The Poetics Of Political Thinking:

The Poetics of Political Thinking Davide Panagia, 2006-02-15 DIV Investigates the ways in which thinking and judgment have been represented in political philosophy from Thomas Hobbes to Jacques Ranciere with an emphasis on the relationship between aesthetic and political representation div *The Political Theory of Political Thinking* Michael Freedman, 2013-08-08 This book is the first to explore systematically what it means to think politically Using detailed contemporary and historical material and investigating both professional and amateur forms of political thinking this study challenges much accepted wisdom on the topic arguing that it is to be approached as a cluster of interacting features *The Aesthetic Turn in Political Thought* Nikolas Kompridis, 2014-04-10 Collection of essays that focuses on the influence of aesthetic theories and concepts on political theorizing *Coleridge's Political Poetics* Jacob Lloyd, 2023-12-18 This book considers Samuel Taylor Coleridge's engagement with Whig poetry a tradition of verse from the eighteenth century which celebrated the political and constitutional arrangements of Britain as guaranteeing liberty It argues that during the 1790s Coleridge was able to articulate radical ideas under the cover of widely accepted principles through his references to this poetry He positioned his poetry within a mainstream discourse even as he favoured radical social change Jacob Lloyd argues that the poets Mark Akenside William Lisle Bowles and William Cowper each provided Coleridge with a kind of Whig poetics to which he responded When these references are understood much of Coleridge's work which seems purely personal or imaginative gains a political dimension In addition Lloyd reassesses Coleridge's relationship with Thomas Percy's *Reliques of Ancient English Poetry* to provide an original political reading of *The Rime of the Ancient Mariner* This book revises our understanding of the political and poetic development of a major poet and in doing so provides a new model for the origins of British Romanticism more broadly **Herder's Political Thought** Vicki A. Spencer, 2012-01-01 Johann Gottfried Herder was a philosopher and important intellectual presence in eighteenth century Germany Herder's *Political Thought* examines the work of this significant figure in the context of both historical and contemporary developments in political philosophy Vicki A. Spencer reveals Herder as one of the first Western philosophers to grapple seriously with cultural diversity without abandoning a commitment to universal values and the first to make language and culture an issue of justice As Spencer argues both have made Herder a source of inspiration for the pluralist turn of contemporary political philosophy Contending that in an era of globalization it is no longer possible to ignore Herder's crucial insights on the relationship between cultural membership and individual identity Spencer demonstrates how these ideas can help us understand and perhaps resolve the linguistic and cultural political struggles of our times **Green Leviathan or the Poetics of Political Liberty** Mark Coeckelbergh, 2021-05-30 This book discusses the problem of freedom and the limits of liberalism considering the challenges of governing climate change and artificial intelligence AI It mobilizes resources from political philosophy to make an original argument about the future of technology and the environment Can artificial intelligence save the planet And does that mean

we will have to give up our political freedom Stretching the meaning of freedom but steering away from authoritarian options this book proposes that next to using other principles such as justice and equality and taking collective action and cooperating at a global level we adopt a positive and relational conception of freedom that creates better conditions for human and non human flourishing In contrast to easy libertarianism and arrogant techno solutionism this offers a less symptomatic treatment of the global crises we face and gives technologies such as AI a role in the gathering of a new more inclusive political collective and the ongoing participative making of new common worlds Written in a clear and accessible style *Green Leviathan or the Poetics of Political Liberty* will appeal to researchers and students working in political philosophy environmental philosophy and the philosophy of technology [The Cambridge Companion to Ancient Greek Political Thought](#) Stephen Salkever,2009-04-27 *The Cambridge Companion to Ancient Greek Political Thought* provides a guide to understanding the central texts and problems in ancient Greek political thought from Homer through the Stoics and Epicureans Composed of essays specially commissioned for this volume and written by leading scholars of classics political science and philosophy the Companion brings these texts to life by analysing what they have to tell us about the problems of political life Focusing on texts by Homer Herodotus Thucydides Plato and Aristotle among others they examine perennial issues including rights and virtues democracy and the rule of law community formation and maintenance and the ways in which theorizing of several genres can and cannot assist political practice **The International Political Thought of Carl Schmitt** Louiza Odysseos,Fabio Petito,2007-03-06 Presenting the first critical analysis of Carl Schmitt s *The Nomos of the Earth* and how it relates to the epochal changes in the international system that have risen from the collapse of the Westphalian international order There is an emerging recognition in political theory circles that core issues such as order social justice rights need to be studied in their global context Schmitt s international political thought provides a stepping stone in these related paths offering an alternative history of international relations of the genesis achievements and demise of the Westphalian system Writing at a time when he believed that the spatial political and legal order the *nomos* of the earth had collapsed he highlighted the advent of the modern state as the vehicle of secularization tracing how this interstate order was able to limit and rationalize and humanize war Providing a large number of case studies including global terrorism humanitarian intervention and US hegemony this book will give further impetus to and expand the nascent debate on the significance of Schmitt s legal and political thought for international politics *The International Political Thought of Carl Schmitt* will be of interest to students and scholars of international relations law and history [Roman Political Thought](#) Dean Hammer,2014-07-28 This book is the first comprehensive treatment of Roman political thought arguing that Romans engaged in wide ranging reflections on politics [African American Political Thought](#) Melvin L. Rogers,Jack Turner,2024-05-31 *African American Political Thought* offers an unprecedented philosophical history of thinkers from the African American community and African diaspora who have addressed the central issues of political life democracy race

violence liberation solidarity and mass political action Melvin L Rogers and Jack Turner have brought together leading scholars to reflect on individual intellectuals from the past four centuries developing their list with an expansive approach to political expression The collected essays consider such figures as Martin Delany Ida B Wells W E B Du Bois James Baldwin Toni Morrison and Audre Lorde whose works are addressed by scholars such as Farah Jasmin Griffin Robert Gooding Williams Michael Dawson Nick Bromell Neil Roberts and Lawrie Balfour While African American political thought is inextricable from the historical movement of American political thought this volume stresses the individuality of Black thinkers the transnational and diasporic consciousness and how individual speakers and writers draw on various traditions simultaneously to broaden our conception of African American political ideas This landmark volume gives us the opportunity to tap into the myriad and nuanced political theories central to Black life In doing so African American Political Thought A Collected History transforms how we understand the past and future of political thinking in the West
