

The Orders of Commandery

Order of the Red Cross

Red Cross Masonry has long been seen as a prerequisite for the chivalric degrees, and is found in both the York & Scottish Rites with its full form within Knight Masonry. In Commandery we refer to it as the Illustrious Order of the Red Cross, and through it we follow Zerubbabel on his journey to rebuild the temple, and communicate the important lesson of truth.

Order of Malta

Finding its roots in the ritual of the ancient Knights Hospitaller, one of few chivalric orders that still exist in modern times, the Order of Malta with the Degree of Knight of St. Paul or Mediterranean Pass found within it introduces us to the history of this order and we learn why modern Knights Templar still venerate it today.

Order of the Temple

Within this body we find the pinnacle of Christian knight-hood, and are challenged to embody and promote Christian virtues. Through it we are sent on a personal journey that brings us face to face with the martyrdom of Jesus Christ and our own mortality. Through this we learn that though our days are few the grave has been overcome, and our redeemer lives.

The Holy Grail Arthur Edward Waite, 2006-01-01 The Grail legend is the centerpiece of Arthurian literature and this classic work by the renowned scholar Arthur Edward Waite ranks among the most informative and profound books ever written on the subject While the myths surrounding the Holy Grail are seemingly in harmony with orthodox religion Waite reveals that beneath their pious surface they are as subversive as any other form of mysticism illustrating the symbolic nature of doctrinal teachings no more intended for literal interpretation than is any fiction With this informative study Waite restores the full and true meaning of the knightly quests for honor and adventure as journeys of the soul

Proofs of a Conspiracy against all the Religions and

Governments of Europe John Robison, 2023-10-26 In *Proofs of a Conspiracy against all the Religions and Governments of Europe* by John Robison the author delves into the intricate web of secret societies and conspiracy theories that he believes are threatening the stability of Europe. Written in a dense and detailed style, Robison provides evidence and arguments to support his claims, drawing on historical events and contemporary political happenings to make his case. This book is a fascinating look into the paranoia and fear that gripped the minds of many during the Enlightenment period, reflecting the distrust of established institutions and the desire for radical change. Robison's writing style is academic and well-researched, making this a compelling read for those interested in the history of conspiracy theories and political intrigue. John Robison, a Scottish physicist and mathematician, was a prominent figure in the Enlightenment era, known for his criticisms of the Freemasons and other secret societies. His background in science and philosophy likely influenced his perspective on the motives and actions of these clandestine organizations, leading him to write this seminal work. I highly recommend *Proofs of a Conspiracy against all the Religions and Governments of Europe* to readers interested in the intersection of politics, religion, and secret societies during a tumultuous period in European history.
