Mapping Agency Ulrike Lorenz-Carl, Martin Rempe, 2016-05-13 Despite regionalism having developed into a global phenomenon the European Union EU is still more often than not presented as the role model of regionalism whose institutional designs and norms are adopted by other regional actors and organizations as part of a rather passive downloading process Reaching beyond such a Eurocentric perception Mapping Agency provides an empirically rich African perspective on regionalisms in Sub Saharan Africa It adopts an actor centred approach but departs from a rather simplified understanding of agency as exerting power and instead scrutinizes to what extent actors actually participate in or are excluded from processes of regionalism The value of this volume derives from the inclusion of historical dimensions its open multi actor approach to both formal and informal processes and its comparative perspective within but also beyond Sub Saharan Africa The chapters offer a multifaceted picture of agency beyond disciplinary divides where the EU is one actor amongst many and where local national regional and global state and non state actors shape and sometimes break processes of regionalisms in Sub Saharan Africa

Maritime Security Dele Joseph Ezeoba, 2021-01-26 The Gulf of Guinea maritime environment accounts for between 70 90 percent of the revenue of the states in the region In addition to its rich forestry fisheries reserves and massive mineral and hydrocarbon deposits it also houses the largest volumes of the region's oil and gas which are still its most valued natural resources Thus its economic importance has been of great regional and global interest at all times Invariably the economic prosperity or otherwise of the states in the region is intrinsically tied to the peace and security of the Gulf This primary and strategic

position of the Gulf in the socio economic survival and development of the states in the region critically underscores the huge importance of its general security which in recent years and decades has been blighted by many security challenges Dele Ezeoba's Maritime Security Imperatives for Economic Development in the Gulf of Guinea extensively engages the dynamics and dialectics of security and economic development in the chosen maritime area and establishes theoretical and practical mechanisms that should be deployed in combating security threats in the maritime space and opening up the region to greater development It offers enterprising vistas of intellectual designs in addressing critical issues of maritime security and economic prosperity
