Running the Long Path Kenneth A. Posner,2016-09-30 An ultrarunner s fast paced narrative into the wilds of New York s Hudson Valley as he attempts to set a new record for completing the Long Path a 350 mile hiking trail that links New York City and Albany Have you ever considered running 350 miles in nine days Kenneth A Posner did just that when he completed a record setting run along New York s Long Path a 350 mile hiking trail that stretches from New York City to Albany Running the Long Path s page turning narrative combines the thrill and challenges of Posner s extreme endurance feat with the stunning natural beauty and deep historical significance of New York s Hudson Valley A one time casual runner Posner shares his excitement

of developing into a trail runner and eventually an ultrarunner as well as the pursuit of a fastest known time a new dimension of extreme trail running where some of the sport's fastest and most experienced athletes vie to set new speed records for important trails. Hikers, walkers, and runners will appreciate his detailed descriptions of planning, pacing, gear selection, nutrition, hydration, and navigation which will help them prepare for their own adventures on the trails. Interspersed with the running adventure, Posner relates the interesting stories of the Long Path and the places it passes through which include some of New York's most important parks and preserves and the distinctive mountains and forests they protect. Throughout the book, he channels the voices of famous New Yorkers associated with the Long Path: Walt Whitman, John Burroughs, Theodore Roosevelt, and Raymond Torrey, who express their appreciation of the natural beauty of the region. Running the Long Path is the story of what ordinary people can accomplish with a little determination and a lot of grit. Whether you walk or run, you will find inspiration in Posner's tale. Ken Posner not only takes us along as he achieves a great yet agonizingly difficult athletic accomplishment, but at the same time, he displays brilliantly the beauty and history of the Hudson Valley as well as the value of the strenuous life. Philip McCarthy, American 48-hour running record setter (257 miles). On his solitary run, Ken takes us into the woods to meet the remarkable characters who shaped the history of the landscape. While setting a Long Path record, he nonetheless pauses to appreciate and settle us into its subtle natural wonders and profound majesty. Ken gives us a magical private tour to reveal the soul of the Catskills. Joan Burroughs, President, John Burroughs Association. Here it is: The Intelligent Man's Guide to Insanity. Why would Ken Posner, an otherwise successful financial analyst, run 350 miles from New York City to Albany over some of the roughest trails in the Hudson Valley, sleep in the wild with bears, snakes, and poison ivy, just to do it, and maybe do it faster than anyone else has? Read why in this journey of natural wonders, personal discovery, and the compelling curiosity of the running temperament. P.S. He lives to tell the tale. Kathrine Switzer, author of *Marathon Woman: Running the Race to Revolutionize Women's Sports* and winner of the New York City Marathon. It's hard to imagine an outdoor adventure that starts at the George Washington Bridge. But Ken's 350-mile thru run was exactly that, without the assistance of course markings, aid stations, a dedicated support crew, or even sometimes a navigable trail. This is an entertaining and informative read. Andrew Skurka, author of *The Ultimate Hiker's Gear Guide: Tools and Techniques to Hit the Trail*. Decades of conservation work have produced a remarkable long-distance trail that links together some of New York's wildest and most beautiful places. Whether you are an ultrathoner or an armchair hiker, I have been both; you will find this book a captivating and lyrical journey. Robert Anderberg, Vice President and General Counsel, Open Space Institute. When you pursue your dreams, you may discover you have deep wells of strength that you never knew. And you may find yourself inspiring others to chase their dreams too. Lisa Smith Batchen, coach and motivational speaker. Ken Posner inspires the already inspired. We are both advocates of the fastest known time (FKT). Ken Posner's FKT over the entire 350-mile Long Path highlights the importance of this historic and significant trail. His record accomplishment, despite extreme challenges,

highlights the fact that Ken Posner is truly one of the most versatile talented and toughest distance runners of our generation Frank Giannino two time Transcontinental Runner and Guinness World Records holder Some of us seek out unique challenges We re looking not only to test our limits but to forge connections with the earth and honor those who came before us Ken follows in these footsteps sharing his fast paced and meaningful story in Running the Long Path Marshall Ulrich author of Running on Empty An Ultramarathoner s Story of Love Loss and a Record Setting Run Across America

Making Mountains David Stradling,2009-11-23 For over two hundred years the Catskill Mountains have been repeatedly and dramatically transformed by New York City In Making Mountains David Stradling shows the transformation of the Catskills landscape as a collaborative process one in which local and urban hands capital and ideas have come together to reshape the mountains and the communities therein This collaboration has had environmental economic and cultural consequences Early on the Catskills were an important source of natural resources Later when New York City needed to expand its water supply engineers helped direct the city toward the Catskills claiming that the mountains offered the purest and most cost effective waters By the 1960s New York had created the great reservoir and aqueduct system in the mountains that now supplies the city with 90 percent of its water The Catskills also served as a critical space in which the nation s ideas about nature evolved Stradling describes the great influence writers and artists had upon urban residents especially the painters of the Hudson River School whose ideal landscapes created expectations about how rural America should appear By the mid 1800s urban residents had turned the Catskills into an important vacation ground and by the late 1800s the Catskills had become one of the premiere resort regions in the nation In the mid twentieth century the older Catskill resort region was in steep decline but the Jewish Borscht Belt in the southern Catskills was thriving The automobile revitalized mountain tourism and residence and increased the threat of suburbanization of the historic landscape Throughout each of these significant incarnations urban and rural residents worked in a rough collaboration though not without conflict to reshape the mountains and American ideas about rural landscapes and nature
