The Plattner Story and Others Herbert George Wells, 1897 **The Plattner Story** H. G. Wells, 2015-06-02 Excerpt from *The Plattner Story And Others* Whether the story of Gottfried Plattner is to be credited or not is a pretty question in the value of evidence On the one hand we have seven witnesses to be perfectly exact we have six and a half pairs of eyes and one undeniable fact and on the other we have what is it prejudice common sense the inertia of opinion Never were there seven more honest seeming witnesses never was there a more undeniable fact than the inversion of Gottfried Plattner's anatomical structure and never was there a more preposterous story than the one they have to tell The most preposterous part of the story is the worthy Gottfried's contribution for I count him as one of the seven Heaven forbid that I should be led into giving countenance to superstition by a passion for impartiality and so come to share the fate of Eusapia's patrons Frankly I believe there is something crooked about this business of Gottfried Plattner but what that crooked factor is I will admit as frankly I do not know About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works **The Plattner Story and Others** H. G. Wells, 2016-09-14 *The Plattner Story and Others* contains seventeen short stories by H G Wells It presents the readers with a variety of classic Wells tales including *The Plattner Story* a tale of multiple dimensions of time and space *The Apple and Purple Pileus* a wonderful example of vintage sci fi and *The Jilting of Jane* a typical Wellsian tale of love and betrayal Originally published in 1897 this fantastic collection is highly recommended for lovers of the short story from and fans of Wells wonderful work The stories include *The Plattner Story* *The Argonauts Of The Air* *The Story Of The Late Mr Elvisham In The Abyss* *The Apple Under The Knife* *The Sea raiders Pollock And The Porroh Man* *The Red Room* *The Cone* *The Purple Pileus* *The Jilting Of Jane In The Modern Vein* *A Catastrophe et cetera* Herbert George Wells 1866-1946 was a prolific English writer who wrote in a variety of genres including the novel politics history and social commentary Many vintage books such as this are becoming increasingly scarce and expensive We are republishing this book now in an affordable modern high quality edition complete with a specially commissioned new biography of the author [The Plattner Story](#) H G Wells, 2021-04-06 WHETHER the story of Gottfried Plattner is to be credited or not is a pretty question in the value of evidence On the one hand we have seven witnesses to be perfectly exact we have six and a half pairs of eyes and one undeniable fact and on the other we have what is it prejudice common sense the inertia of opinion Never were there seven more honest seeming witnesses never was there a more undeniable fact than the inversion of Gottfried Plattner's anatomical structure and never was there a more preposterous

story than the one they have to tell The most preposterous part of the story is the worthy Gottfried s contribution for I count him as one of the seven Heaven forbid that I should be led into giving countenance to superstition by a passion for impartiality and so come to share the fate of Eusapia s patrons Frankly I believe there is something crooked about this business of Gottfried Plattner but what that crooked factor is I will admit as frankly I do not know I have been surprised at the credit accorded to the story in the most unexpected and authoritative quarters The fairest way to the reader however will be for me to tell it without further comment Gottfried Plattner is in spite of his name a free born Englishman His father was an Alsatian who came to England in the Sixties married a respectable English girl of unexceptionable antecedents and died after a wholesome and uneventful life devoted I understand chiefly to the laying of parquet flooring in 1887 Gottfried s age is seven and twenty He is by virtue of his heritage of three languages Modern Languages Master in a small private school in the South of England To the casual observer he is singularly like any other Modern Languages Master in any other small private school His costume is neither very costly nor very fashionable but on the other hand it is not markedly cheap or shabby his complexion like his height and his bearing is inconspicuous You would notice perhaps that like the majority of people his face was not absolutely symmetrical his right eye a little larger than the left and his jaw a trifle heavier on the right side If you as an ordinary careless person were to bare his chest and feel his heart beating you would probably find it quite like the heart of anyone else But here you and the trained observer would part company If you found his heart quite ordinary the trained observer would find it quite otherwise And once the thing was pointed out to you you too would perceive the peculiarity easily enough It is that Gottfried s heart beats on the right side of his body *The Plattner Story, and Others* H G

The Plattner Story and Others Herbert George Wells,2020-04-04 The narrator discusses the case of Gottfried Plattner a schoolteacher in the south of England He establishes the known facts the unsymmetrical parts of his body are opposite from the usual way round and his unsymmetrical facial features are the reverse of what are seen on his portrayal in an old photograph The curious inversion of Plattner s right and left sides is proof that he has moved out of our space into what is called the Fourth Dimension and that he has returned again to our world Plattner disappeared when he experimented in a chemistry class with green powder found by a boy which caused an explosion he re appeared nine days later He has related his account of that period to the narrator who sets it down so that the reader can decide whether it is plausible After the explosion Plattner still with the bottle containing the rest of the green powder tries to make sense of his new environment The schoolroom and people there are seen faintly they do not see or hear him and they can walk through him The solid environment around him which he explores is a rocky hillside and the sky has a green glow People dispersing from a mausoleum like building in a gorge have heads showing distress and anguish above tadpole like bodies They seem to be unaware of him Still faintly seeing our world which is superimposed on this Other World he notices that to almost every human being in our world there pertained some of these drifting heads that everyone in the world is watched intermittently

by these helpless disembodiments The narrator calls them Watchers of the Living It may be that when our life has closed when evil or good is no longer a choice for us we may still have to witness the working out of the train of consequences we have laid
