Westbrook,2012-01-11 Why We Fought is a timely and provocative analysis that examines why Americans really chose to sacrifice and commit themselves to World War II Unlike other depictions of the patriotic greatest generation Westbrook argues that strictly speaking Americans in World War II were not instructed to fight work or die for their country above all they were moved by private obligations Finding political theory in places such as pin ups of Betty Grable he contends that more often than not Americans were urged to wage war as fathers mothers husbands wives lovers sons daughters and consumers not as citizens The thinness of their own citizenship contrasted sharply with the thicker political culture of the Japanese which was regarded with condescending contempt and even occasionally wistful respect Why We Fought is a profound and skillful assessment of America s complex political beliefs and the peculiarities of its patriotism While examining the history of American beliefs about war and citizenship Westbrook casts a larger light on what it means to be an American to be patriotic and to willingly go to war Stardom Christine Gledhill,2003-09-02 In the past stars have been studied as cogs in a mass entertainment industry selling desires and ideologies But since the 1970s new approaches have reopened debate as film and cultural studies try to account for the active role of the star in producing meanings pleasures and identities for a diversity of audiences Stardom brings together for the first time some of the major writing of the last decade which seeks to understand the phemomenon of stars and stardom Gathered under four headings The System Stars and Society Performers and Signs Desire and Politics these essays represent a range of approaches drawn from film history sociolgy textual analysis audience research psychoanalysis and cultural politics They raise important issues about the politics of representation and the cultural limitations and possibilities of stars *The Cumulative Book Index* ,1975 A world list of books in the English language **The Human Machine** Despina Kakoudaki,2000 **Modern Photography** ,1977 **Publishers Weekly** ,1974
