and colors in humanity today only came to be years after the creation of the first man which means that originally humanity only had one race and color from that man to a certain point in its history That being so what was the original color of that man In other words was he a Caucasian a Mongolian a Negro or an Amerindian and when did the multi races and colors of people that we have today come to be The earth has gone through so many changes through earthquakes landslides tumults ocean drifts and desert encroachments and etc over the years since the creation of the first man Taking all these into consideration is it still possible to establish the location of Eden where our first parents lived In other words was Eden in America Europe Asia or Africa And if we are able to establish the continent which Eden was located is it not correct to say that the first man was a native of that continent Africa is poor and backward today what are the causes of Africas backwardness Is there any hope for Africa or has God forsaken Africa These and more are the salient questions that this book has biblically scientifically and historically found answers to The book is highly explosive and revealing It would cause so much ripples and likely going to change some of your Biblical beliefs **The Negro** Ariel,2019-09-25 Reproduction of the original The Negro by Ariel **History in Black** Ya'aqov Shavit,2001 This is a comprehensive study of Afrocentrist historical writing which places the black race at the centre of human history set against a broad background of creative histories from ancient times onward **EMDR and the Art of Psychotherapy With Children** Robbie Adler-Tapia,Carolyn Settle,2023-05-22 The third edition presents innovative child and adolescent EMDR therapy approaches and tools designed to meet the challenges of today s youth Written for all EMDR child therapists new and seasoned this text is a comprehensive guide toward the effective practice of EMDR therapy with children from infants to adolescents It offers step by step instructions translating each of the eight phases in creative and developmentally appropriate ways for children and teenagers while providing advanced protocols for therapists The third edition combines the updated guide and accompanying treatment manual into one volume for greater convenience Chapters now integrate content explanations and instructions with associated checklists protocols and worksheets for quick access to crucial information The book also provides new leading edge chapters on EMDR therapy regarding telehealth cultural and social responsiveness and addictions and includes inventive methods techniques resources and protocols Additionally the third edition features engaging exercises for target identification a child client readiness checklist and a brochure explaining EMDR therapy with children The book offers abundant case examples drawings tables detailed scripts and complete instructions along with useful links and resources for therapists to apply in their practice New to the Third Edition Streamlines content scripts checklists protocols and instructions combining them with the treatment manual in one handy book Introduces groundbreaking new chapters on EMDR therapy and telehealth cultural and social responsiveness and addiction highlighting addictions to screens Expands Phase One of EMDR therapy History Taking Case Conceptualization and Treatment Planning into two chapters emphasizing the complexity in working with children Addresses contemporary areas of trauma including COVID 19 school refusal climate
