deals with the Second World War and is naturally of the greatest interest. It authoritatively presents the Navy's position on a number of strategic controversies and adds to our factual knowledge of certain key events such as the Casablanca, Yalta, Quebec, and Potsdam conferences. Michael, 1950. **History of the Office of the Chief of Naval Operations 1915-2015**. Thomas Hone, Curtis A. Utz, 2018. This is a centennial history of the Office of the Chief of Naval Operations (OPNAV). It is organized by the individuals who had the greatest impact on OPNAV. Most of those individuals have been admirals, especially the Chiefs of Naval Operations. At times, however, a Secretary of the Navy, a Secretary of Defense, or a President has taken center stage, forcing the Navy's senior officers to react. In addition, the Navy obviously does not operate in a vacuum. What affects the country certainly influences the Navy. Yet the story of the interaction between the Navy and the nation is too great to be covered in depth here. To cover OPNAV's first century in a reasonable number of pages meant that the authors had to pick and choose among a number of potential topics that were relevant to OPNAV in each segment of its history. The Department of Defense. Roger R. Trask, John P. Glennon, 2008. This volume is a supplement to *The Department of Defense Documents on Establishment and Organization 1944-1978*. This book covers organizational changes in the Office of the Secretary of Defense between 1978 and the end of 2003. During this period, there were frequent and substantial adjustments, some directed by congressional action and some by the secretary of defense. The most important legislation affecting the Department of Defense between 1978 and 2003 is the Goldwater-Nichols Department of Defense Reorganization Act of 1986, which received its impetus primarily from Congress rather than the Department of Defense. This law joins the amendments of 1949 Reorganization Plan No. 6 of 1953 and the Department of Defense Reorganization Act of 1958 as one of the four major changes to the National Security Act of 1947. Because of its significance, the entire text of the Goldwater-Nichols Act is included in this publication, as well as important documents preceding its passage, including the report of the Packard Commission, 1986. This collection includes documents detailing the functions of the Armed Forces and the Joint Chiefs of Staff, as well as those pertaining to the roles and missions of the Armed Forces.
