The Cultural Creatives Paul H. Ray, Sherry Ruth Anderson, 2000 Are You a Cultural Creative Do you dislike all the emphasis in modern culture on success and making it on getting and spending on wealth and luxury goods Do you care deeply about the destruction of the environment and would pay higher taxes or prices to clean it up and to stop global warming Are you unhappy with both the left and the right in politics and want to find a new way that does not simply steer a middle course In this landmark book sociologist Paul H Ray and psychologist Sherry Ruth Anderson draw upon thirteen years of survey research studies on more than 100 000 Americans plus more than 100 focus

groups and dozens of in depth interviews They reveal who the Cultural Creatives are and the fascinating story of their emergence over the last generation using vivid examples and engaging personal stories to describe their distinctive values and lifestyles The Cultural Creatives care deeply about ecology and saving the planet about relationships peace and social justice about self actualization spirituality and self expression Surprisingly they are both inner directed and socially concerned they re activists volunteers and contributors to good causes more often than other Americans But because they ve been so invisible they are astonished to find out how many others share both their values and their way of life Once they realize their numbers their impact on America promises to be enormous shaping a new agenda for the twenty first century What makes the appearance of the Cultural Creatives especially timely is that our civilization is in the midst of an epochal change caught between globalization accelerating technologies and adeteriorating planetary ecology A creative minority can have enormous leverage to carry us into a new renaissance instead of a disastrous fall The book ends with a number of maps for the remarkable journey that our civilization is embarked upon initiations evolutionary models scenarios and the elements of a new mythos for our time The Cultural Creatives offers a more hopeful future and prepares us all for a transition to a new saner and wiser culture *The Caves Temples of India* James Fergusson,1880 *Endless Caverns* Douglas Reichert

Powell,2018-03-20 For generations enterprising people in the southern Appalachians have turned the region s extensive network of caves into a strange fascinating genre of tourist attraction Visitors pay admission to take a tour deep underground learning a little about history and geology while puzzling over lit up rock formations said to resemble anything from Niagara Falls to the Capitol dome Then off go the lights enveloping the travelers in total darkness until the guide flips them back on and welcomes folks back into the safety of the inevitable gift shop Show caves as Douglas Reichert Powell explains in *Endless Caverns* are at once predictable and astonishing ancient and modern eerie and sentimental Their story sparks memories of a fleeting cool moment deep underground during a hot summer vacation capturing in microcosm the history and culture of a region where a deeply rooted sense of place collides with constant change Reichert Powell takes readers along on his journey through the past and present of Appalachia s show caves highlighting the characters who have owned and operated them the ways the attractions have developed and changed over the years and the odd intrigue that still leads people to buy their ticket and head underground Tourist tastes may shift as interstates whisk travelers past the backroads and on to trendier destinations but the show cave like Appalachia itself endures **Reborn In Jiejiao, I Awakened The Voice Of Fate**
