ethnography that makes visible the many layers through which our understandings of indigenous cultures are filtered and their inherent power to distort and refract understanding The book focuses in detail on the clothing practices of the Ember in Panama an Amerindian ethnic group who have gained national and international visibility through their engagement with indigenous tourism The very act of gaining visibility while wearing indigenous attire has encouraged among some Ember communities a closer identification with an indigenous identity and a more confident representational awareness The clothes that the Ember wear are not simply used to convey messages but also become constitutive of their intended messages By wearing indigenous and modern clothes the Ember who are often seen by outsiders as shadows of a vanishing world reclaim their place as citizens of a contemporary nation Through reflexive engagement Exoticisation undressed exposes the workings of ethnographic nostalgia and the Western guest for a singular primordial authenticity unravelling instead new layers of complexity that reverse and subvert exoticisation Land Grabbing and Global Governance Matias E. Margulis, Nora McKeon, Saturnino Borras Jr., 2016-05-23 Land grabbing per se is not a new phenomenon given its historical precedents in the eras of imperialism However the character scale pace orientation and key drivers of the recent wave of land grabs is a distinct historical event closely tied to the changing dynamics of the global agri food feed and fuel complex Land grabbing is facilitated by ever greater flows of capital goods and ideas across borders and these flows occur through axes of power that are far more polycentric than the North South imperialist tradition Land grabs occur in the context of changes in the character of the global food regime formerly anchored by North Atlantic empires the integrated food energy complex seems to be headed towards multiple centres of power especially with the rise of the BRICS and the proliferation of middle income countries participating in many of the land transactions Land Grabbing and Global Governance offers insights from leading scholars and experts on contemporary land grabs This volume examines land grabs in direct relation to a global economy undergoing profound change and the role of new configurations of actors and power in governance institutions and practices This book was published as a special issue of Globalizations The Political Party in Canada William P. Cross, Scott Pruysers, Rob Currie-Wood, 2022-11-01 Political parties exist at the centre of democratic politics but where does power lie within them and how is it exercised The Political Party in Canada explores the inner workings of these complex organizations through an examination of the composition and roles of key party actors members and activists candidates local associations donors central officials and members of Parliament as well as the interactions between them Contemporary parties play a key role in recruiting and selecting candidates and leaders waging election campaigns and organizing legislatures Drawing on a rich trove of data from the 2015 and 2019 federal elections this book offers a comprehensive examination of the composition functions activities and power sharing relationships that characterize Canadian parties The authors focus not only on which groups are included in decision making but also on what power and authority rest with each level of the parties respective structures Basing its astute investigation on the themes of complexity representation and personalization The Political Party

in Canada provides important insights into a fundamental institution that makes modern democracy possible

Shakespeare and the Grammar of Forgiveness Sarah Beckwith, 2011-04-08 Shakespeare lived at a time when England was undergoing the revolution in ritual theory and practice we know as the English Reformation With it came an unprecedented transformation in the language of religious life Whereas priests had once acted as mediators between God and men through sacramental rites Reformed theology declared the priesthood of all believers What ensued was not the tidy replacement of one doctrine by another but a long and messy conversation about the conventions of religious life and practice In this brilliant and strikingly original book Sarah Beckwith traces the fortunes of this conversation in Shakespeare s theater Beckwith focuses on the sacrament of penance which in the Middle Ages stood as the very basis of Christian community and human relations With the elimination of this sacrament the words of penance and repentance confess forgive absolve no longer meant no longer could mean what they once did In tracing the changing speech patterns of confession and absolution both in Shakespeare s work and Elizabethan and Jacobean culture more broadly Beckwith reveals Shakespeare s profound understanding of the importance of language as the fragile basis of our relations with others In particular she shows that the post tragic plays especially Pericles Cymbeline The Winter's Tale and The Tempest are explorations of the new regimes and communities of forgiveness Drawing on the work of J L Austin Ludwig Wittgenstein and Stanley Cavell Beckwith enables us to see these plays in an entirely new light skillfully guiding us through some of the deepest questions that Shakespeare poses to his audiences The later Stuart Church, 1660-1714 Grant Tapsell, 2017-10-03 The later Stuart Church 1660 1714 features nine essays written by leading scholars in the field and offers new insights into the place of the Church of England within the volatile Restoration era complementing recent research into political and intellectual culture under the later Stuarts Sections on ideas and people include essays covering the royal supremacy the theology of the later Stuart Church and clerical and lay interests Attention is also given to how the Church of England interacted with Protestant churches in Scotland Ireland continental Europe and colonial North America A concluding section examines the difficult relationships and creative tensions between the established Church in England Protestant dissenters and Roman Catholics The later Stuart Church is intended to be both accessible for students and thought provoking for scholars within the broad early modern field Palatine Peter Stothard, 2023 Palatine the most important of the Seven Hills of Rome was the heartbeat of Roman imperial power This book provides a unique and vivid narrative of Rome's first dynasty as seen through the eyes of one family the Vitelli who expertly maneuvered through the Palatine until their luck ran out Brexit in the Workplace Ashley Weinberg, Alexander-Stamatios Antoniou, Cary Cooper, 2020-09-25 This timely book explores the psychological repercussions of Brexit in the workplace Illustrating the mental and emotional impact of the Brexit process interdisciplinary chapters demonstrate its effect on the wellbeing of workers and its implications for the welfare of the workforce in the future Bringing together international contributors from a range of disciplines this topical book focuses on

key issues for effective workplace functioning from uncertainty to progress including higher education institutions corporate social responsibility and the emerging experiences of businesses migrant workers and politicians Between Nationalism and Europeanisation Nevena Nancheva, 2016-01-01 Why do we need European integration in increasingly fragmented and antagonised European societies How can European integration relate to the national stories we carry about who we are as a nation and where we belong What to do with the national stories that tell traumatising tales of past loss and sacrifice and depict others as villains or foes Can we still claim that our national states are the most legitimate way of organising European political communities today Engaging with these big questions of European politics Nevena Nancheva tells a small story from the periphery of Europe Looking at two post communist Balkan states Bulgaria and Macedonia she explores how their narratives of national identity have changed in the context of Europeanisation and EU membership preparations In doing so Nancheva suggests that national identity and European integration might be more relevant than previously thought
