little China, the Nanyang. The region has had a protracted maritime history. Confucianism, Buddhism, Islam, Hinduism, Christianity are all represented. It has seen a quintet of colonial powers: Britain, France, The Netherlands, Spain, the United States. Most recently it has become one of the fastest growing parts of the world economy. The very term Southeast Asia is clearly more than a geographical expression. *The Cambridge History of Southeast Asia* is a multi-authored treatment of the whole of mainland and island Southeast Asia from Burma to Indonesia. Unlike other histories of the region it is not divided on a country-by-country basis and is not structured purely chronologically but rather takes a thematic and regional approach to Southeast Asia's history. This volume, the second and final in the series, takes us into the nineteenth and twentieth centuries from the late eighteenth century of the Christian era when most of the region was incorporated into European empires to the complexity and dramatic change of the post-World War II period. It covers the economic and social life as well as the religious and popular culture of the region as they develop over two centuries. The political structures of the region are also closely examined from the insurgencies and rebellions of early this century to the modern Nationalist

movements which challenged the control of the colonial powers and led to the formation of independent states Under the editorship of Nicholas Tarling Professor of History at the University of Auckland New Zealand each chapter is well integrated into the whole Professor Tarling has assembled a highly respected team of international scholars who have presented the latest historical research on the region and succeeded in producing a provocative and exciting account of the region s history
