**Unfinished War, 1945-1947** Daniel Kurtz-Phelan, 2018-04-10 An Economist Best Book of 2018 New York Times Book Review Editor's Pick Gripping and splendid An enormous contribution to our understanding of Marshall Washington Post At the end of World War II General George Marshall took on what he thought was a final mission this time not to win a war but to stop one In China conflict between Communists and Nationalists threatened to suck in the United States and escalate into revolution Marshall's charge was to cross the Pacific broker a peace and prevent a Communist takeover all while staving off World War III At first the results seemed miraculous But as they started to come apart Marshall was faced with a wrenching choice one that would alter the course of the Cold War define the US China relationship and spark one of the darkest ever turns in American political life The China Mission offers a gripping close up view of the central figures of the time from Marshall Mao and Chiang Kai shek to Eisenhower Truman and MacArthur as they stood face to face and struggled to make history with consequences and lessons that echo today *The China Factor* Gerald Segal, 2018-09-18 The purpose of this book first published in 1982 is to analyse certain crucial aspects of the great power triangle in order to establish a more complete picture of the role of China in the superpower balance These essays examine the key political economic and military issues involved in the complex relations between the three great powers **Perceptions of China and White House**

**Decision-Making, 1941-1963** Adam S.R. Bartley, 2019-11-26 This book assesses and evaluates the decision making behavior of United States presidents and their chief advisers from Roosevelt to Kennedy pertaining to China Seeking to dispel with the notion that each administration sought policy outcomes on the basis of a rational decision making model Bartley highlights the contradictions of adopted presidential decision making processes and the nature of domestic politics as playing prejudicial and debilitating roles The book demonstrates that elite decision making processes interacted with assumptions made about Chinese behavior interests and attitudes only superficially and in some cases not at all Misinformation and misperception were the natural outcomes Reinforced by the politics of McCarthyism at home intellectual debate on China policy was squashed parochialism and nuance were shunned and information was closed off Ultimately a

divorce between the norm of behavior and the search for rational policy was registered in each administration. The net result was a lasting and destructive cognitive dissonance to fit expectations of a China reality constructed information was ignored overlooked and distorted. Offering new insights into the China policies of consecutive administrations from 1941 to 1963, this volume will be of great interest to scholars and students of American foreign policy, security studies and international relations.

**Australia's China** Lachlan Strahan, 1996. First published in 1996, *Australia's China* explores the multifaceted and dynamic Australian encounter with China from the beginning of the Sino-Japanese War in 1937 through the Cold War to the Australian recognition of the PRC in 1972. Going beyond conventional policy studies, it traces the patterns in Australian reactions to China from the grass roots to official circles, highlighting the centrality of images concerning the exotic, disease, sexuality, the frontier and China as a paradise/anti-paradise. In responding to China, Australians revealed something of themselves, and this book maps the formation of Australian conceptions of identity in the context of a cross-cultural encounter which was variously cooperative, enriching, baffling and antagonistic. But there was no single Australian conception of China. Rather, competing perceptions jostled in a shifting dialogue.

**The Lost Chance in China and the Rise of Cold War Populism** Stephen J. Hartnett, 2025-10-01. *The Lost Chance in China and the Rise of Cold War Populism* offers a rollicking retelling of the fate of America's diplomats stationed in China during World War II and the start of the Chinese Civil War, documenting how their efforts to find peace in China clashed with the anti-Communist network of right-wing advocates known as the China Lobby. Fueled by America's end-of-the-war fury over the loss of China to Mao and the Communists, the on-the-ground experts in Asia lost the public relations battle to Cold War populists who pushed a toxic version of public anger that built the rhetorical foundation of McCarthyism. Hartnett diagnoses the moment's political battles by mapping a series of interlocking dispositions, emotion-based reactions that short-circuited critical thinking and empathy, instead feeding strident anti-Communism, xenophobia and class-based resentments. Hartnett's masterwork offers a haunting prehistory to our contemporary moment when populism again stokes outrage and fear at the cost of nuanced international understanding.

**China 1949** Graham Hutchings, 2021-01-14. Excellent. *The Economist*. A gripping account. *South China Morning Post*. Well worth reading. *The Morning Star*. A persuasive and readable narrative. *History Today*. Elegantly written. *The Tablet*. An excellent study. *The Chartist*. Engaging. *Asia Times*. The events of 1949 in China reverberated across the world and throughout the rest of the century. That tumultuous year saw the dramatic collapse of Chiang Kai-shek's pro-Western Nationalist government, overthrown by Mao Zedong and his communist armies, and the foundation of the People's Republic of China. *China 1949* follows the huge military forces that tramped across the country, the exile of once-powerful leaders and the alarm of the foreign powers watching on. The well-known figures of the Revolution are all here. But so are lesser-known military and political leaders along with a host of ordinary Chinese citizens and foreigners.

caught in the maelstrom They include the often neglected but crucial role played by the Guangxi faction within Chiang's own regime the fate of a country woman who fled her village carrying her baby to avoid the fighting a prominent Shanghai business man and a schoolboy from Nanyang ordered by his teachers to trek south with his classmates in search of safety Shadowing both the leaders and the people of China in 1949 Hutchings reveals the lived experiences aftermath and consequences of this pivotal year one in which careers were made and ruined and popular hopes for a new China contrasted with fears that it would change the country forever The legacy of 1949 still resonates today as the founding myth source of national identity and root of the political behaviour of modern China Graham Hutchings has written a vivid gripping account of the year in which China abruptly changed course and pulled the rest of world history along with it **United States**

**Relations with the People's Republic of China** United States. Congress. Senate. Committee on Foreign Relations, 1972
