War Games Leo Murray,2018-02-01 The human brain is hard wired with a primal aversion to killing Amid the horror of war even the best trained soldiers can forget their training Vast effort and countless sums have been spent in the attempt to keep our men fighting Military psychologist Leo Murray argues that the real question is How do we make the enemy stop fighting Weaving together intense first hand accounts of combat with the hard science of tactical psychology Murray offers a compelling insight into how war affects the human mind War Games is both a powerful glimpse through the eyes of our soldiers and an urgent reminder that the future of modern warfare lies in understanding how the enemy thinks Fascinating and often chilling this is the story of how psychology wins wars

Verweij,2009-06-30 During the Cold War an era in which the term asymmetric warfare was not well known the issue of the laws and ethics of war seemed simple enough to most soldiers being concerned mainly with leadership management and morale Post Cold War reality revealed a very different set of challenges including a significantly wider moral dimension particularly when forces initially under UN leadership and later under the NATO flag were deployed in different parts of the turbulent Balkans Military observers by now with legal advisers close by watched events in the Balkans East Timor and then in central and West Africa with professional interest and some were involved there A few years later soldiers were subsequently caught as much by surprise by the events of 9 11 a graphic example of asymmetric warfare as most of the rest of the world The initial post 9 11 response in Afghanistan and Iraq brought the notion of the fragile or collapsed state and the blurring of the roles of military forces international organisations non governmental organisations non state actors and indigenous administrators and their uniformed organisations and with them the moral dilemmas to much wider notice More recent conflicts have indeed shown the need for commanders and soldiers in all types of conflict to have a much better understanding of the complex moral and legal environments and opened new debates about the principle of winning hearts and minds in counter insurgency and peace support operations Moreover technological superiority by the West has also produced mixed benefits in the field of military operations and posed additional dilemmas many of them moral The trend towards defining human rights and fundamental freedoms poses further questions for the soldier today This collection of essays written by a wide variety of practising experts and scholars touches on all these issues It links the medieval traditions of jus in bello codified by Saint Thomas Aquinas in the Christian Church nearly eight centuries ago to examination of modern challenges and moral dilemmas relating to the ethics and laws of conflict and crises of all types in the twenty first century and in a global context among people of many different faiths and beliefs and none It is an important collection for all those researching or practically involved in conflict and post conflict situations *Summaries of Tariff Information* United States Tariff Commission,1948 *The Process Mind* Philip Kirby,2014-10-24 What if you could double

Wars of Law Tanisha M. Fazal, 2018-05-15 In *Wars of Law* Tanisha M Fazal assesses the unintended consequences of the proliferation of the laws of war for the commencement conduct and conclusion of wars over the course of the past one hundred fifty years Fazal outlines three main arguments early laws of war favored belligerents but more recent additions have constrained them this shift may be attributable to a growing divide between lawmakers and those who must comply with international humanitarian law and lawmakers have been consistently inattentive to how rebel groups might receive these laws By using the laws of war strategically Fazal suggests belligerents in both interstate and civil wars relate those laws to their big picture goals Why have states stopped issuing formal declarations

of war Why have states stopped concluding formal peace treaties Why are civil wars especially likely to end in peace treaties today In addressing such questions Fazal provides a lively and intriguing account of the implications of the laws of war **A War of Words in the Discourse of Trade** Philip Eubanks,2000 Trade as War is the case study of a conceptual metaphor one that underlies specific and expressed metaphors that Eubanks English Northern Illinois U uses to argue that the conceptual metaphor view combined with an understanding of metaphor as rhetorically constituted makes obsolete almost all the assumptions that have previously guided metaphor study from handbooks of advice to cognitive science Annotation copyrighted by Book News Inc Portland OR U.S. Army and Irregular Warfare 1775-2007: Selected Papers From the 2007 Conference of Army Historians Richard G.
