**Nagarjuna's Philosophy** K. Venkata Ramanan, 2016-01-01 This work is an exposition of the philosophic conceptions basic to Mahayana Buddhism as found in the Maha prajnaparamita sastra a commentary on the Prajnaparamita sutras and traditionally attributed to Nagarjuna. The sastra, the earliest and most extensive work in this field, is lost in its Sanskrit original and preserved only in a Chinese translation. Meaning of Sanskrit and Chinese terms are expounded; concepts are made clear and supplementary materials are supplied in the notes. The study is prefixed with a short historical account of the broad lines of Buddhist philosophy in its early stage. The aim of this work is to elucidate the meaning of the Middle Way, the way of comprehension. Everything stands in harmony with him who stands in harmony with Sunyata which is not a rejection of existence or of understanding but of the misconstruction of the sense of the real or the error of misplaced absoluteness which is the origin of clinging and the root of conflict and suffering.

**Nagarjuna, Buddhism's Most Important Philosopher**, 2010 Description Nagarjuna stands second only to the Buddha in his importance in Buddhist thought. The concept of emptiness, shunyata, became the central ontological concept in Mahayana Buddhism thanks to his effort. Not only did he found the Madhyamaka tradition in India, understanding his philosophy is needed to understand the Zen tradition and the Dalai Lama's Tibetan tradition. Included here are translations from the Sanskrit of his most important philosophical works into plain English so that the general educated public interested in Buddhism or philosophy can understand his thought. Also included are separate commentaries and a bibliography of further readings. The works presented here collectively constitute what the Tibetans call Nagarjuna's analytic corpus. Translated from the original Sanskrit are the Fundamental Verses of the Middle Way, the Mula madhyamaka karikas, Overturning the Objections, the Vighraha vyavartani with Nagarjuna's own commentary and the philosophical portions of the Jewel Garland of Advice, the Ratnavali. Three works that are no longer extant in Sanskrit are summarized here: Seventy Verses on Emptiness, Shunyata saptati karikas, Sixty Verses on Argument, Yukti shashtikas, and Pulverizing the Categories, Vaidalya prakarana. This book now has a second edition that revises all in this edition and adds more.
