Bullard, 2016-10-17 When United Airlines workers reported a UFO at O'Hare Airport in November 2006 it was met with the typical denials and hush up that usually accompany such sightings But when a related story broke the record for hits at the Chicago Tribune's website it was clear that such unexplained objects continued to occupy the minds of fascinated readers Why wonders Thomas Bullard don't such persistent sightings command more urgent

attention from scientists scholars and mainstream journalists The answer in part lies in Bullard s wide ranging magisterial survey of the mysterious frustrating and ever evolving phenomenon that refuses to go away and our collective efforts to understand it In his trailblazing book Bullard views those efforts through the lens of mythmaking discovering what UFO accounts tell us about ourselves our beliefs and the possibility of visitors from beyond Bullard shows how ongoing grassroots interest in UFOs stems both from actual personal experiences and from a cultural mythology that defines such encounters as somehow alien and how it views relentless official denial as a part of conspiracy to hide the truth He also describes how UFOs have catalyzed the evolution of a new but highly fractured belief system that borrows heavily from the human past and mythic themes and which UFO witnesses and researchers use to make sense of such phenomena and our place in the cosmos Bullard s book takes in the whole spectrum of speculations on alien visitations and abductions magically advanced technologies governmental conspiracies varieties of religious salvation apocalyptic fears and other paranormal experiences Along the way Bullard investigates how UFOs have inspired books movies and television series blurred the boundaries between science science fiction and religion and crowded the Internet with websites and discussion groups From the patches of this crazy quilt he posits evidence that a genuine phenomenon seems to exist outside the myth Enormously erudite and endlessly engaging Bullard s study is a sky watcher s guide to the studies stories and debates that this elusive subject has inspired It shows that despite all the competing interests and errors clouding the subject there is substance beneath the clutter a genuinely mysterious phenomenon that deserves attention as more than a myth

That Still Mystify Non-believers (Paranormal Ufo Sighting Cases That Still Mystify Non-believers) Milton Reese, Modern ufology focuses on mysterious lights on ceres or tales of alien abduction but this wasn't always the case and looking at how the beliefs in the ufo phenomenon have changed or stayed the same can shed light on how culture and belief changes over time One does not have to believe humans are actually being visited by aliens from another planet to recognize the importance of ufos in human society Any widespread belief that endures for centuries is worthy of study and as always cases exist that can't be explained away simple superstition Inside find cases of ufo's that still remain unexplained sighting A night to remember for Steve and Dawn Hess Travis Walton baffles investigators Allagash abductions The Betty Andreasson affair The strange encounters of Barbara Archer The Buff Ledge camp encounter Encounter on the Pascagoula river This book is a collection of witness sightings at or near the ufo watchtower Some witnesses were thorough in their descriptions some were brief But taken as a whole you'll be able to detect some patterns in the sightings and have some fun doing your own investigations See if you can deduce some of the known explanations for yourself For instance a couple of the sightings apparently describe the first Starlink satellites going over the valley **Hamiltonian Perturbation Solutions for**

The Master of Warlock: A Virginia War Story George Cary Eggleston, The road was a winding twisting track as it threaded its way through a stretch of old field pines The land was nearly level at that point and quite unobstructed so that there was not the slightest reason that ordinary intelligence could discover for the roadway s devious wanderings It might just as well have run straight through the pine lands But in Virginia people were never in a hurry They had all of leisure that well settled and perfectly self satisfied ways of life could bring to a people whose chief concern it was to live uprightly and happily in that state of existence into which it had pleased God to call them What difference could it make to a people so minded whether the journey to the Court house the centre and seat of county activities of all kinds were a mile or two longer or shorter by reason of meaningless curves in the road or by reason of a lack of them Why should they bother to straighten out road windings that had the authority of long use for their being And why should the well fed negro drivers of family carriages shake themselves out of their customary and comfortable naps in order to drive more directly across the pine land when the horses if left to themselves would placidly follow the traditional track The crookedness of the road was a fact and Virginians of that time always accepted and respected facts to which they had been long accustomed For that sufficient reason Baillie Pegram the young master of Warlock was not thinking of the road at all but accepting it as he did the greenery of the trees and the bursting of the buds as he jogged along at a dog trot on that fine April morning in the year of our Lord 1861 He was well mounted upon a mettlesome sorrel mare a mare with pronounced ideas of her own The young man had taught her to bend these somewhat to his will but her individuality was not yet so far subdued or suppressed as to lose itself in that of her master So she suddenly halted and vigorously snorted as she came within sight of the little bridge over Dogwood Branch where a horse and a young gentlewoman were obviously in trouble I name the horse and the girl in that ungallant reverse order because that was the order in which they revealed themselves to the mare and her master For the girl was on the farther side of the horse and stooping so that she could not be seen at a first glance As she heard approaching hoof beats she straightened herself into that dignity of demeanour which every young Virginia gentlewoman felt it to be her supreme duty in life to maintain under any and all circumstances
