Richard C. Maddock

The Chosen Ones The Art Of Jury Selection:

The Chosen Ones William Joseph Bryan, 1985 **Bloodlines Of The Illuminati** Daniel Lazar, Peopewatching Desmond Morris, 2012-11-30 Peopewatching is the culmination of a career of watching people their behaviour and habits their personalities and their quirks Desmond Morris shows us how people consciously and unconsciously signal their attitudes desires and innermost feelings with their bodies and actions often more powerfully than with their words

Federal Jury Selection United States. Congress. Senate. Judiciary, 1967 **Motivation, Emotions, and Leadership** Richard L. Fulton, Richard C. Maddock, 1998-10-28 Leadership is motivation and motivation is leadership say the authors of this important and unique study The two elements are inseparable but until now no one has actually conceptualized motivation in a useful way to demonstrate and analyze the connection between it and leadership The key for leaders is dealing with the emotions that underlie and activate motivation Maddock and Fulton provide a highly successful proven and replicable approach not only to motivate people but also to train them to lead others The authors develop an 11 level structure of human motivation that defines and describes motivation in simple graphic all inclusive language They then show how leaders can use this motivational hierarchy to solve complex problems in the workplace The result is a blueprint to help executives in all types of organizations manage more effectively and as they do so to motivate and truly lead the people who depend on them for guidance and direction Maddock and Fulton offer several scenarios to show how their ideas work in practice In the vertical fix they demonstrate how motives that get out of synch with each other can be re aligned eliminating the chaos that would otherwise occur In the lateral fix they show how a person who may be functioning at the extreme edge of motivation can be moved back toward the center a place where the person s effect on others is most and best felt Well documented throughout their book will be important reading for training and development professionals specialists in organizational behavior and executives at all levels in public and private sectors *Motigraphics* Richard C. Maddock, 2000-01-30 Motigraphics is the natural complement to demographics and psychographics the completion of a triad For consumers because motives are the most important dimension of human behavior motives lead directly to decisions and decisions lead directly to purchasing behavior Demographics and psychographics tell us the what when where and how of consumer behavior but motigraphics tells us why consumers do what they do Dr Maddock maintains that academic psychology has failed to provide a formal approach to motivation thus marketers have never been able to get a firm grasp on why consumers prefer what they do why they cancel and don t renew and what factors enter into their decision making at the point of sale With Motigraphics we can now measure and compute motives and the strength of motivation allows us to determine how much equity a brand Motigraphics allows us to describe customer loyalty in terms of a quantitative motivational profile and scale Not only does Dr Maddock show how to measure motives he also helps us assess the amount of emotion involved in a product or service Since most consumer decisions are based on emotion not reason the importance of

Dr Maddock's book for psychologists marketers and advertising and sales professionals is self evident and inestimable
