R. Bowker, 1988 *The Reading of Theoretical Texts* Peter Ekegren, 2002-01-04 Since the structuralist debates of the 1970s the field of textual analysis has largely remained the preserve of literary theorists Social scientists while accepting that observation is theory laden have tended to take the meaning of texts as given and to explain differences of interpretation either in terms of ignorance or bias In this important contribution to methodological debate Peter Ekegren uses developments within literary criticism philosophy and critical theory to reclaim this study for the social sciences and to illuminate the ways in which different readings of a single text are created and defended **National Union Catalog** ,1980 Includes entries for maps and atlases *Paperbound Books in Print* ,1992 *Texas Politics Today* William Earl Maxwell, Ernest Crain, Edwin S. Davis, Elizabeth N. Flores, Joseph Ignagni, 2005-06 TEXAS POLITICS TODAY continues to be a best selling overview of Texas Politics because it offers students a wide range of viewpoints drawing on the diverse political and social perspectives of its contributing authors to give students rich nuanced insight into the political system and decision making processes of the Lone Star State Current issues and candid analysis of government increase student awareness of the real effects of state policy on their lives and encourage them to get politically involved *Books in Print Supplement* ,1994

rigorously tested NCLB aligned instructional model for improving reading in all content areas Designed primarily for middle and high school teachers of English science math and social studies this book will also be a valuable resource for middle and high school principals literacy coaches and content curriculum specialists **Annual Catalogue of Baylor University at Waco, Texas** Baylor University, 1907 **Reading Empirical Research Studies** John R. Hayes, Richard E. Young, Michele L. Matchett, Maggie McCaffrey, Cynthia Cochran, 2020-10-07 For the most part those who teach writing and administer writing programs do not conduct research on writing Perhaps more significantly they do not often read the research done by others because effective reading of articles on empirical research requires special knowledge and abilities By and large those responsible for maintaining and improving writing instruction cannot without further training access work that could help them carry out their responsibilities more effectively This book is designed as a text in graduate programs that offer instruction in rhetoric and composition Its primary educational purposes are to provide models and critical methods designed to improve the reading of scientific discourse to provide models of effective research designs and projects appropriate to those learning to do empirical research in rhetoric Aiming to cultivate new attitudes toward empirical research this volume encourages an appreciation of the rhetorical tradition that informs the production and critical reading of empirical studies The book should also reinforce a slowly growing realization in English studies that empirical methods are not inherently alien to the humanities rather that methods extend the power of humanist researchers trying to solve the problems of their discipline Law Books, 1876-1981 R.R. Bowker Company, 1981 **The Cumulative Book Index**, 1928 A world list of books in the English language Feminist Translation Studies Olga Castro, Emek Ergun, 2017-02-17 Feminist Translation Studies Local and Transnational Perspectives situates feminist translation as political activism Chapters highlight the multiple agendas and visions of feminist translation and the different political voices and cultural heritages through which it speaks across times and places addressing the question of how both literary and nonliterary discourses migrate and contribute to local and transnational processes of feminist knowledge building and political activism This collection does not pursue a narrow fixed definition of feminism that is based solely on Eurocentric or West centric gender politics rather Feminist Translation Studies Local and Transnational Perspectives seeks to expand our understanding of feminist action not only to include feminist translation as resistance against multiple forms of domination but also to rethink feminist translation through feminist theories and practices developed in different geohistorical and disciplinary contexts In so doing the collection expands the geopolitical sociocultural and historical scope of the field from different disciplinary perspectives pointing towards a more transnational interdisciplinary and overtly political conceptualization of translation studies
